Resolution on the revocation of the authorisation of the Management Board to issue convertible bonds in the unused amount in connection with a new authorisation of the Management Board to issue convertible bonds and exclusion of the shareholders' subscription rights as well as conditional capital and related amendments to the Articles of Association.

The following resolution has been passed:

- 1.1. The authorisation of the Management Board granted in the shareholder's meeting on 7 May 2013 to issue convertible bonds shall be withdrawn in the unused amount and the Management Board shall be authorised for a period of five years starting with the date of the resolution, with the consent of the Supervisory Board, to issue convertible bonds up to a total nominal amount of Euro 750,000,000.00 with conversion and/or subscription rights in respect of up to 19,761,667 ordinary bearer shares of the company representing a pro-rata amount of the share capital of the company of up to Euro 143,667,319.09, also in several tranches and to determine all other terms of the convertible bonds as well as in respect of the issuance and the conversion procedure. The convertible bonds may be issued against cash and also for contribution in kind. The shareholders' subscription rights are excluded. The authorisation to issue convertible bonds may also be exercised repeatedly. In that case the total number of (i) the shares already issued to holders of convertible bonds according to this authorisation and (ii) the shares in relation to which conversion and/or subscription rights may be exercised out of convertible bonds already issued and out of convertible bonds that may be issued pursuant to the repeated exercise of the issuance authorisation, must not exceed the total maximum amount set out in this resolution. The same applies mutatis mutandis for the total nominal amount of the convertible bonds set out in this authorisation. The fulfilment of the conversion and/or subscription rights can be effected through conditional capital, authorised capital, out of treasury shares or by way of delivery from third parties or a combination thereof.
- 1.2. Under this authorisation convertible bonds may only be issued, if the total number of new shares for which conversion and/or subscription rights are granted by such convertible bonds shall not exceed 20% (twenty per cent) of the share capital at the time this authorisation is resolved upon. The number of those new shares shall be included for the calculation of this limit, which have been issued from authorised capital under exclusion of the shareholders' subscription rights during the term of this authorisation; further, the number of those shares, for which conversion and/or subscription rights are granted by way of convertible bonds issued under exclusion of subscription rights on the basis of another authorisation during the term of this authorisation.

- 1.3. The Management Board shall be authorised to determine, with the consent of the Supervisory Board and in accordance with the provisions of the Austrian Stock Corporation Act, the terms of issuance and the terms and conditions of the convertible bonds, in particular interest rate, issue price, maturity and denomination, dilution adjustment, conversion period and/or conversion date, conversion rights and/or conversion obligations, conversion ratio and conversion price as well as the terms for conversion and/or subscription. In particular, the following terms and conditions (or a combination thereof) may be provided for:
- i. additional cash payment and consolidation or cash settlement for fractional amounts that cannot be converted;
 - ii. fixed or variable conversion ratio or the determination of the conversion price within a specified range dependent on the company's share price development during the term of the convertible bonds;
 - iii. the company's right, in case of conversion (exercise of the conversion and/or subscription right) not to deliver shares, but to pay an adequate cash amount on the basis of the company's share price;
 - iv. the company's right to redeem the convertible bonds prior to maturity at the nominal amount;
 - v. the right of the convertible bond holders to request redemption of the convertible bonds prior to the maturity date at the nominal amount; or
 - vi. the conversion obligation (conversion and/or subscription obligation) at the maturity date (or at another date) or the company's right to wholly or partially deliver shares of the company at the maturity date instead of making a cash payment to the holders of convertible bonds.
- 1.4. The convertible bonds may also be issued by a directly or indirectly wholly owned subsidiary of CA Immobilien Anlagen Aktiengesellschaft; in such case the Management Board shall be authorised, with the consent of the Supervisory Board, to issue a guarantee in respect of the convertible bonds and, in case of conversion (exercise of conversion and/or subscription rights) to deliver shares of the company.
- 1.5. The price of the convertible bonds shall be determined with regard to market-standard calculation methods in a market-standard pricing procedure. The price (issue price) of the convertible bonds thereby has to be determined by the price (issue price) of an ordinary fixed-interest bond and the price for the conversion rights taking into consideration the other terms and conditions. The issue price of a bond is determined on the basis of market-standard calculation methods subject to maturity of the bond, interest rate, current market interest rate as well as considering the credit rating of the company. The value of the conversion and/or subscription right is calculated by means of option price calculation, in particular considering maturity/exercise period, share price development (volatility) or other financial key performance indicators as well as the relation of the conversion and/or subscription price to the share price. Further conditions, e.g. rights of early redemption, a conversion obligation and a fixed or variable conversion ratio are to be considered.
- 1.6. The issue price of the shares issued upon exercise of conversion (exercise of the conversion and/or subscription right) and the conversion and/or subscription ratio shall be determined with regard to market-standard calculation methods and the stock market price of the shares of the company (basis of the calculation of the issue price); the issue price must not be below the pro-rata amount of the share capital.
- 1.7. The share capital shall be conditionally increased in accordance with sec 159 para 2 no 1 of the Austrian Stock Corporation Act by up to Euro 143,667,319.09 by issuance of up to 19,761,667 new ordinary bearer shares. The conditional capital increase shall be executed to the extent that conversion and/or subscription rights of holders of convertible

bonds issued by the company on the basis of the resolution of the shareholder's meeting of 9 May 2018 are fulfilled. The issue price and the conversion and/or subscription ratio shall be determined with regard to market standard calculation methods and the stock market price of the shares of the company (basis of the calculation of the issue price); the issue price must not be below the pro-rata amount of the share capital. The executive board shall be authorised, subject to the approval of the Supervisory Board, to determine further details of the execution of the conditional capital increase (especially issue price, rights attached to the shares, dividend entitlement). The supervisory board shall be authorised to resolve upon amendments of the Articles of Association resulting from the issuance of shares from the conditional capital.

- 1.8. The Articles of Association are amended in Article 4 (Registered Capital and Shares) to the effect that para 4 shall now read as follows:

“The share capital will be increased according to Section 159 para 2 no 1 of the Austrian Stock Corporation Act by up to EUR 47,565,458.08 through the issue of up to 6,542,704 ordinary bearer shares in the company (contingent capital increase 2013). The conditional capital increase will only be realised, if the bearer of the convertible bonds issued on the basis of the resolution of the Ordinary General Meeting on 7 May 2013 exercise their right to issue or to convert the convertible bonds into ordinary bearer shares. The amount of capital issued and the exchange ratio are to be established in compliance with recognised actuarial methods and the price of the company's ordinary shares in a recognised price fixing procedure (principles governing the calculation of the issue amount); the issue amount shall not be less than the pro rata amount of the share capital. The Management Board is authorised with the approval of the Supervisory Board to determine the other details of the conditional capital increase (in particular the issue price and the scope of the rights inherent in the shares). The Supervisory Board is authorised to adopt amendments to the Articles of Association arising from the issue of shares on the basis of the conditional capital increase.”

and a new para 5 shall be added to Article 4 that shall read as follows:

“The registered capital of the company is increased conditionally in accordance with sec 159 para 2 no. 1 of the Austrian Stock Corporation Act (Aktiengesetz) by up to Euro 143,667,319.09 by issuance of up to 19,761,667 new ordinary bearer shares (contingent capital increase 2018). The conditional capital increase shall be executed to the extent that conversion and/or subscription rights of holders of convertible bonds issued by the company on the basis of the resolution of the shareholders' meeting of 9 May 2018 are fulfilled. The issue price and the conversion and/or subscription ratio shall be determined with regard to market standard calculation methods and the stock market price of the shares of the company (basis of the calculation of the issue price); the issue price must not be below the pro-rata amount of the share capital. The Management Board shall be authorised, subject to the approval of the Supervisory Board, to determine further details of the execution of the conditional capital increase (especially issue price, rights attached to the shares, dividend entitlement). The Supervisory Board shall be authorised to resolve upon amendments of the Articles of Association resulting from the issuance of shares from the conditional capital.”
