

ANNUAL REPORT 2015

CA IMMO

URBAN
BENCHMARKS.

Our business model can be described conventionally with a commercial strategy and lots of figures.

See back for the key figures for the business year 2015.

Or simply:
Our business is satisfied,
successful tenants.

Today, high-quality offices are much more than just a workplace; they are spaces for coming together, growing and developing. Those who develop properties of the highest standards and hold a first-class quality portfolio thus ensure a sustainable income and organic growth of their assets.

RIVER PLACE
Bucharest

Customer satisfaction speaks for itself. Also in the balance sheet.

Those who consistently develop and manage offices with the tenants in mind, receive the greatest confirmations directly from the people who work there every day. This leads to well-utilized properties, long-term property relationships and resilient revenues.

FFO I

81 m€

REVENUE GOALS EXCEEDED

Significant increase in the sustainable profitability of the Group over the year's goal of € 80 m.

FFO II

121 m€

HIGHEST PROFITABILITY

The important indicator of the overall profitability remains at a high level.

DIVIDENDS PER SHARE

0.5 €

PROGRESSIVE DIVIDEND POLICY

CA Immo pursues the core target of ensuring attractive dividends for shareholders for the long term and has increased dividends for a third consecutive year to 50 cents per share.

EQUITY RATIO

53 %

FIRST-CLASS CAPITAL BASE

The robust capital base was continuously increased in recent years and is an important factor for the stability of the CA Immo Group.

LOAN-TO-VALUE

37 %

SOLID FINANCING

A solid financial structure with a conservative ratio of debt to the property portfolio allows room for organic growth.

RETURN ON EQUITY

11 %

SHAREHOLDER VALUE

The record net profit for the Group in 2015 of € 221 m resulted in a double-digit return on equity.

INVESTMENT PROPERTIES

BOOK VALUE

3.0

bn €

Contributing around 89% of total property assets, the investment property area is CA Immo's main source of income. The quality of the existing properties are constantly optimized.

OFFICE SHARE

85

%

As part of the strategic focusing of the portfolio, the office proportion of 79 % (31.12.2014) was increased to 85 % on the balance sheet date.

CERTIFICATION RATE

42

%

42% of the CA Immo office spaces are certified according LEED, DGNB or BREEAM standards. ^[1]

OCCUPANCY RATE

93

%

The occupancy rate for the asset portfolio ^[2] rose from 90.7 % (31.12.2014) to 92.7 % on 31 December 2015. Continuous tenant retention and acquisition to maintain stable, recurring rental income is the primary corporate goal.

Architecture is about balance. The same is true for our business areas.

A well-balanced ratio of the business areas of CA Immo Group is a guarantee for sustainable development: Project development with our own land reserves ensures the organic growth and long-term high quality of the existing first-class portfolio, which is consistently and strategically optimized through careful acquisitions and sales.

PROPERTIES UNDER DEVELOPMENT

BOOK VALUE

417

 m €

Through our development activities and the acquisition of completed projects, CA Immo increases the quality of the portfolio and thereby ensures organic growth.

GERMANY

85

 %

85 % of the development activity takes place in the German market: CA Immo focuses their development activities on large, mixed-use urban district projects in the major cities of Berlin, Frankfurt and Munich.

COMPLETED PROJECTS

3

 Office Projects

In 2015 CA Immo completed three office projects in Germany: Kontorhaus, Monnet 4 and Kennedy-Haus are now part of the asset portfolio and will strengthen the current rental income.

LAND RESERVES

324

 m €

CA Immo has a number of large, urban land reserves that are increased in value through zoning changes and are utilized profitably through sales or own developments.

[1] excl. office properties with a portfolio value < € 10 m

[2] excl. the projects Kontorhaus, Monnet 4 and Kennedy-Haus which were completed in 2015 and are still in the stabilization phase

Urban benchmarks since 1987: CA Immo is the specialist for office properties in major Central European cities.

The core business of CA Immo is the rental, management and development of high-quality office buildings in the Centre of Europe. With a focused, high-quality and high-yield investment properties portfolio and a local presence on site, the group continues to set standards for users and shareholders alike.

TOWER 185
Frankfurt

PROPERTY ASSETS

3.7 bn €

CA Immo has a balanced, high-quality property portfolio of mostly class A office properties in Central European cities.

EMPLOYEES

357

The expertise of CA Immo: 357 top qualified employees at 8 locations in the core markets of Central and Eastern Europe have local market knowledge and ensure efficient management and tenant retention.

FOREWORD BY THE MANAGEMENT BOARD

DEAR SHAREHOLDERS AND READERS,

CA Immo can present an extremely successful operational year in 2015. We exceeded the financial goals set for 2015 and were able to achieve a fundamental increase in long-term profitability and ability to pay dividends to our shareholders.

Important growth stimuli

One of the major stimuli for strengthening long-term profitability was the total takeover of EBRD's minority shareholding in the Eastern European E-portfolio. This acquisition was in line with the strategy of reducing joint ventures in the asset portfolio and strengthens our core office property portfolios and hence long-term rental income in the Eastern European core markets.

The fundamental strategy of organic growth as a driver of development also progressed extremely well. Three high-quality development projects were completed and integrated into the asset portfolio in Germany in 2015: the Kontorhaus (Munich), John F. Kennedy-Haus (Berlin) and Monnet 4 (Berlin) properties. KPMG was acquired as tenant for a new office project, also in Berlin. In Frank-

furt, a long-term lease agreement was signed with Steigenberger for the construction of a 400-room hotel at the Hauptbahnhof central railway station, and the first anchor tenant was signed up for the Orhideea office project in Bucharest. Other projects are in preparation in Vienna, Munich and Berlin.

Result for 2015

FFO I, a key indicator of the group's long-term profitability, reported before taxes and adjusted for the sales result and other non-recurring effects, increased by 15.4% to € 80.8 m as compared to the previous year's figure of € 70.0 m; this was above the defined annual target of € 80 m. FFO II, which includes the sales result and is reported after taxes, indicates the group's overall profitability and, at € 121.2 m, was well above the annual target of € 100 m.

In 2015, CA Immo recorded an increase of 6.6% in rental income to € 154.8 m. This positive development was basically achieved as a result of acquisition of EBRD's minority shareholding at the start of the third quarter of 2015 and the associated growth in rents. Net

rental income amounted to € 135.6 m (2014: € 128.8 m), an increase of 5.2 %.

The overall result from real estate sales totalled € 39.6 m in 2015 (2014: € 38.6 m). Earnings before interest, taxes, depreciation and amortisation (EBITDA), at € 148.6 m, were more or less on a par with the previous year (€ 149.1 m). The cumulative revaluation result at the key date of 31.12.2015 was significantly positive at € 213.8 m (2014: € -4.2 m). The revaluation result for the German segment of the group, which was a major value driver, reflects extremely positive market conditions and the successful project completions and profitable sales of non-strategic real estate. Earnings before interest and taxes (EBIT) stood at € 402.7 m on the key date 31 December 2015 (2014: € 142.9 m).

The financial result in 2015 was € -86.7 m as compared with € -58.3 m in the previous year. The group's financing costs, a key element in long-term earnings, were substantially reduced to € -60.2 m (2014: € -81.7 m). Earnings before taxes (EBT) increased to € 316.0 m (2014: € 84.6 m). The result for the period was more than three times that for the previous year and, at € 220.8 m or € 2.25 per share, reached the highest level in the company's history (2014: € 70.8 m or € 0.76 per share).

Substantial increase in shareholder value

The record result for CA Immo in 2015 led to growth of about 11 % in Net Asset Value (NAV) per share over the course of the year to € 21.90 at the key date of 31.12.2015. On the basis of the strong operational result, the Management Board will propose that the Ordinary General Meeting held in relation to 2015 increase the dividend over the previous year to € 0.50 per share (2014: € 0.45 per share). This corresponds to distribution of some 60 % of the recurring earnings (FFO I). According to Austrian tax law, the distribution should be qualified as a repayment of capital and therefore tax-free for natural persons resident in Austria who hold CA Immo shares as personal assets. Two million treasury shares were also repurchased in the 2015 share buyback programme.

Investment Grade Rating received

In December 2015, following a comprehensive assessment of creditworthiness, the international rating agency Moody's Investors Service classified CA Immobilien Anlagen AG with an investment grade – Long Term Issuer Rating of Baa2 with a stable outlook. This rating permits increased flexibility and thus further optimisation of the financing structure as a result of improved access to the institutional debt capital market and so expands the range of financing options available.

Management Board changes

Dr. Bruno Ettenauer resigned his Management Board position as CEO (Chief Executive Officer) with effect from 31.12.2015 and, with the consent of the Supervisory Board, has left the company. Frank Nickel (56) was appointed the new CEO of CA Immo for a period of three years with effect from 01.01.2016. He has many years of international management experience in the real estate sector and his last appointment was as CEO of Cushman & Wakefield LLP in Germany. Previously, Nickel headed the Commercial Real Estate division for Germany, Austria and Switzerland at Deutsche Bank and was a member of the Commercial Real Estate Executive Committee.

Outlook for 2016

The successful implementation of the strategy for 2012 to 2015 ahead of time was followed last year by a new strategic agenda for 2015 to 2017 which is, in particular, shifting the focus back to value-creating portfolio growth within the defined core markets. The core objective is a further increase in the company's profitability. Long-term earnings (FFO I) are expected to be at least 10% above the € 81 m figure for 2015. The continuing improvement in long-term profitability is intended to be reflected in a distribution rate of about 60 % of FFO I in dividend growth.

STRATEGY

Financial goals set for 2015 were exceeded, and CA Immo was also able to achieve a fundamental increase in long-term profitability and ability to pay dividends to our shareholders in the course of our strategic agenda 2015-2017.

Company profile and business model

Developing and managing modern and spacious office properties in Central and Eastern Europe is CA Immo's core field of expertise. In regional terms, the company focuses on Austria, Germany, Poland, Hungary, the Czech Republic, Slovakia and Romania. While business activity in Germany is concentrated on the cities of Munich, Frankfurt and Berlin, the strategic focus in the other countries is directed at their capital cities. As at the key date, office properties made up close to 85% of the overall property portfolio, a proportion that is set to further expand.

The generation of value for the company's shareholders is based on a comprehensive chain of value creation, from the design and development of entire urban districts to the active management of investment properties. The business model of the CA Immo Group aims at the generation of stable rental earnings from a first-class pool of tenants with high levels of creditworthiness, plus additional earnings from property development and the sale of real estate.

Dynamic realisation of our strategy for 2012-2015

The successful implementation of the strategy programme 2012-2015 ahead of time led to a solid balance sheet, a more balanced and focused portfolio and a more efficient business platform. Since 2012 the Group's equity ratio of around 30% was significantly increased to 53% at the reporting date 31.12.2015. Over the same period, the loan-to-value ratio improved substantially from 58% to 37% and reflects the solid financial structure of the Group.

Through the sale of non-strategic assets, particularly logistics properties in Eastern Europe, the real estate portfolio of CA Immo has become more efficient and focused. The portfolio share of the core product of the company, large-scale, energy-efficient core office properties in the major cities of Central and Eastern Europe could be expanded further. The occupancy rate of the portfolio increased in the same period from 88% to 93% at the end of business year 2015.

The streamlining of the corporate structure resulted in savings of around 20% of the administrative costs of the group, the reduction of minority interests at the property

level have increased operational efficiency. This significant substantiated corporate and portfolio profile strengthened the sustainable profitability of CA Immo and represents the fundamental basis for future qualitative growth of the Group.

New strategy agenda 2015-2017

The successful realization of the strategy 2012-2015 ahead of time follows the new strategic agenda 2015-2017. The strategy focuses, besides the final sale of non-strategic assets (1) and further optimization of the financing structure (2), on value-creating growth in the CA Immo Group within the defined core markets (3 and 4). The continuous improvement of the group's sustainable cash flow remains priority. The return on equity of 5% from the current rental business is defined as a medium-term target. The company is also aiming to generate additional annual earnings contributing a return on equity of at least 2% to the overall result through the business areas of property sales and real estate development.

Main **drivers of value** in this context are:

1. Continuing optimization of the portfolio

The strengthening of our position on key existing markets through local asset management teams takes strategic priority over entering new markets. To be able to operate these local platforms with efficiency, a critical portfolio size and operational focus are required. Remaining non-strategic properties, including a portion of the land reserves in Germany, smaller or other than office use properties in the core markets and property holdings in secondary markets (Croatia, Serbia and Bulgaria), shall be sold. Further monetisation of land reserves in Germany should reduce that part of NAV which does not contribute recurring revenue to the overall result. No new investment will be made and medium-term exit strategies will be agreed on markets where CA Immo does not have critical mass (Croatia, Serbia, Slovenia, Bulgaria).

CA Immo made good progress in this respect in 2015. The successful sale of the CEE logistics portfolio in the first quarter of the year has sharpened the focus on high-quality office buildings in the four strategic core markets of Warsaw, Prague, Budapest and Bucharest in Central and Eastern Europe while further enhancing operational efficiency and therefore the earnings power of the Group's CEE portfolio.

The further optimisation of the Austrian portfolio by means of the sale of small properties or real estate that is non-strategic outside the core market of Vienna and the operational core segment of office properties has also

been implemented successfully. In Germany, the extremely profitable sales of non-strategic properties, such as a logistics asset in Hamburg, and of site areas in Berlin, made use of the currently highly favourable market window and generated a significant contribution to the record result for 2015.

The reduction in non-strategic real estate, which has already been substantially implemented, should be largely completed within the next one to two years, so that CA Immo's portfolio focus on high-quality office buildings in its core markets will continue to be increasingly evident and operational efficiency should further improve.

2. Further optimization of the financing structure

Average cost of debt is a major driver of the recurring profitability of CA Immo. Establishing the most effective possible structuring and optimisation of financing with outside capital is highly relevant; alongside successful management of the real estate portfolio, this is one of the key factors in the overall result of CA Immo. The consistent strategy implementation has resulted in a strong capital base with substantially strengthened equity. Apart from significant improvement of balance sheet ratios, as outlined above, the average financing costs were reduced substantially over the past 18 months. During the course of business year 2015, the average financing costs of the Group, which stood at 4.1% at the reporting date 31.12.2014, were significantly reduced to 2.9%. The annual target of 3.0% was therefore exceeded. The use of cash and cash equivalents to optimise the financing structure through the repayment of costly loans and the use of derivatives for interest rate hedging were the key drivers.

3. Real estate development driving growth

The central drivers of organic growth will continue to be in-house development and the transfer of modern, energy efficient core properties on the main markets of CA Immo to the investment portfolio upon completion. In Germany in particular, the expertise of CA Immo in the field of real estate development and land reserves forming part of the portfolio amount to a strategic advantage in securing highly competitive access to high quality assets in urban centres.

Many successfully completed projects in Germany with renowned tenants such as PricewaterhouseCoopers, Robert Bosch, Total, Mercedes-Benz, White & Case, Airbus or Google have highlighted the development expertise of the company and improved access to leading ten-

ants as the basis for new development projects. As in recent years, the German market will remain the focus of the company's development activity. The CA Immo Group's strong position as a property developer in Germany is critical since this provides consistent access to high value office properties and thus the organic growth of cash flow from rental payments.

Three high-quality development projects were completed and integrated into the asset portfolio in Germany in 2015: the Kontorhaus (Munich), John F. Kennedy-Haus (Berlin) and Monnet 4 (Berlin) properties. KPMG was acquired as tenant for a new office project, also in Berlin. In Frankfurt, a long-term lease agreement was signed with Steigenberger for the construction of a 400-room hotel at the Hauptbahnhof central railway station, and the first anchor tenant was signed up for the Orhideea office project in Bucharest. Additional projects in Berlin, Frankfurt, Munich, Bucharest and Vienna have been started or are in preparation.

4. Real estate acquisitions as additional growth stimulus

In addition to the development business of the Group the core market portfolios should be bolstered by selective acquisitions, which should also provide rental revenue. External, value-creating growth opportunities shall be used to strengthen the Group's market position and are primarily seen in the Eastern European core markets of CA Immo. The Group's operational platform that has been optimized in recent years, along with a strong financial profile and the local market expertise of the in-house asset management teams form a solid basis for the implementation of the Group's growth strategy on all core markets.

In the second quarter 2015, negotiations with the European Bank for Reconstruction and Development (EBRD) concerning the acquisition of its minority shares in the E-portfolio were successfully concluded. With this acquisition, CA Immo has increased its share in high-quality office buildings in Prague (Amazon Court, Nile House, Kavci Hory), Bucharest (Europe House, River Place), Budapest (City Gate, Infopark West) and Zagreb (Zagreb Tower) from 65% (or 75%) to 100%. This acquisition was in line with the strategy of reducing joint ventures in the asset portfolio and strengthens the core office property portfolios and hence long-term rental income in the Eastern European core markets. Furthermore, the EBRD buy-out has also increased once more the efficiency of the portfolio management and substantially reduced structural complexity as the portfolio was previously recog-

nized at equity. As a consequence of the transaction, approx. € 500 m of properties was added to the balance sheet in the third quarter.

Attractive dividends

CA Immo has positioned itself as a dividend payer with the long term objective of offering shareholders attractive payouts on a regular basis. The more stable profitability in the rental business over the long term is the critical factor in the company’s dividend capacity. The aforementioned measures will seek to further improve the profitability criterion, thus facilitating continued dividend growth. The continuing improvement in long-term profitability is intended to be reflected in a distribution rate of about 60% of FFO I in dividend growth.

Investment grade rating as strategic component

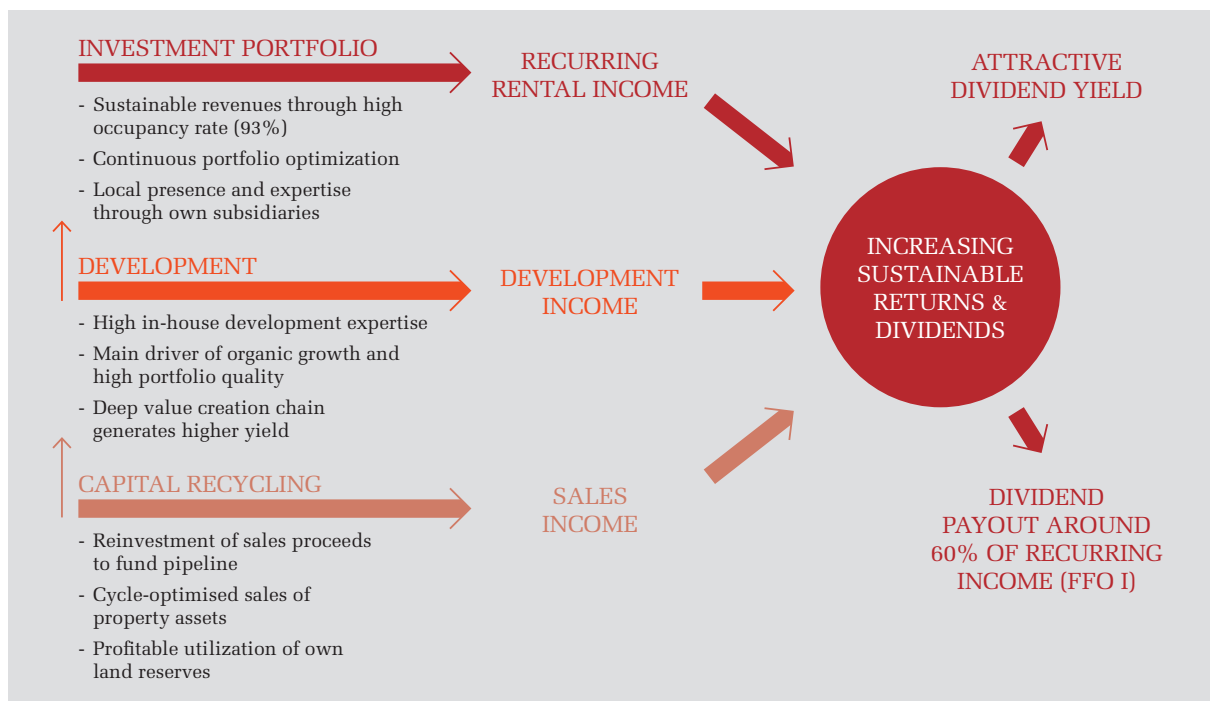

In December 2015 Moody’s Investors Service, the international rating agency, classified CA Immobilien Anlagen AG with a Baa2 investment grade (long-term issuer) rating with stable outlook. The credit report published by Moody’s emphasised the high quality and regionally diversified portfolio of office properties, the low tenant concentration risk, the low level of gearing and the conservative financing policy as particularly positive factors.

The key indicators in retaining and upholding the corporate credit investment grade rating, which is of strategic priority for CA Immo, are a strong balance sheet with low gearing, recurring earnings power, an associated solid interest coverage ratio and a sufficiently large quota of unsecured properties (please refer to “Financing” section).

Sustainability: ensuring long-term competitiveness

Buildings cause about 40% of all CO2 emissions in the industrialised nations. This fact encourages CA Immo to place a high priority on sustainability, in both construction and management of its properties. By meeting a broad range of certification requirements, the careful use of resources, and the transport of these, together with effects on health, are all taken into account. At 31.12.2015, 42% of CA Immo’s office rental space was certified under DGNB, LEED or BREEAM standard. Additional income-producing buildings and development projects are currently undergoing certification (see also “Sustainability” section). All new office and hotel buildings erected by the CA Immo Group are built to meet certification standards. By 2018, approximately 65% of the office rental space in the CA Immo portfolio should have a sustainability certificate.

CA IMMO BUSINESS MODEL

INVESTOR RELATIONS

CAPITAL MARKETS PUT TO THE TEST

In 2015, international stock markets were dominated by the zero interest rate policy of the central banks, geopolitical events in Ukraine and Syria and terrorist attacks. China experienced a stock market crash in the summer as share prices collapsed on markets around the world. In particular, the devaluation of the Chinese currency in August prompted considerable unrest on markets. At the same time, the strength of the US dollar and sharply declining commodity prices intensified the debt crisis in a number of emerging countries, leading in turn to sharp falls in the currencies of some emerging nations. Such developments – and especially the steep fall in the oil price and the gradual tightening of monetary policy in the USA – were felt keenly on European markets. In this volatile environment, the real estate sector, with its positive trends, stood as an exception; the continuing period of low interest rates provided powerful impetus for property companies.

Capital market outlook for 2016

Stock markets around the world experienced a poor start to the New Year. The turbulence was the product of various combining factors, including the weakness of Chinese stock markets, devaluation of the yuan and the added weakness of commodity prices. Western central banks attempted to counter this by signaling the continuation of an accommodating monetary policy.

All forecasts point to greater risk to the general global economy. The International Monetary Fund (IMF) has predicted marginally declining global economic growth for 2015 (3.2%) and expects the figure to rise to 3.6% in 2016 and 3.8% in 2017. The main reason for the anticipated trend has been the decision of the US Federal Reserve to raise interest rates by 0.25 base points for the first time in nine years allied with general fiscal and geopolitical instability. The outlook for industrialised nations has been downgraded only slightly; in particular, the economic situation in the EU should continue to improve for the fourth successive year. To counter economic downturn and inflation within the eurozone, the European Central Bank adopted the investment programme proposed by the European Commission in November 2014 while announcing the expansion of its bond purchase programme. A minimum investment volume of € 315 bn was approved for strategic infrastructure projects. The factors influencing international share markets will be the same in 2016.

Aside from the monetary policy of central banks, the most fundamental factors will be the development of the US dollar, the oil price and interest rates.

RATE DEVELOPMENT, STOCK EXCHANGE SALES AND MARKET CAPITALISATION FOR THE CA IMMO SHARE

Early in the year 2015, the CA Immo share maintained the positive trend of the previous year. The share opened the new business year at € 15.46, reaching a high for the year of € 18.59 on 12 February. From mid-February onwards, however, the share price was more volatile: during the second quarter the share price fell sharply, reaching a low for the year of € 14.82 on 24 August. Despite this the share rallied slightly quarters three and four to close at € 16.83 on 31 December 2015, up some 9% since the start of the year. By comparison, the ATX increased 11% over the same period while EPRA, the European index for real estate, rose by 16%. The discount to NAV for the CA Immo share was -23.16% on the final day (against -21.53% on 31 December 2014, based on the diluted NAV/share).

At the end of 2015, market capitalisation for CA Immo stood at € 1,662.9 m (compared to € 1,531.5 m on 31.12.2014). Since the end of 2014, the average trading volume has risen by approximately 15% to 431,700 shares (against 374,400 on 31 December 2014). The average liquidity of the CA Immo share rose by approximately 35% in the last business year to € 7,319.1 K per trading day (€ 5,417.1 K in the previous year). CA Immo is currently weighted at approximately 4% on the ATX.

ANALYST COVERAGE

With Goldman Sachs resuming coverage ('neutral'), CA Immo is now assessed by eight investment companies. In its most recent analysis, Deutsche Bank confirmed its buy recommendation and its target price of € 22.00. Analysts at Goldman Sachs remained 'neutral' while raising the target price for the CA Immo share from € 19.00 to € 19.40. Raiffeisen Centrobank switched the share from 'hold' to 'buy' with a target price of € 19.40. HSBC analysts lowered their target price from € 19.50 to € 18.60 and affirmed their 'hold' recommendation. In overall terms, the 12-month target rates most recently published fluctuated between € 16.00 and € 22.00. The valuation median of € 19.40 implies upside potential of 15% (based on the closing price for 31 December 2015).

CAPITAL STOCK AND SHAREHOLDER STRUCTURE

The company’s capital stock amounted to € 718,336,602.72 on the balance sheet date. This was divided into four registered shares and 98,808,332 bearer shares each with a proportionate amount of the capital stock of € 7.27. As at the balance sheet date, the company held 2,000,000 treasury shares (for details of the share buyback programme for 2015 please see below). The bearer shares trade on the prime market segment of the Vienna Stock Exchange (ISIN: AT0000641352). The registered shares are held by O1 Group Limited (‘O1 Group’), a private holding company based in Cyprus. For more information on the organisation of shares and the rights of shareholders, please refer to the corporate governance report. With a shareholding of 26% held indirectly via EG Real Estate Fund I Limited, O1 Group is the largest shareholder in CA Immo, constituting approximately 50% of the capital represented at the 28th Ordinary General Meeting. The remaining shares of CA Immo (approximately 74% of the capital stock) are in free float with both institutional and private investors. The second largest shareholder is AXA S.A. with a holding of approximately 4%, held in turn via various mutual funds. The company is not aware of any other shareholders with a stake of more than 4% or 5%.

Share buybacks successfully concluded

On 12 May 2015, CA Immo commenced a programme of repurchasing its treasury shares on the basis of the enabling resolution passed at the 27th Ordinary General Meeting on 8 May 2014 in accordance with article 65 subsection 1 line 8 of the Stock Corporation Act.

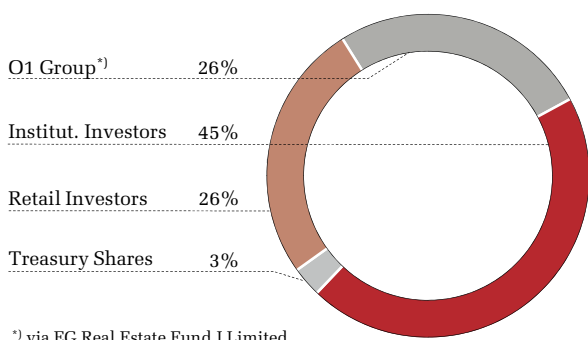

Up to and including 9 December 2015, CA Immo acquired a total of 2,000,000 bearer shares (ISIN AT0000641352) of the company via the share market for a total purchase price of around € 32.3 m.

The weighted price paid was therefore approximately € 16.13 per share. The highest/lowest price per share in the buyback programme was € 17.00/€ 14.93 respectively. As at 31 December 2015, CA Immobilien Anlagen AG held 2,000,000 treasury shares in total; given the total number of voting shares issued (98,808,336), this is equivalent to around 2% of the voting shares.

The Management Board has announced another share buyback programme for the new business year on the basis of the same authorisation. Between 13 January 2016 and 19 February 2016, CA Immo acquired another 1,000,000 CA Immo shares for a total purchase price of around € 15.4 m. The weighted price was approximately € 15.39 per share. The highest/lowest price per share in this buyback programme was € 16.38/€ 14.39 respectively. At the time of publication of this report, CA Immobilien Anlagen AG thus held a total of 3,000,000 treasury shares, equivalent to some 3% of the voting shares.

Details of transactions completed as part of the buyback programme are published at <http://www.caimmo.com/en/investor-relations/share-buy-back-ca-immo/>.

SHAREHOLDER STRUCTURE

INSTITUTIONAL INVESTORS BY REGION

OUTCOME OF THE ORDINARY GENERAL MEETING

The 28th Ordinary General Meeting, held on 28 April 2015 and attended by 526 shareholders and their delegates (representing around 52% of the capital stock), recommended payment of a dividend amounting to 45 cents per share. The dividend was paid on 7 May 2015 and the ex-dividend date was 5 May 2015. The payment took the form of a capital repayment under Austrian taxation law and was thus tax-free for natural persons living in Austria holding CA Immo shares as personal assets. Alongside the usual agenda items (approval of the actions of Management and Supervisory Board members, the definition of Supervisory Board remuneration and confirmation of KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft of Vienna as the (Group) auditor for business year 2015), the meeting resolved to expand the Supervisory Board from the original six to the present eight members. Richard Gregson and John Nacos were elected to the Supervisory Board as of 28 April 2015. Their term of office will run until the end of the Ordinary General Meeting that rules on business year 2019. The terms of office of Barbara A. Knoflach, Franz Zwickl, Dmitry Mints and Michael Stanton were also extended to 2020. The Management Board was also authorised to increase the capital stock by up to € 215,500,975 (approximately 30% of current capital stock) by 31 August 2018 through cash or contribution in kind against the issue of up to 29,642,500 bearer shares (in several batches if required), thereby observing the statutory subscription right (article 153 section 6 of the Austrian Stock Corporation Act) and determining the issue price and conditions by agreement with the Supervisory Board. Various amendments to the statutes were also on the agenda. All information and documents relating to Ordinary General Meetings may be viewed at <http://www.caimmo.com/en/investor-relations/ordinary-general-meeting/>.

DIVIDEND POLICY

Management Board proposes higher dividend

The level of the dividend is determined by profitability, growth prospects and the capital requirements of the CA Immo Group. The dividend should increase broadly in parallel with net asset value (NAV). At the same time, the company will aim to ensure the continuity of the dividend trend, which means a steady dividend payout ratio of around 2.5% of NAV. CA Immo will continue with this dividend policy in the future. The actual proposed dividend will generally be announced in tandem

with the publication of annual results. For business year 2014 it stood at € 0.45, an increase of around 13% on the previous year's value. Based on the closing price for 2014 (€ 15.50), the dividend yield was 3%. For the business year 2015, the Management Board will propose a dividend of € 0.50 per share. Compared to last year, this represents another rise of approximately 11%. In relation to the closing price as at 31 December 2015 (€ 16.83), the dividend yield is back to approximately 3%. The dividend will be paid on 10 May 2016 (the record date and ex-dividend day are 9 May/6 May 2016 respectively).

CA IMMO BONDS ¹⁾

As at 31 December 2015, two CA Immo corporate bonds were registered for trading on the unlisted securities market of the Vienna Stock Exchange.

The **5.125% CA Immo bond 06-16** (ISIN: AT0000A026P5) with a nominal value of € 200 m is registered for trading on the unlisted securities market of the Vienna Stock Exchange. In 2015, it traded between the low price of 102.536 (low for 2014: 103.02) and the upper value of 105.257 (high for 2014: 106.75); the closing rate was 102.543 (104.55 in 2014). The bond will be 100% redeemed on 22 September 2016.

The **2.75% CA Immo bond 15-22** (ISIN: AT0000A1CB33) with a nominal value of € 175 m was issued in February 2015. Unless fully or partially repaid or acquired and devalued sooner, the partial bonds will be repaid at the nominal amount on 17 February 2022. The bond is registered for trading on the unlisted securities market of the Vienna Stock Exchange (ISIN AT0000A1CB33); in 2015 the rate fluctuated between 100.299 and 103.786 (102.374 on the final day).

Another corporate bond issued

In February 2016 CA Immo issued another seven-year corporate bond with a volume of € 150 m (division into shares per nominal amount of € 1,000) and a coupon of 2.75% p.a. The bond was given an investment grade rating of Baa2 with stable outlook by Moody's Investors Service Ltd ('Moody's'), the international rating agency. Private investors in Austria, Germany and Luxembourg were able to subscribe to the bond during the subscription period of 12-16 February 2016. The new **2.75% CA Immo bond 16-23** is registered for trading on the unlisted securities market of the Vienna Stock Exchange

¹⁾ Source: Bloomberg

(ISIN: AT0000A1JVU3). An application for listing on the Luxembourg Stock Exchange was made.

For more details on the bonds, please refer to the 'Financing' section.

INVESTOR RELATIONS ACTIVITIES

For CA Immo, dialogue with stakeholders, transparency and active communication are the top priorities in information policy. In addition to the legal obligation to inform (through ad hoc reports, quarterly financial reporting and so on), dialogue with analysts, institutional investors and private shareholders takes place through personal meetings at roadshows and conferences and participation in events and trade fairs specifically aimed at private shareholders. Private shareholders regularly engage in dialogue with the Investor Relations team via

the Ordinary General Meeting, investor fairs and the shareholders' phone line. Conference calls for analysts also take place at least quarterly. During the first six months of 2015, CA Immo participated in conferences and roadshows in Vienna, Frankfurt, Berlin, Munich, Zürs, Stegersbach, Amsterdam, Copenhagen, London, Warsaw, Paris, New York, Boston and Chicago; the company also arranged numerous other conference calls, investor meetings and property tours at several of its main sites. The target audience was national and international investors. Detailed information on key performance indicators, the CA Immo share, annual and quarterly results, financial news items, presentations, IR events and much more is available on the web site www.caimmo.com. Interested parties can also subscribe to our IR newsletter, which contains full details of recent developments.

SUPERVISORY BOARD REPORT

DEAR SHAREHOLDERS,

During the business year 2015, the Supervisory Board of CA Immo undertook its tasks in accordance with legislation and the articles of association at a total of 11 plenary sessions.

The Supervisory Board was closely involved in the company's strategy, which included the voluntary partial public offer of CA Immo and O1 Group Limited ('O1') to the shareholders of IMMOFINANZ, the issue of a corporate bond and the takeover of minority shares from joint ventures (EBRD) as well as numerous real estate sales, future acquisitions and project undertakings.

Central themes in regular reporting included financing and liquidity issues, developments on real estate markets, resultant opportunities and threats and property valuations. Reports on risk management, current legal proceedings and threats and the observations of Internal Auditing were discussed at regular intervals by the Audit Committee, which reported its findings to the Supervisory Board. The Management Board explained any deviations from

planned values and targets in full. Decisions and measures taken by the Management Board were transparent and raised no objections.

Evaluating the organisation and working methods of the Supervisory Board and its committees was central to an annual self-assessment exercise. The results of this evaluation and the annual activity report on compliance management were discussed in detail and corporate governance was reviewed. Generally speaking, cooperation between the Supervisory Board and the Management Board was characterised by open discussion. Contact between the Supervisory Board chairman and the Management Board underlined the openness of exchanges on matters of relevance to decision-making. All developments in the company were reported to the Supervisory Board promptly and in full.

Personnel changes in the Supervisory and Management Boards

By resolution of the 28th Ordinary General Meeting, the Supervisory Board was expanded from six to a total of eight members. At the request of the Supervisory Board and the main shareholder O1, Richard Gregson and John Nacos were newly elected to the Supervisory Board.

At the end of 2015, Dr. Bruno Ettenauer announced he would resign his mandate as Chief Executive Officer of CA Immobilien Anlagen AG as at 31 December 2015. Dr. Ettenauer joined the Management Board of CA Immo in 2006 and has served as CEO since 2009. His contract is terminated early by mutual agreement. The Supervisory Board would like to thank Dr. Ettenauer for his considerable contribution to the development of CA Immo as a leading real estate company. Frank Nickel, former CEO of Cushman & Wakefield LLP Germany, succeeded Dr. Ettenauer as the new Chief Executive Officer on 1 January 2016.

Special thanks are also due to Supervisory Board member Franz Zwickl, who resigned his Supervisory Board mandate with effect from 17 February 2016.

Committee activity in 2015

The **Audit Committee** held three meetings in the business year 2015. The annual and consolidated financial statements for 2014 (including the management reports), the corporate governance report, the internal monitoring system and the effectiveness of risk management at CA Immo were discussed and examined with the auditor and the Management Board in March 2015. In accordance

with Section 270 para. 1a of the Austrian Commercial Code (UGB), a statement was obtained from the proposed auditor, whose legal relationship with CA Immo and its senior executives was scrutinised; the fee for carrying out the audit was negotiated and a recommendation on the election of an auditor was submitted. The financial result and progress on current business activity were discussed quarterly; no objections were raised.

The **Remuneration and Nomination Committee** convened twice in 2015. The meetings focused on the extent to which targets were met for bonus payments in 2015 (for 2014) and the long-term incentive (LTI) programme for 2012-2014, the definition of targets for 2015 (performance-related pay) and the specification of criteria for the LTI programme for 2015-2017. (For details on the remuneration system at CA Immo, please refer to the 'Corporate Governance' section). The Committee was also heavily involved in the extending of Management Board mandates and the redrafting of contracts for Management Board members. The change in the composition of the Management Board was discussed at a plenary session in December.

The **Investment Committee** also held two meetings during the past business year, at which the implementation of projects in Germany, the approval of sales of non-strategic properties and various real estate acquisitions were on the agenda.

The web site www.caimmo.com and the corporate governance report contain more information on the responsibilities of the Supervisory Board and its committees.

Consolidated and annual financial statements for 2015
KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft has audited the annual and consolidated financial statements for 2015 (including the management reports) and expressed its unqualified audi-

tor's opinion. The auditor also determined that the Management Board has established a risk management system with a concept that allows it to operate in such a way as to identify developments hazardous to the company's survival at an early stage. Moreover, an evaluation of compliance with rules 1 to 76 of the Austrian Corporate Governance Code for business year 2015 found that declarations of conformity submitted by CA Immo with regard to compliance with the C and R Rules of the Code were correct.

All documents making up the financial statements, the proposal on the distribution of profit, the auditor's reports and the corporate governance report were discussed in detail by the Audit Committee in the presence of the auditor and the Management Board members and examined. After concluding the examination, no significant objections were raised. The Supervisory Board endorsed the annual financial statements, which were thus adopted in accordance with article 96 subsection 4 of the Austrian Stock Corporation Act. Taking into consideration the company's earnings performance and financial situation, the Supervisory Board indicated its consent to the Management Board's proposal on the distribution of profit.

The Supervisory Board would like to extend particular thanks to all employees for their hard work and unwavering commitment in a business environment characterised by constantly shifting challenges.

On behalf of the Supervisory Board
Dr. Wolfgang Ruttenstorfer, Chairman
Vienna, 22 March 2016

MANAGEMENT BOARD

FRANK NICKEL
CHIEF EXECUTIVE OFFICER (CEO)
 (BORN 1959)

Frank Nickel was appointed Chief Executive Officer (CEO) of CA Immobilien Anlagen AG as of 1 January 2016 and is thus responsible for corporate strategy and the operational real estate divisions (investment management, asset and portfolio management, development and engineering) as well as the human resources, organisation and IT departments. Alongside other Group functions, Mr. Nickel is a member of the supervisory board of IREBS (International Real Estate Business School of University Regensburg) and a committee member of ZIA (Zentraler Immobilien Ausschuss e.V.).

Initial appointment: 1.1.2016
 Term of office ends: 31.12.2018

FLORIAN NOWOTNY
MANAGEMENT BOARD MEMBER (CFO)
 (BORN 1975)

Florian Nowotny joined the CA Immo Group in 2008 and was appointed to the Management Board of CA Immobilien Anlagen AG on 1 October 2012. As the head of the company's financial department, he is in charge of accounting, controlling and financing as well as capital markets and investor relations – and since the beginning of 2014 also of the divisions legal affairs and corporate communications. Aside from various other functions within the Group, Mr. Nowotny does not hold any posts with external companies.

SUPERVISORY BOARD

f.l.t.r: Franz Zwickl (resigned as of 17 February 2016), Dr. Maria Doralt, John Nacos, Dr. Wolfgang Ruttenstorfer, Barbara A. Knoflach, Richard Gregson, Michael Stanton, Dmitry Mints

DR. WOLFGANG RUTTENSTORFER

Chairman of the Supervisory Board (born 1950)

Initial appointment: 13.5.2009

Term of office ends: 2019 (32nd AGM)

Independent according to C Rules 53 and 54.

Wolfgang Ruttenstorfer was a member of the Management Board from 1992 to 1997 and Chief Executive Officer and Director General of OMV from January 2002 to March 2011. From 1997 to 1999, he served as State Secretary at the Federal Ministry of Finance. **Current mandates:** Supervisory Board Chairman at Telekom Austria AG; member of the Supervisory Boards of Flughafen Wien AG and RHI AG; member of the Administration Board of NIS a.d. Naftna industrija Srbije in Serbia. He also holds various mandates in non-listed companies.

DMITRY MINTS

Deputy Chairman of the Supervisory Board (born 1981)

Initial appointment: 19.12.2014

Term of office ends: 2020 (33rd AGM)

Independent according to C Rule 53.

Between 2006 and 2011, Dmitry Mints held executive roles in various departments of Otkritie Holding, Russia's largest independent financial group. From 2009, he served on the Management Board of Birobidzhansky Plant of Power Transformers, a company belonging to the JSC Electronic Group; he is also Chairman of the Board for O1 Properties and the O1 Group. **Current mandates:** Chief Executive Officer of O1 Group Ltd. and O1 Properties Ltd.; member of the Management Board of OJSC NPF 'Telecom-Soyuz' and OJSC NPF 'BLAGOSOSTOYANIE OPS'.

DR. MARIA DORALT (born 1973)

Initial appointment: 8.5.2014

Term of office ends: 2019 (32nd AGM)**Independent according to C Rules 53 and 54.**

Maria Doralt studied law, commerce and economics in Vienna, London, Paris and Madrid. She began her career as an investment banker with Goldman Sachs in Frankfurt before gaining a licence to practise law in Austria in 2007. Ms. Doralt has been a partner at the international law firm DLA Piper since November 2013.

Current mandates: She holds no posts with listed companies at home or abroad aside from her Supervisory Board function at CA Immo.

RICHARD GREGSON (born 1966)

Initial appointment: 28.4.2015

Term of office ends: 2020 (33rd AGM)**Independent according to C Rule 53 and 54.**

Richard Gregson is an Associate of the Institute of Chartered Accountants and a registered auditor in Australia. He has more than 27 years' professional experience, most of which was spent with PricewaterhouseCoopers as a partner in the financial services field, including 17 years heading the company's real estate operations at its Moscow site. Mr. Gregson currently holds several advisory posts in the audit, accounting and governance fields. Since June 2012, he has been an independent, non-executive director of O1 Properties Ltd., where he chairs the auditing and risk committee. **Current mandates:** Management Board member at Walker Wayland Audit (WA) Pty Ltd. and Pur Integrity Pty Ltd.; member of the Administrative Board in various auditing and consulting firms and non-profit organisations.

BARBARA A. KNOFLACH (born 1965)

Initial appointment: 10.5.2011

Term of office ends: 2020 (33rd AGM)**Independent according to C Rules 53 and 54.**

Barbara A. Knoflach began her career at Deutsche Bank AG in 1986. From 1994 to 2014 Ms. Knoflach was employed by SEB AG. She was appointed head of the fund management companies in 1997 and Managing Director of the investment company SEB Investment GmbH in 1999. Ms. Knoflach was appointed CEO of SEB Asset Management AG in August 2005. She has been Global Head of Investment Management at BNP Paribas Real Estate since the middle of 2015. **Current mandates:** Member of the Supervisory Boards of HQ Capital GmbH & Co. KG.

JOHN NACOS (born 1967)

Initial appointment: 28.4.2015

Term of office ends: 2020 (33rd AGM)**Independent according to C Rule 53.**

John Nacos worked for Merrill Lynch for 11 years, where he set up and oversaw mortgage financing as well as opportunistic real estate and MBS/ABS trading activities in Europe. Between 2001 and 2011 he held various positions in the field of commercial real estate at Deutsche Bank before being appointed to the Board of Directors of O1 Properties in September 2011. **Current mandates:** Independent, non-executive director of O1 Properties Ltd.; founder and Executive Board member of EG Real Estate Advisors; member of the senior management team of CR Investment Management; member of the advisory council of Laurus Property Partners Ltd.

MICHAEL STANTON (born 1960)

Initial appointment: 19.12.2014

Term of office ends: 2020 (33rd AGM)**Independent according to C Rule 53.**

Having held various positions with GLS Capital, Oppenheimer & Company and Westpac Banking Corporation in New York, USA, Michael Stanton can call on more than 20 years' experience in the areas of finance, investments and emerging markets. From 2006 to 2010 he was employed by the private equity group of Otkritie Financial Corporation. In 2010 he switched to O1 Group, where he holds various positions in subsidiaries. **Current mandates:** Independent, non-executive director at O1 Properties Ltd., founder member of EG Real Estate Advisors; member of the senior management team of CR Investment Management.

MAG. FRANZ ZWICKL (born 1953)

Initial appointment: 10.5.2011

Resigned as of: 17.2.2016

Independent according to C Rules 53 and 54.

Franz Zwickl began his career in 1977 in the auditing association of a non-profit housing developer. He was made a cooperative auditor in 1979 before moving to KPMG Austria Wirtschaftsprüfungs-Gesellschaft mbH. Mr. Zwickl was appointed to the Management Board of Österreichische Postsparkasse AG in 1991, subsequently moving to the Management Board of Bank Austria AG in 1996. Since October 2002, Mr. Zwickl has worked as an independent auditor for Austrian Tax Advisory & Trustee GmbH. **Current mandates:** Franz Zwickl is a partner and senior executive in several asset management companies, sits on the executive boards of private foundations and performs Governing and Supervisory Board functions for banks (e.g. Oesterreichische Kontrollbank AG, Österreichische Volksbanken AG) and service companies.

SUSTAINABILITY AND CORPORATE RESPONSIBILITY

At CA Immo, corporate social responsibility (CSR) is about value-oriented corporate management that focuses on creating sustainable value over the long term. The CA Immo sustainability model gives equal weighting to the environment, the economy and social aspects at both Group and product level. Responsible corporate governance is an overarching term spanning all CSR topics.

Integrated Sustainability Reporting

Information relating to sustainability is included in the individual sections of this annual report. An overview for all integrated sustainability issues may be found in the Sustainability Index at the end of this report.

To meet the needs of all stakeholders as effectively as possible while ensuring the competitiveness of its real estate over the long term, CA Immo has adopted a **comprehensive sustainability policy**:

Products and services (real estate level)

– Long-term maintenance of marketability and utilisation quality by investments in environmentally friendly and resource-saving properties

– Sustainability certification (at least gold DGNB or gold LEED) or certifiable implementation of all development projects in the office and hotel asset classes. As at reporting date, 42% of the CA Immo stock office space¹⁾ are certified

– Active, locally organised tenant support and retention through company branch offices

Corporate governance (Group level)

– Compliance management: Compliance with laws, guidelines and codes; measures to prevent corruption

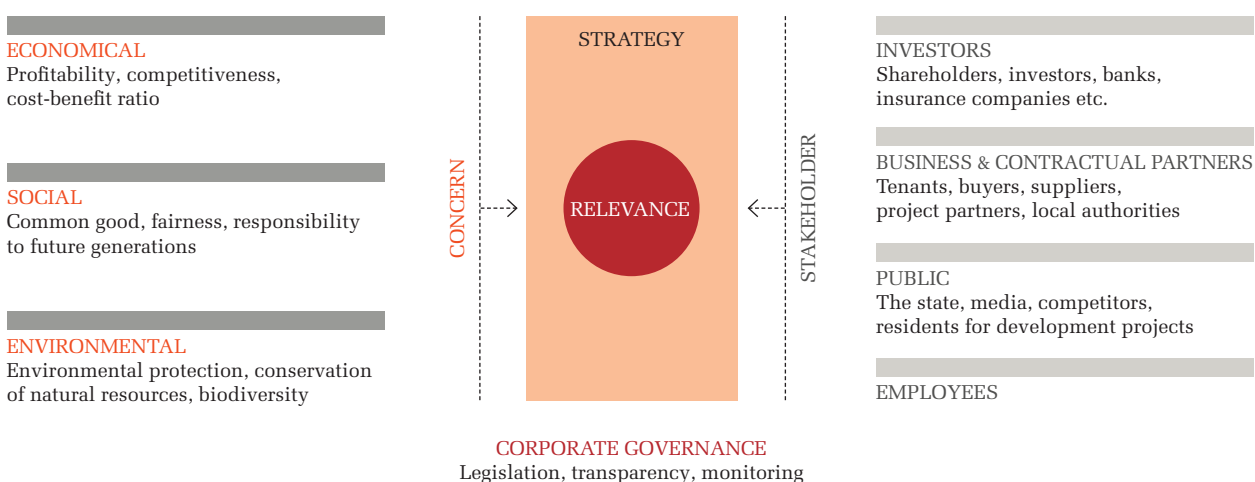

– Full stakeholder communication: transparency of publications and documentation and continual dialogue with relevant target groups to ensure competitiveness

– Upholding a corporate culture that is respectful and fair to all stakeholders

– Responsible risk management to sustain company success over the long term

¹⁾ Basis: Office properties with a portfolio value > € 10 m

CA IMMO SUSTAINABILITY MODEL

INITIATIVES AIMED AT RAISING THE ENERGY EFFICIENCY OF THE ASSET PORTFOLIO

Around 40 % of all carbon emissions in industrialised nations are known to come from buildings¹⁾. This fact has prompted CA Immo to accord high priority to the issue of sustainability as an international real estate business – both in the development and management of properties.

CA Immo holds international investment properties of many different kinds at many stages of the property life-cycle. In order to ensure the longest possible marketability of all properties, CA Immo Asset Management applies diversified quality management. To establish the best possible conditions for long-term rentals, various highly specific measures aimed at properties and their tenants are adopted. **The most important levers in integrated quality assurance are:**

- Standardised recording of structural properties (incl. energy consumption values) as the decision-making basis in active asset management
- Needs-based investment to ensure portfolio quality and user comfort
- Continual, systematic dialogue with current tenants to ensure long-term tenant retention
- Sustainability certification for strategic core properties
- Raising awareness among current tenants to improve resource conservation by users

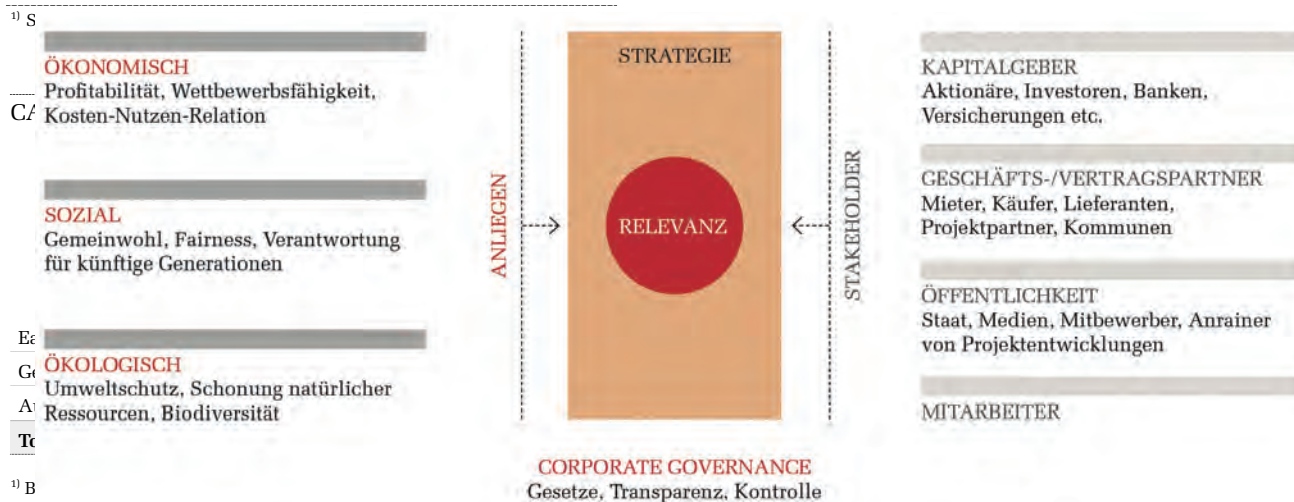

Energy consumption and the carbon footprint

In 2013, consumption data and carbon emissions generated by buildings through heat and power consumption have been recorded for CA Immo's office assets²⁾. The table shows the corresponding values per square metre of rentable area in business year 2013 for Eastern Europe, Austria and Germany. Energy audits were also carried out in owner-occupied CA Immo office premises in Germany and Austria with the specific aim of progressively optimising energy values.

Management and user conduct as key levers

Optimising the energy consumption of portfolio buildings and regularly inspecting compliance with safety measures as part of facility management services has been a component of the standard FM contracts of CA Immo Deutschland GmbH since 2008. Particular importance is attached to the carbon footprint of properties. To enhance the energy performance of portfolio buildings, an extended dialogue was initiated with users regarding consumer behaviour (amongst other measures). A Group-wide information campaign concerning the resource-efficient usage of office buildings by CA Immo office tenants guided by the motto "Think more, waste less" has been running since 2013.

²⁾ Basis: Office properties with a value > € 10 m

¹⁾ B
o
area of the portfolio.

²⁾ Including lettable space and common areas

³⁾ The calculation of carbon emissions caused by power and heating energy consumption take account of the so-called carbon dioxide equivalent, which differs between countries and sometimes regions. The higher the proportion of renewable energy in the production of electric power and heating, the lower the carbon dioxide equivalent. As regards the portfolio of CA Immo, we can ascertain that carbon emissions are lowest in Austria on account of the high proportion of hydroelectric power. In some countries of Eastern Europe, on the other hand, the proportion of coal-fired power stations producing energy is still very high; the figures on carbon emissions per sqm of rentable area are accordingly poorer.

Sustainability certification for investment properties

To facilitate transparent comparison of the quality of portfolio buildings across international boundaries, portfolio buildings are also being certified to an increasing degree. As at 31 December 2015, 42% of the CA Immo stock office space¹⁾ has been certified according to DGNB, LEED or BREEAM standards. Further standing office buildings and properties under development are undergoing the certification process.

CERTIFIED OFFICE SPACE BY REGION ¹⁾

in sqm	Total office space	Certified office space	Share of certified office space in %
Germany	257,120	166,805	65%
Austria	143,647	17,500	12%
Eastern Europe	562,837	217,926	39%
Total	963,605	402,232	42%

SUSTAINABLE PROJECT DEVELOPMENT

Through its real estate and urban district development activities, CA Immo is helping to shape the skylines of major cities like Vienna, Berlin, Frankfurt and Munich – by collaborating on master plans and creating associated infrastructure such as public roads, cycle paths, parks and social facilities.

Projects with sustainability certificates

To comply with the multifarious requirements arising at all levels, CA Immo resolved at the end of 2011 only to construct offices²⁾ and hotels³⁾ certified to LEED, DGNB or ÖGNI standards on a Group-wide basis. By meeting various certification requirements, the company makes allowance for the conservation of resources such as energy and water as well as emissions, wastewater and refuse and the transporting thereof; effects on safety and health are considered in the planning and building phases to the advantage of current and future tenants.

Dialogue with residents and stakeholders

Within the context of its development projects, CA Immo observes legal requirements on potentially negative influences on stakeholders (such as construction noise and increased particulate matter pollution) and engages in proactive dialogue with relevant stakeholders from the outset. Examples of this have included the site conferences for the new Europacity in Berlin. CA Immo also displays informative signs at all building sites.

²⁾ Since the end of 2011

³⁾ Since 2013

SUSTAINABILITY CERTIFICATIONS OF CURRENT DEVELOPMENT PROJECTS

Country	City	Project	System	Category	Version
Germany	Berlin	ABDA office building	DGNB	Gold	Office new construction
Germany	Berlin	KPMG office building	DGNB	Gold	Office new construction
Germany	Munich	My.O	DGNB	Gold	Office new construction
Germany	Frankfurt	Steigenberger Hotel	DGNB	Gold	Hotel new construction
Germany	Mainz	ZigZag	DGNB	Gold	Office new construction
Austria	Vienna	ViE	DGNB	Gold	Office new construction
Romania	Bucharest	Orhideea Towers	LEED	Gold	Office new construction

Observance of social and environmental standards

Where construction services are provided, CA Immo requires contractors to comply with the legal regulations on occupational health and safety, workplace regulations, working time regulations and wage agreements; the company also verifies compliance. Alongside the economic evaluation of tenders, the company asks potential contractors to comply with social and environmental standards and monitors observance during the tendering process.

Sensitive site development

Maximum attention is paid to issues such as biodiversity, species protection and (where relevant) habitat change during site development, especially in and around nature reserves. All sites are evaluated accordingly, with restoration work and mitigating measures introduced as appropriate; these may include the creation of green access pathways or the planting of trees and bushes.

Example of land remediation: Europacity, Berlin

From 2014 to the end of 2015, CA Immo undertook extensive soil replacement followed by ground water remediation at the Heidestrasse site near Berlin's main station through its wholly owned construction business omniCon. The site was occupied by a fuel depot from 1921 to 1969; in 2011 it was found that petroleum-based products had

caused soil and ground water contamination on the site. In 2014, the first step was to undertake soil replacement to a depth of six metres by means of honeycomb excavation. Microbiological rehabilitation was subsequently completed by the end of 2015. This has accelerated the natural process of microbiological degradation while improving the ground water quality for the long term. As a result, unrestricted usage of the site has been possible since the end of 2015.

Preparing the ground: Site development by specialist construction subsidiary omniCon in Berlin's Europacity

EXAMPLE OF SUSTAINABLE PROJECT DEVELOPMENT: KONTORHAUS OFFICE BUILDING IN MUNICH

KEY FACTS

- Construction of a new office and commercial building with approx. gross floor space of 37,800 sqm in Munich's Arnulfpark
- Gold DGNB certification planned

SUSTAINABILITY

- high standards of design and architecture.
- Extensive greenery for spacious courtyards, open terraces and roof surfaces.
- Highly polluted site was revitalised before construction work began.
- Energy efficiency: the structure falls some 40% within the legal requirements on primary energy consumption as defined in the EnEV energy saving ordinance.
- Environmentally friendly construction (DGNB quality rating 3). Only certified timbers from sustainably managed forests and natural stone (Xertifix/Fair Stone certification) will be used.

CORPORATE GOVERNANCE REPORT

COMMITMENT TO COMPLIANCE WITH CORPORATE GOVERNANCE STANDARDS

Compliance with legal provisions applicable in the CA Immo Group's target markets is a high priority for the company. We organise our business in such a way that we are able to comply with all applicable compliance standards in our everyday business dealings. The Management Board and Supervisory Board are committed to observing the Austrian Corporate Governance Code⁸⁾ and thus to transparency and uniform principles of good corporate management.

COMPLY OR EXPLAIN

The rules and recommendations of the version of the Corporate Governance Code applicable in business year 2015 (January 2015 amendment) are implemented almost in full. Discrepancies are noted in respect of C Rules no. 2 (right of appointment to the Supervisory Board), no. 38 (appointment of management board) and no. 45 (executive positions with competitor companies).

External evaluation

The evaluation carried out by KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft concerning compliance with rules 1 to 76 of the Austrian Corporate Governance Code for business year 2015 found that declarations of conformity submitted by CA Immo with regard to compliance with the C and R Rules of the Code were correct.

C Rule no. 2: Shares are to be construed in accordance with the 'one share – one vote' principle.

Explanation/reason: The ordinary shares of the company (98,808,332 bearer shares and four registered shares) were issued in accordance with the 'one share – one vote' principle. Of the voting rights, 74% are in free float with 26% held indirectly via the EG Real Estate Fund I Limited of O1 Group Limited ('O1'). The registered shares in existence since the founding of the company, which confer the right of nominating up to four Supervisory Board members, are also held by O1. The Supervisory Board currently only comprises members elected by the Ordinary General Meeting. Transfer of registered shares requires the approval of the company. The Austrian

Stock Corporation Act also provides for the delegation of members to the Supervisory Board, whereby the total number of appointed members may not exceed one third of all Supervisory Board members. Moreover, appointed members of the Supervisory Board may also be removed from office at the request of a minority (10% of the capital stock) where there is good cause relating to an individual member personally; in such instances, the company upholds the right of all shareholders to participate in the composition of the Supervisory Board. There are no preference shares or restrictions on issued ordinary shares of the company. The Austrian Takeover Act ensures that all shareholders would receive the same price for their CA Immo shares in the event of a takeover bid (mandatory offer). In all cases, the shareholders alone would decide whether to accept or reject any such bid.

C-Rule no. 38: The supervisory board shall define a profile for the management board members that takes into account the enterprise's business focus and its situation, and shall use this profile to appoint the management board members in line with a predefined appointment procedure. The supervisory board shall take care that no member of the management board has been convicted by law for a criminal act that would compromise the professional reliability as a management board member. Furthermore, the supervisory board shall also give due attention to the issue of successor planning.

Explanation/reason: Due to the unplanned withdrawal of Dr. Bruno Ettenauer from the Management Board, a prompt decision in terms of his replacement was in the company's as well as the shareholders' interest. Therefore, the Supervisory Board waived the appointment procedures usually applied for Management Board members (executive search; selection of potential candidates via long or short lists). Nevertheless this was a decision that carefully weighed discussions within the remuneration and nomination committee and the full Supervisory Board.

C Rule no. 45: Supervisory Board members may not take up executive positions with companies that are competitors of CA Immo.

Explanation/reason: The following Supervisory Board members hold executive positions with similar companies: Barbara A. Knoflach is Global Head of Investment Management at BNP Paribas Real Estate. Franz Zwickl is a partner in various real estate management companies. Dmitry Mints is the Chairman of the Management Board

⁸⁾The Austrian Corporate Governance Code may be viewed on the web site of the Austrian Working Group for Corporate Governance at www.corporate-governance.at.

of O1 Properties, a holding of O1 Group and one of the most important owners of prime office real estate in central Moscow. Richard Gregson, John Nacos and Michael Stanton serve on the Board of Non-Executive Directors of O1 Properties. A full list of executive functions performed by our Management and Supervisory Board members is published at www.caimmo.com.

According to L Rule no. 52, the Ordinary General Meeting considers the professional and personal qualifications of candidates and aims to maintain a balance of expertise across the Supervisory Board in the selection of Supervisory Board members. Aspects of diversity are considered in terms of the representation of both genders, the age profile and the international make-up of the Supervisory Board. To meet these criteria and uphold an in-depth knowledge of the real estate sector, there will clearly be a preference for persons with a background in a similar industry environment. For this reason, the possibility that Supervisory Board members will hold positions with broadly similar companies cannot be ruled out.

Persons proposed for election to the Supervisory Board must present to the Ordinary General Meeting their professional qualifications, state their vocational or similar functions and disclose all circumstances that could give rise to concern over partiality. Supervisory Board members are not permitted to make decisions in their own interests or those of persons or organisations with whom they are closely acquainted where such interests are counter to the (business) interests of the CA Immo Group. Potential conflicts of interest must be declared to the Supervisory Board Chairman immediately; where the chairperson is the subject of a conflict of interest, disclosure must be made to the deputy chairperson. Similarly, Management Board members are obliged to declare close personal interests in transactions of the CA Immo Group and other conflicts of interest to the Supervisory Board, and to inform their colleagues without delay. In the event of a contradiction of interests arising, the member in question shall be required to abstain from taking part in voting procedures or leave the meeting while the relevant agenda item is being discussed. Moreover, all business transactions conducted between the company and members of the Management Board as well as persons or organisations with whom they are closely acquainted must conform to industry standards and have the approval of the Supervisory Board. The same applies to contracts between the company and members of the Supervisory Board which oblige those members to perform services outside of their Supervisory Board activities for the

CA Immo Group in return for remuneration of a not inconsiderable value (L Rule no. 48 and article 228 section 3 of the Austrian Commercial Code) and to contracts with companies in which a Supervisory Board member has a significant business interest. Since Supervisory Board member Maria Doralt is also a partner at DLA Piper, this relates in particular to the mandate agreement with DLA Piper UK LLP in place since the end of 2012 regarding consultancy for the letting of the Kontorhaus in Munich. On behalf of the refinancing banks DLA Piper Weiss-Tessbach Rechtsanwälte GmbH acted in an advisory capacity in connection with two refinancing operations in Hungary. The relevant fees correspond to usual hourly rates for the sector and totalled to € 164 K for business year 2015 (€ 59 K in 2014). CA Immo and O1 are also parties acting in concert under the terms of the Austrian Takeover Act in connection with the voluntary partial public offer made to the shareholders of IMMOFINANZ AG in 2015. A joint declaration of intent was made with O1.

As the result of a competitive process, a purchase agreement for a site earmarked for residential construction in Berlin (Kunstkubus, Europacity) was concluded in the second quarter of 2015 with Vesper Real Estate (Cyprus) Limited, a company indirectly controlled by Boris Mints (beneficial owner of O1). The agreed purchase price was € 7 m. The customary arms-length nature of the transaction, which contributed significantly to a positive result for CA Immo, was confirmed by an external fairness opinion.

The company is not permitted to grant loans to members of the Supervisory Board outside the scope of its ordinary business activity. Moreover, members of the Management Board are not permitted to run a company, own another business enterprise as a personally liable partner or accept Supervisory Board mandates in companies outside the Group without the consent of the Supervisory Board. Senior executives may only enter into secondary activities (and in particular accept executive positions with non-Group companies) with the approval of the Management Board.

THE EXECUTIVE BODIES OF CA IMMO¹⁾

Management and supervisory structure

Unless legally regulated, the responsibilities of Management and Supervisory Boards and cooperation between Board members are defined by the Articles of Association and rules of procedure passed by the Supervisory Board (including the schedule of responsibilities for the Management Board). The obligations therein defined as regards information provision and reporting by the Management Board apply to all subsidiaries of CA Immo. The full Supervisory Board rules on matters of critical importance as well as general strategy. The Supervisory Board also executes its duties through three competent committees and (in urgent matters) the presiding committee. The Supervisory Board report describes its main activities in business year 2015. The rules of procedure of the Supervisory Board and associated business matters requiring approval (which covers all Group subsidiaries) are published on the Internet at www.caimmo.com.

Collaboration within the Management Board

The Management Board of CA Immo currently has two members. Since 1 January 2016, Frank Nickel has been the **Chief Executive Officer** and spokesperson for the Management Board. He is responsible for overall organisation and management, the strategic direction and future development of the company and for representing the company to its supervisory boards and owners. As the Management Board spokesperson, he also issues statements to the general public and the media. Regardless of individual departmental and Board responsibilities, all agendas are discussed openly by the Board members at regular Management Board meetings, with departmental representatives included in the discussions; the implementation of resolutions passed is constantly monitored. The Supervisory Board is informed immediately of any significant discrepancies from planned values. Irrespective of the division of authority, each member of the Management Board shares responsibility for the overall running of the company's business affairs. The **entire Management Board** is responsible for realising the objectives of company policy and to this end bears general managerial responsibility at both company and Group

level. These objectives are based on a wide-ranging corporate social responsibility (CSR) strategy that takes account of economic, environmental and social aspects and defines exemplary corporate governance and compliance.

The Supervisory Board and its committees

As at balance sheet date the Supervisory Board of CA Immo comprised eight members, all of whom possess personal integrity, market knowledge and experience. In accordance with the independence criteria laid down by the Supervisory Board (C Rule no. 53), a Supervisory Board member is deemed to be independent where he or she has no business or personal relationship with the company or its Management Board which could give rise to a material conflict of interests and thus influence the conduct of that member. All members of the Supervisory Board have declared their independence according to C Rule no. 53. Five of the eight Supervisory Board members (Wolfgang Ruttenstorfer, Barbara A. Knoflach, Maria Doralt, Richard Gregson and Franz Zwickl) meet the criteria of C Rule no. 54 in that they do not represent the interests of any shareholder with a stake of more than 10% (O1). However, some members of the Supervisory Board perform functions in related companies or similar organisations that have the potential to create a conflict of interests. Full details are found under 'Comply or explain' (explanation/reason for C Rule no. 45) and in the 'Related party disclosures' in the notes. The independence criteria defined by the Supervisory Board are published on the Group's web site along with a list of all mandates held by Board members outside the CA Immo Group.

The **audit committee** is responsible for overseeing the entire process of financial reporting, the (Group) auditing process, the effectiveness of the internal monitoring system, the internal auditing system and risk management. Auditing the annual and consolidated financial statements (including the management reports) and examining the corporate governance report and proposals on the distribution of profit are also tasks of the audit committee. In addition, the committee monitors the independence of the auditing company, particularly with regard to any additional services; it also prepares a proposal for the selection of the (Group) auditor to the Supervisory Board. All members of the audit committee (and especially Richard Gregson) are acknowledged as financial experts on the basis of their experience and professional track records.

¹⁾ For more information on remuneration paid to all Management Board and Supervisory Board members in business year 2015, refer to the remuneration report.

For more information on Supervisory Board mandates or similar posts held by Management Board and Supervisory Board members with listed companies at home or abroad, refer to the corporate governance report on the Internet at www.caimmo.com.

COMPOSITION OF THE COMMITTEES

The audit committee	The investment committee	The remuneration and nomination committee/presiding committee
Richard Gregson (Chairman)	Wolfgang Ruttendorfer (Chairman)	Wolfgang Ruttendorfer (Chairman)
Wolfgang Ruttendorfer	Maria Doralt	Barbara A. Knoflach
Michael Stanton	John Nacos	Dmitry Mints
Franz Zwickl (to 17.2.2016)	Michael Stanton	
	Franz Zwickl (to 17.2.2016)	

The **investment committee**, in cooperation with the Management Board, prepares the ground for all investment decisions that must be taken by the full Supervisory Board. The investment committee may also approve investments in and sales of real estate and companies and the implementation of development projects and similar measures with total investment volumes of up to € 50 m; beyond this limit, the approval of the full Supervisory Board is required.

The **remuneration and nomination committee** is responsible for succession planning for the Management Board and the Supervisory Board. Candidates for vacant Supervisory Board mandates put forward to the Ordinary General Meeting are considered on the basis of their professional and personal qualifications, with particular efforts made to maintain diversity and a balance of expertise across the Supervisory Board. Management Board members are selected according to a defined appointment procedure, taking corporate strategy and the current position of the company into consideration.

The remuneration and nomination committee also scrutinises the remuneration system for the Management Board and (in the case of exceptional bonuses) employees. On account of their lengthy professional track records, all members of the remuneration and nomination committee possess sufficient knowledge and experience of remuneration policy.

The **presiding committee** of CA Immo is identical to the remuneration and nomination committee. It rules on transactions generally requiring the approval of the Supervisory Board where a delay in convening a Supervisory Board meeting might expose the company to significant pecuniary disadvantage.

Details of committee activity in business year 2015 are provided in the Supervisory Board report.

Co-determination by employees on the Supervisory Board

CA Immo had no employee representatives so far; only the CA Immo subsidiary Europolis Real Estate Asset Management GmbH had an employees' representative body. Despite this, staff members had the opportunity to submit recommendations to the Management Board which were considered at weekly Group Management Board meetings and, where there was an authorisation requirement by the Supervisory Board, had been forwarded to the Supervisory Board.

CA Immo held its first works council elections in February 2016. The works council for the employees of CA Immobilien Anlagen AG has since been constituted and has commenced its activities.

CO-DETERMINATION OF SHAREHOLDERS

Three of the eight (with effect of 17.2.2016 seven) Supervisory Board members (Dmitry Mints, John Nacos and Michael Stanton) directly or indirectly represent a shareholder (O1) with a participating interest of more than 10% (C Rule no. 54). In response to a supplementary motion submitted properly and on time by O1, two items were added to the agenda of this year's (28th) Ordinary General Meeting. The new items concerned the extension of the terms of office of existing Supervisory Board mandates and an amendment to the Articles of Association regarding legal majority requirements for resolutions passed by the Ordinary General Meeting. O1 also made counterproposals to the agenda items announced by CA Immo regarding expansion of the Supervisory Board from six to eight members, and nominated John Nacos for election to the Supervisory Board alongside the candidate put forward by the Supervisory Board. All resolutions proposed by O1 were adopted with the legally required majority. Information on the organisation of shares may be found under 'Comply or explain' (explana-

tion/reason for C Rule no. 2). Information on the rights of shareholders as regards Ordinary General Meetings is published at www.caimmo.com.

Advancement of women at CA Immo

The Group management report (see the 'Employees' section) contains information on human resources management, and in particular the advancement of women at CA Immo.

CORPORATE RESPONSIBILITY

For CA Immo, integrity is the basis of good business. That involves observing legislation, respecting fundamental ethical values and doing business in a sustainable manner. The code of conduct of the CA Immo Group is published at www.caimmo.com; it is binding on all executive bodies, employees and contractual partners, including architects, construction firms, estate agents, other service providers involved in lettings and joint venture partners. The Group compliance officer works with the compliance steering committee to monitor observance of the code of conduct. In the past business year the committee convened twice to assess industry-specific compliance risks as well as the effectiveness of adopted measures.

Preventing corruption

CA Immo rejects every kind of corruption and to this end has defined compulsory principles (zero tolerance). Counter-corruption measures are reported to the Supervisory Board at least once a year. Instances of potential corruption are investigated on the basis of the auditing plan approved by the Supervisory Board or by the Group Auditing department based on special audit mandates issued by the Management Board. All operational Group companies are investigated for corruption risks at regular intervals. No instances of corruption were uncovered in 2015.

Compliance

CA Immo regards compliance as a risk management tool. New staff in particular are therefore familiarised with compliance structures, core values, standards of conduct, the treatment of insider information and all other aspects relevant to compliance as early as the 'welcome day'

event. Moreover, managerial staff and employees in Germany and Austria and all managers and staff of relevant areas in Eastern Europe are required to undertake web-based training annually or bi-annually. The aim of this is to facilitate the resolution of conflict situations in the workplace (e.g. anti-corruption) in line with CA Immo's system of compliance and values through the application of practical examples from the real estate area (dealing with authorities, construction companies and suppliers, tenants, other business partners and so on) together with case studies on insider trading law. Across the Group, 146 employees (41%) completed the training in 2015 (compared to 63 employees/17% in 2014); 23 managers underwent training in the year under review (0 in 2014).

To prevent insider trading, all executive bodies, employees and persons otherwise active on behalf of CA Immo are instructed in prohibiting the misuse of insider information; organisational measures are adopted with a view to preventing the improper use and passing on of insider information and other compliance-relevant information. The Group Compliance Officer is responsible for upholding capital market compliance guidelines. Acquisitions and sales of CA Immo securities by the company's executive bodies are reported to the Financial Market Authority and published on both the FMA web site and at www.caimmo.com.

AUDITING COMPANY SERVICES AND FEES

By resolution of the Ordinary General Meeting, KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft was appointed to audit the annual and consolidated financial statements. In the case of foreign subsidiaries, local partner law firms of KPMG are generally charged with reviewing and auditing the semi-annual and annual financial statements and with overseeing the conversion to IFRS. Auditing charges paid to the Group auditor totalled € 433 K in the last business year (against € 420 K in 2014). Project-related and other (assurance) services amounted to € 273 K in the reporting period (€ 255 K in 2014). In the course of the issuance of the corporate bond 2016-2023, further € 90 K has been paid for other attestation services. No consulting services which could compromise independence were rendered by the Group auditor.

REMUNERATION REPORT

The remuneration report draws together the principles on which remuneration for the Management Board and Supervisory Board of CA Immo is defined, clarifies the level and structure of Management and Supervisory Board earnings and contains details of share ownership by members of the Management and Supervisory Boards.

GENERAL PRINCIPLES OF THE REMUNERATION SYSTEM

On the basis of preparatory work undertaken by the remuneration and nomination committee, the Supervisory Board is responsible for determining remuneration for individual Management Board members. Management Board remuneration comprises a fixed, non-performance-related annual salary, performance-related (variable) components, fringe benefits and contributions to pension fund. The criteria for the appropriateness of Management Board remuneration are the field of activity and responsibility, personal performance, the economic situation, the company's success/future prospects and the national and international standards for the property sector. The variable salary components are linked to a long-term increase in the value of the company and continually adjusted in line with strategic targets defined jointly by the Management Board and Supervisory Board.

In the course of the extension of Management Board mandates, external advisors were consulted to discuss contracts with Management Board members and the compensation structure for the Management Board in detail. In March 2015, a number of key changes to the variable remuneration system for all Management Board members were resolved. Performance-related pay is now divided into three components and comprises an annual bonus (short term incentive) and a medium-term (mid term incentive) along with long-term variable remuneration (long term incentive). There are no stock option plans.

Fixed salaries and fringe benefits

The level of fixed salaries depends on spheres of competence as determined in the schedule of responsibilities. To avoid conflicts of interest, outside employment for Management Board members requires the approval of the Supervisory Board. No separate payment is made for

accepting mandates in Group companies. The basic salary is paid in advance in 14 monthly payments as a non-performance-related component. Management Board members also receive fringe benefits in the form of remuneration in kind (company car, telephone, travel expenses); in principle, all Board members are entitled to these benefits in equal measure. Since they qualify as remuneration components, Management Board members must pay tax on these benefits.

Restructuring of variable remuneration components

Starting in 2015, performance-related payments to the Management Board were restricted to 200% of the gross annual salary. The bonus payment is linked to long-term operational and quality-based targets and also takes account of non-financial performance criteria. Of the variable remuneration, 50% is linked to the attainment of short-term targets defined annually (annual bonus); the other half of the performance-related components depends on the exceeding of annually defined indicators such as return on equity (ROE), funds from operations (FFO) and NAV growth. The level of the bonus actually paid depends on the degree of target attainment: the values agreed and actually achieved at the end of each business year are compared and confirmed by the Supervisory Board. Half of performance-related remuneration takes the form of immediate payments (**short term incentive**); the remaining 50% is converted into phantom shares on the basis of the average rate for the last quarter of the business year relevant to target attainment. The payment of phantom shares is made in cash in three parts after 12 months, 24 months (**mid term incentive**) and 36 months (**long term incentive**) at the average rate for the last quarter of the payment year.

Profit sharing scheme to encourage entrepreneurship

To promote strong identification with its objectives and ensure employees have a stake in the success of CA Immo, variable remuneration is paid to all staff alongside fixed salaries. In line with the Management Board remuneration system, the precondition is the attainment of budgeted quantitative and qualitative annual targets and positive consolidated net income after minorities. Executive bonuses are also linked to the attainment of specific operational annual targets. Managerial staff have the additional option of participating in an LTI programme.

Long-term incentive programme

Within the remuneration system for the Management Board, the LTI programme was dissolved in 2015 and replaced by phantom shares as described above. The LTI programme remains effective for managerial staff: LTI is a revolving programme with a term (vesting period) of three years per tranche; it presupposes a personal investment (maximum of 35% of the fixed annual salary). The investment is evaluated at the closing rate on 31 December, and the number of associated shares is determined on the basis of this evaluation. At the end of each three-year performance period, a target/actual comparison is applied to define target attainment. The LTI programme takes account of value creation at CA Immo over the medium to long term. The critical factor is the value generated within the Group in terms of NAV growth, ICR (interest coverage ratio, to 2013) and TSR (total shareholder return) and, from 2014, growth of FFO (funds from operations). The weighting for NAV growth and the ICR (and FFO growth from 2014) is 30%, and 40% for the TSR. Payments are made in cash. At the end of 2014, the degree of target attainment confirmed by the auditor for the second LTI tranche for 2012-2014 was approximately 81%, equivalent to a monetary value of € 11.43 per share in the LTI programme for 2012-2014. On the basis of these calculations, a total amount of € 887 K was paid out in 2015 for 77,609 participating shares. Management Board members serving in 2015 accounted for around 20% of this figure.

Pension regulations

Members of the Management Board have pension fund agreements into which the company pays annually agreed contributions (approximately 10% of the fixed salary). The company has no further obligations. During business year 2015, contributions to pension funds for Management Board members (defined contribution plan) totalled € 60 K (€ 56 K in 2014).

Regulations governing the premature termination of employment contracts

A change of control clause was added to the contracts of Management Board members in 2015. It regulates payment obligations in the event a board member is terminated prematurely following a change in the control of the company. A change of control occurs where a shareholder is obliged to make a mandatory takeover bid (where the investment threshold of 30% is exceeded), the O1 Group sells its 26% holding in CA Immo to a third party or a corporate merger takes place. The change of control clauses provide special termination rights and

entitle to continued remuneration (including variable remuneration) for the remaining term of the employment contract.

Claims where an employment contract is terminated

Where a Management Board member steps down, the amount of the severance payment shall be determined by the legal provisions (criteria being the total salary level and length of service) with the maximum payout equating to one full year's salary. Payment is forfeited in the event of the employee serving notice of termination. All contracts with Management Board members continue to include adjustment payments to cover instances of termination for good cause. These payments are limited to a maximum of two annual salaries (including fringe benefits), depending on the remaining term of the employment contract.

Following early termination of his Management Board contract by mutual agreement, Dr. Bruno Ettenauer received a severance payment of € 2,490 K in business year 2015; appropriate provision was made on the balance sheet date for payment of an additional € 150 K on 30 June 2016. Corresponding salary-based deductions amounted to € 197 K (2014: € 0 K). There are no further obligations. Payments to form a reserve for severance payment claims (defined benefit plan) amounted to € 65 K in the last business year (compared to € 97 K in 2014). As at 31 December 2015, severance payment provisions totalled € 189 K (€ 337 K on 31.12.2014).

Payments have been made to former members of the Management Board as follows: A total of € 320 K was paid to former Management Board members from maturity of the LTI tranche for 2012-2014. After resigning his mandates as a member of the CA Immo Management Board and Chief Executive Officer of CA Immo Deutschland GmbH, Bernhard H. Hansen continued to receive a salary (including variable salary components) until the expiry of his contracts in September 2015, which were provided for in the consolidated financial statements for 2013. In total, therefore, € 320 K was paid to former members of the Management Board (€ 393 K in 2014).

PAYMENTS TO THE MANAGEMENT BOARD IN 2015

In business year 2015, total salary payments to active Management Board members stood at € 1,485 K (€ 1,326 K in 2014). Management Board remuneration contains € 545 K in short term incentives (€ 541 K in 2014) and € 175 K from the LTI tranche for 2012-2014

(€ 74 K in 2014). Fixed salary components made up 52% of Management Board remuneration (54% in 2014), with variable salary components accounting for 48% (46% in 2014). Provisions of € 467 K (including incidental charges) were allocated at Management Board level for variable salary components payable in 2016 on the basis of targets

agreed in business year 2015. Provisions totalling € 1,835 K (including incidental charges; € 2,226 K on 31.12.2014) had been formed in connection with the LTI programme as at 31.12.2015; of this, the Management Board accounted for € 206 K (€ 483 K in the previous year).

SHARE OWNERSHIP OF MANAGEMENT AND SUPERVISORY BOARD MEMBERS

As at 31 December 2015, a total of 31,120 CA Immo shares were privately held by Management Board and Supervisory Board members (a figure unchanged from the previous year). In addition, a total of 43,977 CA Immo shares (50,054 in 2014) were held by CA Immo employees and former Management Board members under the terms of the LTI programme for 2015-2017 on key date 31 December 2015. The company itself held 2,000,000 treasury shares on the balance sheet date.

D&O INSURANCE

At CA Immo Group level, D&O manager liability insurance with coverage of € 50 m was taken out for the executive bodies (Management Board members, administrative authorities, supervisory bodies and senior executives) of the parent company and all subsidiary companies. On account of the general premium payment for all insured persons, there is no specific assignment of premium payments to Management Board members. The insurance does not provide for any excess.

REMUNERATION OF THE SUPERVISORY BOARD

In line with the Articles of Association of CA Immo, remuneration for the Supervisory Board for the past business year is determined annually by the Ordinary General Meeting. For business year 2014, the 28th Ordinary General Meeting held on 28th April 2015 adopted a fixed fee of € 25 K per Supervisory Board member alongside the reimbursement of cash expenses. The chairman receives double that amount, with the deputy chairman paid one and a half times the fixed fee. In addition, committee and Supervisory Board members received an attendance fee of € 500 per meeting day. Remuneration is

paid pro rata where a Supervisory Board member steps down during the year.

In business year 2015, total expenditure for the Supervisory Board was € 215 K (against € 135 K last year). Of this, fixed salaries for business year 2014 accounted for approximately € 198 K (previous year: € 122 K; figure includes attendance fees of € 19 K against € 10 K in previous year), cash outlays for travel expenses represented € 13 K (2014: € 12 K) and other expenditure represented € 4 K (2014: € 1 K). No other fees (particularly for consultancy or brokerage activities) were paid to Supervisory Board members.

For business year 2015, total remuneration amounting to € 306 K shall be proposed to the 29th Ordinary General Meeting; in connection with this provisions had been formed in the same amount.

No loans or advances were paid to either Management Board or Supervisory Board members. No company pension plans are provided for Supervisory Board members at CA Immo.

Group management report 2015

SILBERMÖWE
Vienna

GROUP STRUCTURE

The CA Immo Group is an internationally active real estate group. The parent company of the CA Immo Group is **CA Immobilien Anlagen Aktiengesellschaft**, a listed company based in Vienna whose main activity is the strategic and operational management of subsidiary companies at home and abroad. The company has branch offices in Austria, Germany, Hungary, the Czech Republic, Romania, Poland and Serbia; the Group also has offices in Cyprus and Ukraine. Each site acts as a largely autonomous profit centre. Other subsidiaries (without separate local teams) are present in Bulgaria, Croatia, the Netherlands, Slovakia and Slovenia. As at key date 31 December 2015, the Group comprised 211 subsidiaries (227 on 31.12.2014) employing an approximate total of 357 people (355 on 31.12.2014) in 16 countries¹⁾.

The CA Immo Group's core field of expertise involves developing and managing modern and spacious office properties in Central and Eastern Europe. In regional terms, the company focuses on Austria, Germany, Poland, Hungary, the Czech Republic, Slovakia and Romania. Business activity in Germany is focused on Munich, Frankfurt and Berlin; in other countries, the main strategic emphasis is on the capital cities. Aside from office properties, the asset portfolio of the Group includes hotels, speciality retail outlets, shopping malls and a small proportion of residential and logistical properties. From the design and development of entire urban districts to the active management of investment properties, value is generated through a comprehensive value chain.

AUSTRIA

The company's domestic properties are overseen in direct holdings of CA Immobilien Anlagen AG. As at 31 December 2015, the parent company also directly held property assets of approximately € 217.2 m (€ 245.3 m on 31.12.2014). As at 31 December 2015, the total Austrian portfolio comprised investment properties with a market value of € 587.6 m (€ 659.3 m on 31.12.2014) along with two development projects.

GERMANY

The operational platform for all Group activities in Germany is **CA Immo Deutschland GmbH**. As a former collecting society for state-owned railway properties in Germany, the company has a wealth of expertise in developing inner city real estate. With subsidiaries in Frankfurt, Berlin and Munich, an appropriate local presence is assured. Aside from investment properties, the company's property assets mainly comprise properties under construction and undeveloped plots alongside a portfolio of properties intended for trading or sale.

Investment properties are largely held in direct holdings and let and managed by **DRG Deutsche Realitäten GmbH**, a joint venture set up with the Austrian estate agent and property management firm ÖRAG. Construction management – which encompasses construction management, project management and construction supervision – is carried out by CA Immo's German subsidiary **omniCon**, which also performs these services for third parties.

¹⁾ Includes holding companies in Cyprus and the Netherlands and another company in Switzerland.

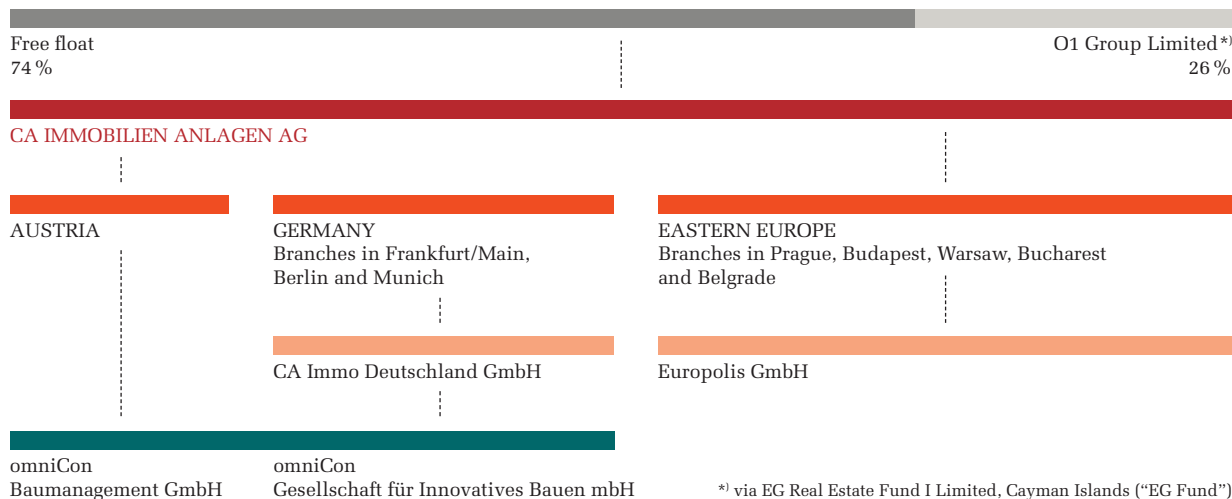

EASTERN EUROPE

The Group's investment property portfolio in Eastern Europe and a small proportion of development projects and undeveloped plots in Poland, Slovakia, Hungary and Ukraine are directly held via CA Immo participating interests and via **Europolis GmbH** (formerly Europolis AG), another wholly owned subsidiary of CA Immo acquired from the Volksbank Group early in 2011. The Europolis Group, which was established in 1990, focuses on class A commercial properties in Eastern Europe. The overall Europolis portfolio is split

into four sub-portfolios. In July 2015 CA Immo acquired the minority share (approximately 35%) of the European Bank for Reconstruction and Development (EBRD) in the 'E-portfolio'. Another partnership was established with Union Invest, which holds a 49% stake in the 'C1 portfolio'. All properties in Eastern Europe are managed by **Europolis Real Estate Asset Management GmbH (EREAM)** of Vienna alongside a group of regional companies in Prague, Budapest, Warsaw, Bucharest and Belgrade trading as **CA Immo Real Estate Management**.

GROUP STRUCTURE

As at 31.12.2015

ECONOMIC ENVIRONMENT

THE ECONOMIC TREND¹⁾

In 2015 the global economy was characterised by geopolitical instability, and thus volatility. Growth in emerging markets and developing economies declined for the fifth consecutive year. In particular, the effect of sanctions against Russia was felt by the economies of Western Europe. Here economic woes were intensified by rapid falls in the oil price and the rouble, the gradual slow-down of economic activity in China and the gradual tightening of monetary policy in the United States. According to the International Monetary Fund (IMF), however, the economies of Europe in particular are expected to expand at modest rates in 2016 and 2017. The economic prospects of the eurozone have indeed brightened in 2015. The pressure of the austerity policy should ease in future, leaving greater scope for economic growth.

REVIEW OF THE CA IMMO CORE MARKETS IN 2015²⁾

Growth in the eurozone amounted to 1.5% in 2015, with the EU as a whole achieving 1.8%; both figures are in line with consensus expectations for 2015. The unemployment rate for the EU as a whole was 9.0%, the lowest

rate recorded since 2009. In 2016 eurozone growth should improve marginally to 1.7% and further to 1.9% in 2017; this will depend crucially on a rebound in investment. A budget deficit of 2.7% is expected for the eurozone (2.6% in 2014). The total average national debt for the eurozone stood at 91.6% (EU: 93.2%).

The economy of **Austria** continues to grow at a slow but steady rate, with real GDP rising by 0.7% in 2015. The increase was mainly driven by government spending and positive foreign trade. With improving dynamics in private consumption and investments, GDP growth is expected to double in 2016 and 2017. The inflation rate in Austria decreased to 0.8% in 2015 (1.5% in 2014), and is likely to remain at this low level in 2016 and 2017 owing to the falling oil price. Compared to the general price trend in 2015 for the eurozone (0.5%) and the EU (0.6%), Austria is well above average. The 2015 unemployment rate increased to 6.0% (5.6% in 2014).

The German economy was mainly driven by government spending and private and public consumption. Gross domestic product rose by 1.7%. In EU comparison, **Germany** and the Czech Republic reported the lowest unemployment rates at just 4.5%. The inflation rate in Germany has been moving in and out of negative territory during the course of the year, and has not been at or above 1% since January 2014. Debt as a percentage of GDP fell from 74.8% in 2014 to 70.8% in 2015.

¹⁾ Forecast, change versus prior year (in %); ²⁾ by January 2015; ³⁾ by December 2015 (seasonally adjusted); ⁴⁾ by third quarter 2015; ⁵⁾ as a percentage of GDP 2015; by third quarter 2015 ⁶⁾ January to November 2015 (not adjusted for seasonal variation)

Although economic growth in **Hungary** slowed to 3.0% in 2015 compared with the previous year's robust growth of 3.7%, this was still well above the 2.7% expected. The economy of **Romania** also performed well in 2015, recording GDP growth of 3.6% in line with the forecasts. Gross domestic product in **Poland** grew to 3.6% in 2015, continuing its path of strong and stable growth. The **Czech Republic** experienced a fall in GDP between the third and the fourth quarter of 2015, but annual growth still reached 3.9%. Apart from the Czech Republic (4.5%), the unemployment rate in the **CEE** nations is higher than that for the rest of the EU; it stands at 7.1% in Poland, 6.3% in Hungary and 6.7% in Romania.

The inflation rates in most CEE countries turned negative and remained below the respective targets. Main reason for the decrease has been the continual fall in oil prices. The Czech Republic reported a negative inflation rate of -0.1%, while the inflation rate in Romania dropped to a record low in August 2015 and produced an annual value of -0.7%. The interest rate in Poland remained at the record low of 1.50%, yielding annual inflation of -0.5%.

THE MONEY MARKET AND INTEREST ENVIRONMENT¹⁾

Monetary policy was highly expansive in 2015 and characterised by the continuance of historically low interest rates. Throughout 2015 the European Central Bank (ECB) held interest rates at an unchanged level, until the bank decided in December to cut interest rates on deposit facilities for the eurozone from -0.20% to -0.30%. The rate remained negative during the whole year to make lending more attractive to banks.

According to Eurostat, the rate of price increases in the eurozone was just 0.4% at the end of 2015, well below the 2% target set by the ECB. To counter the threat of deflation and support business, the ECB resolved in January 2015 to extend its programme of buying government bonds and other securities from eurozone countries up to a volume of € 60 bn; the programme is expected to continue until September 2016. The 3 month Euribor, the interest reference rate for floating rate bonds, hit records lows between 0.8% and -0.14% in 2015. It entered negative territory for the first time in April 2015. The decline in the second half of the year continued into the first weeks of 2016, with a new low of -0.2% confirmed end of

February. Yields on government bonds from eurozone countries and corporate bonds with good credit ratings also reached historic lows in 2015.

CURRENCIES²⁾

The ECB's monetary policy measures led to a weakening of the single European currency in 2015, especially against the US dollar. The Polish and Hungarian currencies displayed greater volatility around the second quarter of 2015: EUR/PLN was trading between 3.99 and 4.37 in 2015, while the EUR/HUF fluctuated between 296 and 322. The currencies of the CEE nations declined in value after the Swiss National Bank abruptly abandoned its minimum exchange rate of 1.20 francs to the euro on 15 January 2015; the currencies of CEE countries were quickly able to compensate for these losses, however.

OUTLOOK³⁾

In view of the present economic situation and the development of the inflation rate in the eurozone, the base rate is expected to remain at an historic low in 2016. The decision by the ECB to extend its bond purchase programme, together with the investment programme unveiled by the European Commission in November 2014 (which should release investment of at least € 315 bn for strategic infrastructure projects) should further benefit the economy. With the steep fall in the oil price having slowed the rate of price increases in 2015, the EU Commission expects the inflation rate to fall further, although concerns of deflation risks have decreased due to the easing programmes of the ECB.

According to experts, the CEE nations should benefit from more vigorous domestic demand and increased investment activity in years ahead, with growth averaging 3.3% this year (the fastest pace since 2008). With GDP forecast to expand by 4.5% in 2015, the Czech Republic is likely to become the fastest growing member of the CEE region. Growth of 3.6% is expected for Poland in 2015, with Hungary expanding by 3.0%.

PROPERTY MARKETS

THE REAL ESTATE MARKET IN AUSTRIA¹⁾

The investment market

The volume invested in commercial real estate during the fourth quarter of 2015 (€ 1.8 bn) represented the highest ever quarterly total and accounted for almost half of total annual investment. Main reason for the increase was the closing of a number of large-volume deals at the end of the year. In 2015, office properties accounted for 40% of transactions, followed by retail properties with 31%. The total investment volume of € 2.7 bn in 2015 was nearly similar to last year's result of 2.8 bn. The prime yield on office properties stood at 4.20% in quarter four, marginally down on the previous quarter (4.30%). Yields in good locations were very slightly lower (10 bps) than those for quarter three (4.95% compared to 5.05%). The proportion of foreign capital exceeded 50% of the year's total for the first time in 10 years. During the fourth quarter, the proportion of international investors rose from 26% (in Q3) to almost 65%. Domestic investors were responsible for around 35% of investments, with German investors accounting for approximately 21%.

The office property market

The stock of premises on the Viennese office property market expanded by approximately 198,000 sqm, representing an increase of 75% on the last year's value (113,000 sqm). The total office stock was approximately 11.0 m sqm in the fourth quarter, which represented a minor increase on the value of 2014 (10.9 m sqm). The main reason for the overall stability of the stock was the significantly lower volume of new completion. New supply only slightly exceeded 7,000 sqm while no significant office projects were completed in the last quarter. Lettings performance of 61,000 sqm in the fourth quarter of 2015 was 50% above the result for the third quarter (32,000 sqm). However, total lettings performance in 2015 (200,000 sqm) was slightly below the previous year's figure of 210,000 sqm. In 2015, new office space was either fully pre-let or owner occupied, a trend that is expected to continue until 2017 or 2018. The vacancy rate fell to a record low level of 6.3% on account of the low completion volume in 2015 and the continuing demand for office space. The peak monthly rent in Vienna in the final quarter of 2015 rose slightly to € 25.85/sqm as compared to the previous quarter (€ 25.75/sqm). Rents in good and average locations varied somewhat, with both

¹⁾ Sources: CBRE: Austria Investment MarketView Q4 2015, Vienna Office MarketView Q4 2015, MarketView EMEA Rents and Yields Q4 2015

rising by the fourth quarter to stand at around € 15.50/sqm per month in good locations and € 13.50/sqm per month in average locations.

THE REAL ESTATE MARKET IN GERMANY²⁾

The investment market

The commercial transaction volume in Germany reached € 55.1 bn in 2015, up almost 40% on last year's value. Over 30% of the annual result (€ 17 bn) was attributed to the fourth quarter of 2015 alone, making this the strongest quarter of the past 5 years. Approximately € 23 bn was invested in office properties in Germany during 2015, followed by € 17 bn invested in retail. Together, these two categories represent approximately 75% of the total German investment market for commercial real estate. In the last quarter of 2015, investment in office properties reached the highest quarterly level since 2007. The proportion of foreign investors in Germany has increased from 39% to almost 50%.

The proportion of investment in office properties in the overall transaction volume doubled between 2010 and 2015. In Berlin, € 4.4 bn was invested in office properties (57% of the total Berlin investment market), while the figure in Munich was € 4.3 bn (73%). The highest proportion of investment in offices was reported in Frankfurt (€ 4.9 bn or 81% of the total volume). In response to high demand for investment, the prime yield in Munich declined on the previous year to 3.65% (compared to 4.0% in Berlin and 4.4% in Frankfurt).

The office property market ¹⁾

In comparison with 2014, office space take-up in Germany increased by 21% to approximately 3.6 m sqm in 2015. Development was variable in the main property centres, however. With floor space turnover at a record high of 879,400 sqm, Berlin recorded a rise of 43% compared to 2014, while turnover in Düsseldorf rose by 46% to 342,500 sqm. Floor space turnover for the five other core cities was between these levels, with Frankfurt, Stuttgart, Munich and Cologne improving on the previous year. The volume of new space decreased by 12% to 870,000 sqm in 2015. Of the floor space completed in 2015, 65% was pre-let or owner-occupied.

Total vacancy decreased by 16% to 5.69 m sqm in 2015, dropping below the six m sqm threshold for the first time since 2013. In 2015, the average vacancy rate across the core cities reached a new low of 6.4%, representing the lowest level since 2002. Vacancies are expected to further fall in 2016 due to high levels of demand. In 2015 there was a rise in prime rents in all cities except for Cologne and Düsseldorf. The aggregate prime rent rose by 3% in

2015; average rents also rose by 4%, with similar results expected for 2016.

Office space take-up in **Munich** totalled 761,000 sqm in 2015, mainly thanks to a strong fourth quarter (248,000 sqm); a total take-up of approximately 700,000 sqm is expected in 2016. In 2015, 178,500 sqm of new or redeveloped office space was completed. The office vacancy level stood at 5.3%, its lowest level since 2003. Compared to the same period of 2014, the peak monthly rent increased by € 1 to € 34.00/sqm in the fourth quarter of 2015 due to excess demand for top quality space. In 2015, 180,000 sqm of newly built offices were completed.

Office space take-up in **Frankfurt** was approximately 391,200 sqm in 2015, below the 400,000 sqm level for the fourth time since 2004 and around 12% below the ten-year average. At the same time, the highest number of new leases for more than a decade was completed in 2015 (although this mainly comprised smaller-scale transactions). Quality is still the primary focus: 63% of all take-up related to top quality properties while four of the 10 largest transactions concerned development projects.

Note: floor space turnover includes owner-occupier transactions

The vacancy rate fell further to 9.1% in the final quarter of 2015; it is currently at its lowest level for over 10 years. Compared to the previous year, the prime rent increased slightly from € 35/sqm to € 35.5/sqm per month. A further increase in high demand locations is expected in 2016.

Office space take-up in **Berlin** reached the record level of 879,400 sqm in 2015, the highest level achieved in the market. With this volume Berlin ranked first among the Big 7 office locations in Germany for the first time. Floor space turnover was approximately 294,200 sqm in quarter four of 2015. The vacancy rate fell to a low of 6.3% in the final quarter, while the completion volume reached its highest level since 2005 and is expected to continue growing in 2016. The peak monthly rent increased to its highest level since 2002 (€ 24/sqm per month); this is reflected in an increase in the average rent to over € 15/sqm per month.

THE REAL ESTATE MARKET IN EASTERN EUROPE ¹⁾

The investment market

The investment volume in the CEE nations (excluding Russia) amounted to around € 9.5 bn in 2015, equivalent to growth of approximately 25% compared to last year. Poland remained the leading regional market with an approximate share of 46% (€ 4.1 bn), followed by the Czech Republic (30%, € 2.7 bn), Hungary (9%, € 0.7 bn), Romania (7.5%, € 0.6 bn) and Slovakia (4.5%, € 0.3 bn). Driven by transactions in the Czech Republic and Poland, the retail sector reached the record level of € 4.5 bn (+160% or 45% of the total investment volume). In the CEE countries, the office transaction market declined by 17% to € 3.9 bn as compared to the previous year's value of € 4.7 bn. Yields decreased in the CEE regions due to the multitude of transactions closed in 2015, the result of increased interest from investors. Prime yields have also sharpened on the core markets of CA Immo, but remained relatively stable until the end of the year. In quarter four prime yields in Poland and Czech Republic remained stable at 5.75%, while Hungary stood at 7.15% and Romania at 7.50%.

In the second half of 2015, the transaction volume in **Poland** rose to the record level of € 2.88 bn, bringing the total annual volume to € 4.1 bn. Investment activity ex-

ceeded expectations. Some transactions signed in the second half of 2015 are due to be closed in 2016, which is forecast to result in significant transaction volumes in the subsequent quarters. Thanks to solid performance in 2014, Poland retained the primary focus of many institutional investors, even though its share of the total CEE transaction market fell from 70% in 2012 to around 46% in 2015 as other countries of the region attracted higher volumes – a promising trend for the region as a whole. For the first time, the volume of transactions in regional cities exceeded the volume registered in Warsaw. In the second half of 2015 office transactions concluded in regional cities accounted for 61%, while Warsaw's share of the transaction volume for the period was only 39%.

The transaction volume in the **Czech Republic** reached € 1.45 bn in the second half of 2015, resulting in a full-year figure of € 2.65 bn, an increase of 65% on the last year's value. In H2 2015 **Hungary** reached € 500 m, of which 58% represented investments in office. The investment volume in **Romania** was dominated by industrial transactions (41%), followed by office transactions (38%). The property investment volume resulted in approximately € 650 m; Bucharest accounted for more than 80% of the transaction volume.

The office property markets ²⁾

In all four core cities of CA Immo (Warsaw, Prague, Budapest and Bucharest), increasing floor space turnover and decreasing vacancy rates were observed in 2015.

At the end of 2015, total floor space in **Warsaw** stood at approximately 4.7 m sqm. The completion volume was 277,600 sqm in 2015, with a further 400,000 sqm due to follow by 2016. Of the newly constructed space, 46% is located in the central business district. Total take-up activity reached 833,200 sqm in 2015, with 221,140 sqm leased in the final quarter. At the end of 2015, the vacancy rate was recorded at 12.3% (13.3% in 2014); year-on-year, vacancy has fallen by 1%. Due to the extensive pipeline, the prime rent has decreased to € 23.50/sqm (€ 25.00/sqm in 2014).

By the end of 2015, 240,000 sqm of office space had been leased in **Bucharest**, with lettings activity declining by 20% compared to the previous year. The completion volume in 2015 stood at 72,500 sqm. Office space in Bucharest totalled 2.35 m sqm in 2015 and is expected to

¹⁾ Sources: Jones Lang LaSalle: CEE Investment Market Pulse/2015; CBRE: CEE Property Investment MarketView Q4 2015

²⁾ Sources: Jones Lang LaSalle: Prag Office Market Q4 2015; CBRE: Office MarketView Prague, Warsaw, Bucharest and Budapest Q4 2015, EMEA Rents and Yields Q4 2015

expand by 408,000 sqm in 2016. The vacancy rate decreased to 11.9% at year end, mainly due to the low level of new supply in 2015; it is expected to grow in the forthcoming quarters. However, there are big differences between the various submarkets. Vacancy in class A properties was just 5.3% since 58% of the transactions were signed in Class A office buildings, while the rate for B-class properties was 15.9%. The prime monthly rent in Bucharest remained stable at € 18.5/sqm in the fourth quarter of 2015.

Annual take-up in **Budapest** rose by 51% to 364,800 sqm in 2015 compared to last year's value. Lettings performance in the office sector in 2015 exceeded the half-million sqm threshold for the first time to expand by 18%, a similar rate to that reported in 2014. The completion volume in 2015 declined to 50,900 sqm, 25% below the comparable value for last year; supply is expected to increase to approximately 100,000 sqm in 2016, with

57% of the new premises already let. The vacancy rate fell by 4.1% in 2015 to stand at the current level of 12.1%. The fall in vacancy was similar for all building categories, with class A properties registering the lowest average vacancy of 8.8%. The average prime monthly rent in Budapest currently stands at € 19-21/sqm.

In the final quarter of 2015 the office market in **Prague** grew by 32,200 sqm. The portfolio of office space in Prague thus reached 3.22 m sqm. Lettings performance in 2015 reached 449,800 sqm, of which 272,900 sqm is newly leased, resulting in the highest figures in the market's history. The vacancy rate in Prague reached its peak during 2015 before decreasing in the final quarter to 14.6%, mainly due to strong net take-up. Further significant declines in the vacancy rate are not expected in the following year. Prime monthly rents in the city stand at € 18.50-19.50/sqm, with the inner city figure ranging from € 14.50-16.00/sqm and peripheral areas ranging from € 13.00-14.50/sqm.

PROPERTY ASSETS

The CA Immo Group divides its core activity into the business areas of letting investment properties and developing real estate. In both of these business areas, CA Immo specialises in commercial real estate with a clear focus on office properties in capital cities in the centre of Europe. The objective is to build up a focused portfolio of high quality and sustainable investment properties within the core markets of Germany, Austria, the Czech Republic, Poland, Hungary and Romania. The company generates additional revenue through the utilisation of developed land reserves.

DISTRIBUTION OF PORTFOLIO VALUE BY COUNTRY (Basis: € 3.7 bn)

€ 3.7 bn property assets

As at key date, the property assets of CA Immo were approximately € 3.7 bn. Of this figure, investment properties account for € 3.2 bn (89% of the total portfolio)¹⁾ and property assets under development represent € 0.4 bn (11% of total portfolio). Germany is the biggest regional segment with a proportion of 42% of total property assets.

CA IMMO PROPERTY ASSETS

¹⁾Includes properties in Serbia, Croatia, Bulgaria, Slovenia and Ukraine.

Acquisitions

At the start of July CA Immo acquired shares of the joint venture partner EBRD in the Eastern European “E-Portfolio.” With this acquisition, CA Immo’s share in the portfolio of eight yielding office assets (book value approx. € 486 m) as well as four land plots (book value approx. € 23 m) increased from previously between 65% (respectively 75%), to 100%. The portfolio comprises high-quality office buildings in Prague (Amazon Court, Nile House, Kavci Hory), Bucharest (Europe House, River Place), Budapest (City Gate, Infopark West) and Zagreb (Zagrebtower). The occupancy of the “E-Portfolio” stood at 95.3% as at December 31, 2015. The gross yield of the portfolio amounted to 7.7%. The gross purchase price for the EBRD stake amounts to around € 60 m and reflects a discount to the NAV of the portfolio. The loan-to-value ratio of the portfolio stands at around 50%.

Sales

In business year 2015, the strategic policy of focusing on large-scale, modern office properties in the portfolio was upheld across the Group. Accordingly, the majority of sales involved properties not classified as part of core business of CA Immo in regional or sectoral. Property assets sold in 2015 generated total trading income of € 502.1 m and contributed € 53.9 m to the result (compared to € 38.8 m in 2014). Trading income is reinvested in the development of office projects in Germany, amongst other things.

In February CA Immo sold two small-scale office buildings in Sofia (Europark office building, 8,000 sqm of rentable effective area) and Budapest (Buda Business Center, 6,400 sqm) as well as **two hotels in the Czech Republic**: Europort Airport Center, a hotel directly located at the Prague Airport with some 13,800 sqm gross floor area, and Diplomat Center in Pilsen, spanning some 10,000 sqm floor area.

Furthermore, CA Immo continued the **strategic withdrawal from the logistical segment**: the closing for the sale of a logistics portfolio with a total floor space of around 467.000 sqm, held in a joint venture with the EBRD was completed in March; as well as the sale of Europolis Park Budapest M1 with around 69,100 sqm rental area. In September CA Immo sold the H&M logistics centre in Hamburg-Allermöhe with a total effective area of approximately 114,500 sqm. The purchase price of more than € 100 m was well above book value.

In September CA Immo further **reduced the share of minority interests in the portfolio** and sold its 50%-share in Poleczki Business Park located at Warsaw airport to its long-term joint venture partner UBM Development AG. The transaction volume of the sale was more than € 80 m; the transaction was closed in January 2016.

Portfolio adjustments delivered sales proceeds throughout **Austria**. A number of smaller, mixed-used properties, various asset categories and land leases were sold with a total book value of about € 89.1 m. The result of these transactions was around € 2.4 m.

The **sale of building plots** in the course of urban district development projects in Germany (mainly in city centre locations) contributed a total of € 71.3 m to trading income or € 14.57 m to the result. Sales mainly involved residential construction sites in the Berlin district of Europacity; suitably value-enhancing zoning approvals had previously been obtained.

In the end of September, CA Immo sold a planned residential and commercial building in Mainz's Zollhafen in a Forward Sale. The turnkey property measuring around 18,500 sqm will be constructed for a special property funds managed by Aberdeen. Completion of the building is scheduled for mid-2018. The purchase price for the building is around € 66 m.

Investments

In 2015 CA Immo invested a total of € 134.4 m (2014:€ 141.9 m) in its property portfolio. Of this figure, € 25.4 m was earmarked for modernisation and optimisation measures and € 109 m was devoted to the furtherance of development projects.

INVESTMENT PROPERTIES

Contributing around 89%¹⁾ of total property assets, the investment property area is CA Immo's main source of income. The principle objective of the company is the continual optimisation of its portfolio and the retention and acquisition of tenants with a view to securing stable and regular rental revenue. 42% of the rentable office space²⁾ of CA Immo is certified in accordance with LEED, DGNB or BREEAM standard (see also the chapter Sustainability).

Investment properties: Office share enhanced to 85%

As at key date 31 December 2015, the Group's asset portfolio³⁾ incorporated a total rentable effective area of 1.3 m sqm with an approximate book value of € 2.8 bn (compared to € 2.8 bn in 2014). With 49% of book value, the Eastern Europe segment accounts for the largest proportion of the asset portfolio. In 2015, CA Immo generated total rental income of € 187.8 m (€ 200.4 m in 2014); the Eastern Europe segment accounted for roughly 51% of total rental revenue. On the basis of annualised rental revenue, the asset portfolio produced a yield of 6.3%⁴⁾ (6.6% in 2014). In line with the strategic portfolio focus, the office share in the total portfolio was further increased from 79% (31.12.2014) to 85% as at the reporting date.

Occupancy rate increased to 92.7%

The occupancy rate for the asset portfolio⁵⁾ rose from 90.7% (31.12.2014) to 92.7% on 31 December 2015. In like-for-like comparisons of properties forming part of the portfolio as at 31 December 2014, the economic occupancy rate increased from 90,5% on that date to 92,5% on the balance sheet date for 2015.

Lettings performance 2015

Across the Group, CA Immo let approx. 207,400 sqm of floor space in 2015, of which 15% (about 31,300 sqm) were pre-lettings on development projects. New lettings and contract extensions by existing tenants accounted for around 49%, renewals of existing tenants represent 51%. Office space accounted for 91% of total lettings performance.

The market with the highest lettings performance 2015 (in terms of regional lettable space) was Hungary with about 30% new lettings or contract extensions, followed by the Czech Republic with 27% lettings performance.

The biggest individual new letting was the lease contract with the software company Salesforce in the Kontorhaus in Munich for a total of 6,000 sqm office space. 41% of the lease contracts (in terms of letting volume) are concluded for a term of more than 5 years or for an unlimited term.

THE AUSTRIA SEGMENT

The asset portfolio in Austria comprises rentable effective area of 415,257 sqm with a market value of around € 588 m according to current valuations. In 2015, this portfolio generated rental income of € 35.5 m (€ 41.8 m in 2014), equivalent to an average yield of 5.7% (5.7% in 2014).

In 2015, CA Immo invested around € 3.2 m in its Austrian real estate portfolio, compared to € 6.3 m in 2014. Moreover, roughly € 2.8 m (€ 2.6 m in 2014) were spent on maintaining the Austrian investment properties in 2015.

Lettings

In Austria around 7,300 sqm of office space was newly let and contracts for approx. 6,600 sqm renewed. On annual comparison, the economic occupancy rate in the asset portfolio is 96.5% (96.9% in 2014).

2015 completed and transferred to the CA Immo portfolio: The John F. Kennedy-Haus at the Berlin main railway station

THE GERMANY SEGMENT

At the key date, CA Immo held investment properties in Germany with an approximate market value of € 822.8 m (€ 863.5 m in 2014) and rentable effective area of 262,458 sqm. With a share of about 30% of the total CA Immo portfolio (in terms of the portfolio value), Germany is the Group's biggest property market. The German property assets comprise mainly modern office buildings developed by CA Immo in central locations in Berlin, Munich and Frankfurt; 65% of the lettable office space¹⁾ are certified according to DGNB or LEED standard.

Three completed projects transferred to the portfolio

Rental income of € 57.4 m was generated in 2015, compared to € 51.5 m in 2014. The yield on the portfolio was 5.3% as at 31 December 2015 (5.7% in 2014). CA Immo spent some € 1.3 m on maintaining its German investment properties in 2014. In autumn 2015 the office buildings Kontorhaus in the Arnulfpark quarter of Munich (24,400 sqm surface; completely let since February 2016), Monnet 4 (10,000 sqm floor space; occupancy rate approx. 70%) and John F. Kennedy-Haus (17,800 sqm space; occupancy rate 82%), both next to Berlin Main Station, were completed and added to the CA Immo asset portfolio. In September CA Immo sold the H&M logistics centre near Hamburg with a total effective area of approximately 114,500 sqm.

Occupancy rate up from 90% to 94%

The occupancy rate for the asset portfolio in Germany increased from 90.1% on 31 December 2014 to 93.8% on 31 December 2015. In Germany, approx. 48,300 sqm floor space (of which 36,700 sqm is office space) was newly let or extended during 2015. Pre-letting on development projects accounted for almost 31,300 sqm.

THE EASTERN EUROPE SEGMENT

CA Immo has been investing in Eastern Europe since 1999. The company now maintains investment properties in nine countries of Central and Eastern Europe and South Eastern Europe. The acquisition of the minority shares in the “E-Portfolio” hitherto held jointly with the EBRD was closed in July 2015 (see chapter “Property Assets”). This transaction results in an improvement of all performance indicators for the Eastern European CA Immo asset portfolio.

As at key date 31 December 2015, investment properties in Eastern Europe had an approximate market value of € 1,359.8 m (€ 1,237.3 m on 31.12.2014), equivalent to around 45% of the total asset portfolio. In this region, CA Immo concentrates on high quality, centrally located office properties in capital cities of Eastern and South Eastern Europe, which make up 95% of the overall Eastern European portfolio. Approximately 40% of the office surfaces are certified in accordance with the LEED, BREEAM or DGNB standard (see also chapter Sustainability). Following the systematic streamlining of the portfolio in recent years, only 1% of the assets are now logistics properties (31.12.2014: 2%), 3% are retail and 1% are hotel properties. The portfolio is maintained and let by the company's local teams on site.

51% of rental revenue from Eastern Europe

The company's asset portfolio comprises 661,385 sqm of rentable effective area which generated rental income of € 94.9 m in 2015 (compared to € 107.1 m in 2014). This represents 51% of CA Immo's total rental revenue. The overall portfolio produced a gross yield of 7.6% (7.7% in 2014). In early 2015, the **office building AVIA in Krakow**, a project realised by a joint venture between CA Immo and the GD&K Group, one of the leading project developers in Poland, was completed and a share of 50% was transferred to the asset portfolio. The building has an office space of approximately 11,500 sqm, of which 97% are let.

Occupancy rate increased up to 91%

Thanks to its strong local profile and the high (site) quality of its real estate, CA Immo was able to increase the utilisation rate of its portfolio (measured on the basis of expected annual rental income) from 89% (2014) up to 91.1% (as at 31 December 2015). The occupancy rate in the core office segment stood at 91% (90% in 2014). Total lettings performance for the Eastern Europe segment in 2015 stood at roughly 145,200 sqm of rentable effective area; office space accounted for 113,700 sqm and logistical premises accounted for 30,700 sqm.

Information on sustainability aspects of the business area portfolio properties can be found in the chapter Sustainability.

INVESTMENT PROPERTIES UNDER DEVELOPMENT

Project development as a driver of organic growth

One objective of development activity is to raise the quality of the company's portfolio by absorbing projects as they are completed and thereby achieve organic growth. On the other hand, the company increases the value of land reserves by acquiring building rights and utilises them by means of sales or joint venture developments. CA Immo either transfers completed projects to its portfolio or sells them (through forward sales or to investors upon completion). In the course of its development activity, CA Immo covers the entire value chain from site development and property use approval to project management, construction management and the letting or sale of completed properties.

Information on sustainability aspects of the business area project development can be found in the chapter Sustainability.

85% of development activity in Germany

As at 31 December 2015, the development division represented around 11% (equivalent to approximately € 417.5 m, 2014: € 561.0 m) of CA Immo's total property assets. Accounting for a share of 85.0%, the focus of project development activity is still firmly on Germany. Developments and land reserves in Eastern Europe (11%) and in Austria (4%) account for the remainder of property assets under development. Development projects in

Germany with a total book value of € 355.1 m are divided into projects under construction accounting for around € 65.5 m and plots subject to property use approval and long-term land reserves (€ 289.6 m).

THE AUSTRIA SEGMENT

Development of the **Lände 3 quarter in Vienna** is entering the second phase: Following revitalisation and letting of the office surfaces, CA Immo began exploitation of the remaining construction sites directly at Erdberger Lände in 2015.

In March, the construction of 220 rental housing units was started within the scope of a forward sale for a local end investor. In addition, the construction of a further 250 rental housing units as well as 170 parking spaces at the Lände 3 site is under preparation together with the joint venture partner JP Immobilien; the start of construction on this project with a total investment volume of some € 60 m, which is being marketed under the name "Laendyard Living", is planned for summer 2016.

Another project under preparation in the Lände 3 quarter is the development of the ViE office building, spanning some 14,700 sqm. The total investment amounts to approx. € 38 m. Construction is scheduled to start in the spring of 2016 and should be completed in 2018.

THE GERMANY SEGMENT

CA Immo focuses its development activity mainly on the cities of Berlin, Frankfurt and Munich, aiming in particular to realise and establish mixed use urban development projects as rapidly as possible. As at 31 December 2015, CA Immo held rentable effective area under construction amounting to 61,959 sqm in Germany with an expected market value (after completion) of around € 279.2 m.

The main focus of current development activity in Germany

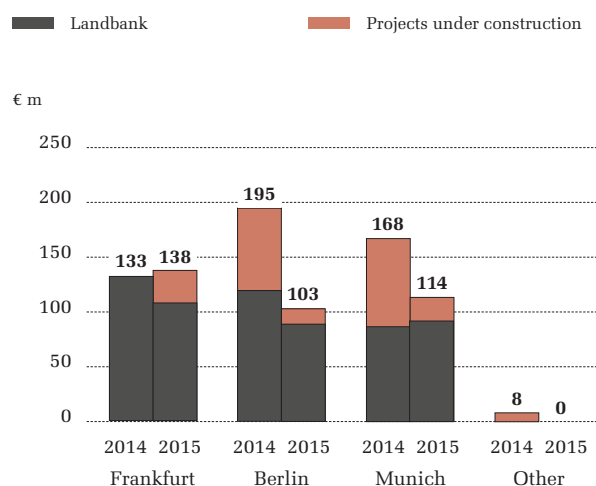

Berlin

Around Berlin's main rail station, the **city district Europacity** is taking shape, drawing together office, residential, hotel and culture on some 40 hectares. Reputable companies such as TOTAL, Steigenberger, Airbus, 50 Hertz, and Ernst Basler & Partner have already signed up as tenants or investors. CA Immo is developing one project in this district on the key date.

At the start of May the auditing firm KPMG AG has signed a lease with CA Immo for over 12,000 m² of rental space, for a newly constructed office building in Berlin's Europacity.

The company will be the single tenant of the building situated close to Berlin Central Station. CA Immo's investment amounts to around € 56 m. Construction of the building began in autumn 2015.

GERMANY: BREAKDOWN OF ASSETS UNDER DEVELOPMENT

Munich

560 high-quality housing units and attractive office spaces are expected to be completed by the end of 2018 in the **district development project Baumkirchen Mitte** in the Munich district of Berg am Laim with a surface of about 130,000 sqm. The total investment volume for this district developed in joint venture with Patrizia is about € 300 m. The first construction phase WA 1 comprises a total of 170 condominiums, all of which had already been sold by the end of 2015. The condominiums are to be handed over to the buyers as of the end of May 2016. Realisation of the second construction phase “WA 2” is also on schedule. Construction was started in April 2015 and by the end of December some 90% of the 144 condominiums had already been sold. The pre-selling rate for the 3rd and last construction phase is already at 70%, even before construction has started; the building permit has already been granted.

CA Immo is preparing the development of an office building with some 27,000 sqm in the Munich district Nymphenburg under the name **My.O**. This 7-storey ensemble is being built in a central location close to the city railway. Start of construction is planned for the end of 2016; the investment volume will be some € 96 m.

Frankfurt

Shortly after work started on a multi-storey new car park and bus terminal to augment Frankfurt’s main station, construction of a hotel was confirmed for the site Mannheimer Straße at the end of August. Directly adjacent to

the southern exit of the mainline station and very close to the inner city, CA Immo is developing an eight-level hotel with some 400 rooms along with 82 underground parking spaces for the Steigenberger Hotel Group. The hotel’s opening is planned for the end of 2018.

Mainz

In the city quarter Zollhafen Mainz jointly developed by CA Immo and Stadtwerke, the construction of the building ensemble ZigZag with a total of some 12,000 sqm lettable office space was started. ZigZag will consist of a half-timbered building (1st construction phase) and a representative, 12-storey high-rise building (2nd construction phase). The start of construction is planned for the spring of 2016; the budgeted investment volume for the 1st phase is € 16 m.

THE EASTERN EUROPE SEGMENT

CA Immo had one current development project in Eastern Europe (in Bucharest) as at 31 December 2015. In total, the Eastern Europe segment accounts for property assets under development (land reserves and building rights) with an approximate market value of € 46.2 m.

In early October CA Immo started the **office project Orhideea Towers in Bucharest** with a lettable surface of 37,000 sqm and a total investment volume of about € 75 m. The construction has started in October 2015 with special foundation works, the entire project will be delivered in 2017.

PROPERTY VALUATION

Property valuation constitutes the basis on which a real estate company is appraised, and is thus the most important factor in determining net asset value. In addition to property-specific criteria, there are many economic and political factors that can affect the development of property values. In the office property sector, which represents the core business of the CA Immo Group, the general economic pattern – especially where economic growth and the employment rate are concerned – directly influences the real estate cycle. Moreover, factors such as interest rates and geopolitical developments are also key variables with a major influence on the demand situation on real estate investment markets.

External valuations to international standards

The value of real estate is generally determined by independent expert appraisers from outside the company applying recognised valuation methods. External valuations are carried out in line with standards defined by the Royal Institution of Chartered Surveyors (RICS). The RICS defines fair value as the estimated value at which an asset or liability can be sold to a willing buyer by a willing seller on the valuation date in the framework of a transaction in the usual course of business after a reasonable marketing period, whereby each party acts knowledgeably, prudently and without compulsion.

The valuation method applied by the expert appraiser in a particular case is mainly determined by the stage of development and usage type of a property.

Rented commercial real estate (which makes up the bulk of the CA Immo Group's portfolio) is generally valued according to the **investment method**; fair values are based on capitalised rental revenue or the discounted cash flow expected in future. In addition to current contractual rents and lease expiry profiles, the competent assessment of the expert appraiser determines and considers other parameters such as, in particular, attainable market rent and the equivalent yield for a property.

The **residual value procedure** is applied to **sites at the development and construction phase**. In this case, fair values are determined following completion, taking account of outstanding expenses and imputing an appropriate developer profit. Possible risks are considered, amongst other things, in respect of future attainable rents and the capitalisation and discounting rates. Interest rates are influenced in particular by general market behaviour as well as locations and usage types. The closer a project comes to the point of completion, the greater the proportion of parameters derived from actual and contractually stipulated figures. Sites are valued according to the investment method shortly before and after completion.

In the case of **land reserves** where no active development is planned for the near future, the **comparable value method** (or the **liquidation, costing or residual value method**) is used, depending on the property and the status of development.

An external valuation of over 94% of all property assets was carried out on the key date 31 December 2015. Values for other property assets were updated on the basis of binding purchase agreements or internally in line with the previous year's valuations.

The valuations as at 31 December 2015 were undertaken by the following companies:

- CB Richard Ellis (Austria, Germany, Eastern Europe)
- Cushman & Wakefield (Eastern Europe)
- MRG Metzger Realitäten Beratungs- und Bewertungsgesellschaft (Austria)
- Knight Frank (Eastern Europe)
- Ö.b.u.v.SV Dipl.-Ing. Eberhard Stoehr (Germany)
- Valeuro Kleiber und Partner (Germany)
- Buschmann Immobilien Consulting (Germany)

Market environment in 2015

The market environment for the core markets of Germany, Austria and the CEE nations was positive in 2015 (see also the 'Property markets' section). The positive economic trend in Germany has prompted a boom in investment and generated record high turnover from lettings and sustained yield compression. The encouraging development has also been reflected on the rental market of Germany in improved letting performance, occupancy rates and average rents in the German office cities. The CA Immo Group was able to derive significant benefit from these positive market trends thanks to its strong market positions in the cities of Munich, Frankfurt and Berlin. The Vienna office market also enjoyed greater interest from investors in a stable operating environment. The core Eastern European markets of Prague, Budapest and Bucharest were characterised by stable operating performance in 2015. Extensive building activity is currently taking place on the office market in Warsaw, which also reports record lettings performance and strong interest from international investors. Transaction activity on the investment markets in the CEE region shows a clearly positive trend. For 2015 as a whole, the CA Immo Group recorded a positive revaluation result of € 213.8 m (€ -4.2 m in 2014).

AUSTRIA

A low volume of new office premises coupled with high levels of pre-letting made for a stable office property market in Austria in 2015; accordingly, there were no major value changes in the CA Immo asset portfolio. As at the key date, the revaluation result was € 5.4 m, against € 6.9 m in 2014. The average gross yield on investment properties stood stable at 5.7%.

GERMANY

Strong performance on the German office market resulted in highly positive value development for the real estate portfolio, mainly on account of this positive market trend coupled with successful implementation of development projects and highly profitable sales of non-strategic properties. The revaluation result for the Group as at 31 December 2015 was € 169.4 m (2014: € 14.4 m). The largest contributions to the revaluation gain in terms of amount in the German segment came from the revaluation of the Tour Total investment property, completion of the John F. Kennedy-Haus project and plot sales in Berlin's Europacity district. Revaluation of the Kontorhaus office property (completed in 2015), the Skygarden investment property and a development property also delivered highly positive effects in the core market of Munich. Year on year, the gross yield fell from 5.8% to 4.8%.

²⁾ Excludes properties used for own purposes

EASTERN EUROPE

The 2015 revaluation result for the Eastern Europe segment stood at € 39.0 m (2014: € -25.3 m). The result includes a one-time effect posted in quarter three linked to the takeover of EBRD's minority share and subsequent full consolidation of the E-portfolio in the amount of € 32.1 m. This revaluation effect results from the difference between the acquisition costs based on the purchase

price as entered in the balance sheet and the attributable fair value of properties acquired.

The market environment was widely stable across much of CA Immo's core region in 2015. One exception is Warsaw, the most important market in the company's Eastern European portfolio, where the supply of modern office space is likely to outpace demand in the short term owing to vigorous building activity.

FINANCING

As a real estate company, CA Immo operates in a capital-intensive sector where success is heavily dependent on access to debt. It is highly relevant to establish the most effective possible structuring and optimisation of financing with outside capital; alongside successful management of the real estate portfolio, this is one of the key factors in the overall result of CA Immo.

Balance sheet profile remains strong

As at 31 December 2015, the total financial liabilities of the CA Immo Group stood at € 1,403,989 K, above the previous year's value of € 1,229,150 K. Net debt after the deduction of the Group's cash and cash equivalents amounted to € 1,191,446 K at year end (2014: € 1,061,291 K). The company thus has an extremely robust balance sheet with a healthy equity ratio of 53.2% (53.2% in 2014), which in conservative debt figures equates to gearing of 56.2% (2014: 54.4%) and a loan-to-value (LTV) ratio of 37.2% (2014: 39.4%).

In addition to financing already secured which is thus reflected on the balance sheet, the CA Immo Group has non-utilised credit lines that will be used to finance development projects under construction in Germany; payment dates will be set by the banks as construction work progresses. This financing framework amounted to € 94,308 K as at the key date, whereby joint ventures are recognised according to the amount of the holding. Continual optimisation of the financing structure has led to a further significant reduction in financing costs in 2015 (€ -60,172 K against € -81,767 K in 2014). The resultant improvement in recurring earnings power continues to enhance the Group's profitability.

Investment grade rating granted

In December 2015 Moody's Investors Service, the international rating agency, classified CA Immobilien Anlagen AG with a Baa2 investment grade (long-term issuer) rating with stable outlook. The credit report published by Moody's emphasised the high quality and regionally diversified portfolio of office properties, the low tenant concentration risk, the low level of gearing and the conservative financing policy as particularly positive factors. The investment grade rating of CA Immo facilitates greater flexibility and thus further optimisation of the financing structure through improved access to the institutional debt capital market; this means the range of usable financing possibilities can be expanded. The key indicators in retaining and upholding the corporate credit investment grade rating are a strong balance sheet with low gearing, recurring earnings power, an associated solid interest coverage ratio and a sufficiently large quota of unsecured properties.

Expiry profile

The diagram below shows the maturity profile of the financial liabilities of the CA Immo Group as at 31 December 2015 (assuming options to extend are exercised). The due amounts shown for 2016 total approximately € 635 m as at the key date. Of this, loans secured by a mortgage totalled some € 449 m, of which proportionate financing for joint ventures accounted for approximately € 96 m. Of the liabilities of approximately € 539 m fully consolidated by due amounts, a corporate bond falling due in September 2016 accounted for € 186 m; secured loans due in Austria and Germany were approximately € 162 m, with those in Eastern Europe totalling around € 191 m.

MATURITY PROFILE AND FINANCIAL LIABILITIES OF THE CA IMMO GROUP

Falling financing costs

As the table shows, average financing costs for the CA Immo Group on the basis of total financial liabilities (i.e. including proportionate joint venture financing) stood at 2.9% as at key date 31 December 2015 and thus just below the annual target of 3.0%. This figure contains derivatives used for interest rate hedging in the form of interest rate swaps and caps. Where the latter are disregarded, the average interest rate is lower at 2.6%.

As a result, average financing costs fell significantly during 2015, as in the previous year (the figure on key date 31 December 2014 was 4.1%). The use of cash and cash equivalents to optimise the financing structure through the repayment of costly loans and the use of derivatives for interest rate hedging were the key drivers. With base rates still at historic lows and even negative in some instances (Euribor), and given the

persistently competitive environment for bank financing (especially in Germany), which entails lower financing margins, the trend on all core markets of CA Immo was for decreasing financing costs.

BASIC PARAMETERS OF THE FINANCING STRATEGY

Current emphasis on secured financing

The focus of the current financing structure is on mortgage credit secured with property; credit is taken up in the (subsidiary) companies in which the respective real estate is held. Since financing is provided at subsidiary level, there is no recourse to the parent company or other parts of the Group. Covenants linked to such project financing relate only to the property in question and not to key figures for the Group as a whole.

Raising the proportion of unsecured financing

As at the key date, unsecured financing at Group parent company level was essentially limited to two bonds placed on the capital market with a total volume of approximately € 361 m; this received a boost of € 150 m in February 2015 with the issue of the corporate bond 2016-2023. To secure the Group's investment grade rating, expansion of the volume of unsecured real estate is planned: the use of issue proceeds from unsecured financing instruments should enable the repayment of mortgage credit and thus the release of encumbrances relating to currently secured real estate.

Long-term financial indicators

Upholding a sound balance sheet structure with a strong equity basis is strategically important to the CA Immo Group. As regards financial indicators, long-term objectives fluctuate between 45-50% for the Group's equity ratio and around 45% for the loan-to-value ratio (net financial liabilities to property assets). In the long term, the interest rate hedging ratio (around 57% as at the key date) should stand at around 75% of financial liabilities.

Long-term interest rate hedging

Since the interest paid makes up the biggest expense item in the income statement for most real estate companies, interest rate rises can have a major impact on earnings - especially since rental revenue is usually based on long-term agreements, which means increases in financing costs cannot be counterbalanced by higher revenue. For this reason, the CA Immo Group's financing policy partly involves hedging a substantial proportion of interest expenditure against fluctuation over the long term. Interest swaps (and, to a lesser extent, interest rate caps) are used as interest hedging tools. It is also possible to utilise the instrument of a swaption, an option to enter into an interest rate swap in a defined timeframe. In future, fixed-interest bonds will also make up a greater part of the interest rate hedging ratio.

Of the derivatives deployed, interest swap agreements account for a nominal value of € 243,227 K. The weighted average term remaining on derivatives used for interest rate hedging is around 2.9 years, compared to a weighted remaining term of 3.7 years on financial liabilities. Interest rate caps represent a nominal value of € 45,277 K.

In terms of the balance sheet, a distinction is drawn between those contracts directly attributable to a loan (thus meeting the criteria for hedge accounting as cash flow hedges) and those for which these preconditions are not met (fair value derivatives). For cash flow hedges, the change in the fair value on the relevant key date is recognised directly in equity; for fair value derivatives, by contrast, the change is recognised as expenditure in the income statement under 'Income from interest rate derivative transactions'. As at key date 31 December 2015, contracts with a nominal value of € 95,555 K and a fair value of € -6,942 K were classified as cash flow hedges. The nominal value of swaps classified as fair value derivatives was € 147,672 K; the negative fair value was € -5,801 K as at 31 December 2015.

Bonds

As at key date 31 December 2015, CA Immo had the following outstanding bonds registered for trading on the unlisted securities market of the Vienna Stock Exchange:

ISIN	Typus	Outstanding Volume	Maturity	Cupon
AT0000A026P5	Corporate Bond	€ 186 m	2006-2016	5,125%
AT0000A1CB33	Corporate Bond	€ 175 m	2015-2022	2,750%
AT0000A1JVU3	Corporate Bond ¹⁾	€ 150 m	2016-2013	2,750%

¹⁾ Issuance in February 2016

The bonds provide unsecured financing at Group parent company level; they are pari-passu to one another and to all other unsecured financing of CA Immobilien Anlagen AG. The two outstanding bonds as at key date 31 December 2015 do not provide for any relevant financial covenants, while the conditions of the bonds issued in February 2016 include a loan-to-value (LTV) covenant.

Issuance of new corporate bonds

Following repayment of the corporate bond for 2009-2014, (with a nominal value of € 150 m) in October 2014, a new corporate bond with a total volume of € 175 m was issued in February 2015. This bond has a term of seven years and an interest rate of 2.75%. The

bond, which was mainly subscribed by private investors in Austria, was registered for trading on the unlisted securities market of the Vienna Stock Exchange (ISIN AT0000A1CB33).

After being granted an investment grade rating in December 2015, CA Immo issued another unsecured corporate bond in February 2016 with a volume of € 150 m, a term of seven years and an interest rate of 2.75%. The issue was assessed at Baa2 by the rating agency Moody's, in line with the issuer rating. Proceeds from the issue will mainly serve to refinance the bond 2006-2016 due in September 2016 (€ 186 m). The bond 2016-2023 is registered for trading on the unlisted securities market of the Vienna Stock Exchange and the regulated market of the Luxembourg Stock Exchange (ISIN AT0000A1JVU3). Private and institutional investors in Austria as well as Italy and Germany covered more than two thirds of the placing.

Sources of financing

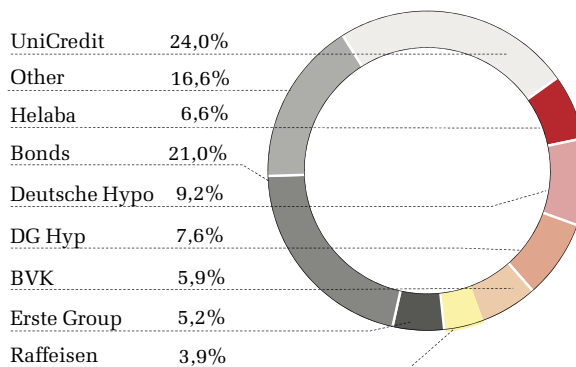

CA Immo has business relations with a large number of financing partners. With around 24% of total outstanding financial liabilities, the main financing bank is the UniCredit Group. As the diagram shows, Nord LB/Deutsche Hypo, DG Hyp, Helaba, Bayerische Versorgungskammer (BVK) and Erste Group also accounted for significant shares as at the key date. No other financing bank or insurance company provides more than 5% of the financing volume.

RESULTS

KEY FIGURES FROM THE INCOME STATEMENT

Recurring income

Rental income for CA Immo increased by 6.6% to € 154,817 K in 2015. This positive trend was essentially made possible by the acquisition of the minority share of the EBRD early in quarter three 2015 and the increase in rent this entailed. As the following table shows, the company was able to more than compensate for the drop in rent of € 10,908 K resulting from property sales thanks to inflows from this acquisition and project completions.

Incentive arrangements from various lease agreements (in particular rent-free periods) are linearised for the total term of the lease contract. Rental income therefore shows the effective economic rent and not the actual cash-relevant rent during the period. Of the rental income for business year 2015, linearisation of this kind accounted for € 4,155 K (€ -168 K in 2014).

In year-on-year comparison, property expenses directly attributable to the asset portfolio, including own operating expenses, rose by 17.6%, from € -16,350 K to € -19,225 K. The main expenditure items are vacancy costs and operating expenses that cannot be passed on

(€ -6,277 K), maintenance (€ -5,606 K), allowances for bad debt (€ -353 K) and other directly attributable expenses (€ -3,401 K). While bad debt losses, individual value adjustments and other expenses fell, the other items rose compared to the previous year.

The net result from renting attributable to letting activities rose by 5.2% (from € 128,845 132,250.0K to € 135,592 K) after the deduction of direct management costs. The operating margin on letting activities (net rental income in relation to rental income), an indicator of the efficiency of rental business, fell marginally last year from 88.7% to 87.6%.

Earnings of € 1,681 K were generated from hotel management in business year 2015. This income was counterbalanced by expenditure (excluding depreciation) of € -1,430 K; hotel management thus contributed € 251 K to the result, the fall on last year's value of € 1,756 K resulted from the sale of two independently operating hotels in the Czech Republic. Other expenditure directly attributable to project development stood at € -2,159 K at year end (€ -3,175 K in 2014).

Property sales result

Trading income of € 9,535 K (previous year: € 14,870 K) was earned in 2015 in connection with the scheduled sale of properties held in current assets. This income was counteracted by book value deductions and other directly attributable expenditure of € -6,446 K. The trading portfolio thus contributed a total of € 3,089 K to the result, compared to € 8,725 K in 2014. As at year end, the remaining volume of properties intended for trading stood at € 22,069 K.

Profit from the sale of investment properties of € 36,547 K exceeded the previous year's value of € 29,827 K. The sale of a logistics property in Hamburg, with closing in the final quarter of 2015, delivered the largest contribution to earnings from property sales. In 2015, sales in Germany accounted for € 34,194 K. The Austria segment contributed € 2,140 K to the result, with sales in Eastern Europe generating earnings of € 214 K.

Income from services

Gross revenue from services rose by 1.4% in yearly comparison to stand at € 16,219 K (€ 15,990 K in 2014). Alongside development revenue for third parties via the subsidiary omniCon, this item contains revenue from asset management and other services to joint venture partners.

Indirect expenditures

In 2015 indirect expenditures fell -4.4% from the previous year's figure of € -44,386 K to € -42,452 K. Unlike in previous periods, this item also contains expenditure counterbalancing the aforementioned gross revenue from services. As the above table shows, total indirect expenditure includes the item 'Internal expenditure capitalised', which was 22.8% up on the 2014 figure at € 7,829 K. This item may be regarded as an offsetting item to the indirect expenditures which counterbalance that portion of internal project development expenditure, provided it is directly attributable to individual development projects and thus qualifies for capitalisation.

Other operating income

Other operating income stood at € 1,470 K compared to the 2014 reference value of € 11,469 K. The fall was based on a higher reference value resulting from one-time effects posted in the previous year. These included earnings of € 3,600 K in connection with the repurchase of OEVAG liabilities and the positive effect of the conclusion of the Maslov legal dispute (amounting to € 5,271 K).

Earnings before interest, taxes, depreciation and amortisation (EBITDA)

Earnings before interest, taxes, depreciation and amortisation (EBITDA) stood at € 148,558 K, down -0.3% on the previous year's level of € 149,051 K. As outlined above, the main reason for this development was a lower contribution from other operating income, a more volatile component in the result compared to the previous year.

The contribution of the various regional segments to overall earnings is as follows: with an EBITDA of € 72,093 K, the Germany segment generated the largest share (approximately 49%) while the Eastern Europe segment accounted for € 59,097 K and the Austria segment contributed € 17,367 K.

Revaluation result

The total revaluation gain of € 257,563 K in 2015 was counterbalanced by a revaluation loss of € -43,744 K. The cumulative revaluation result of € 213,818 K was therefore highly positive (€ -4,210 K in 2014).

The boom in investment activity on the German real estate market has continued, leading to a record transaction volume and persistently suppressed yields; this is also reflected in the valuation result of CA Immo for 2015. The largest contributions to the revaluation gain in terms of amount in the German segment came from the revaluation of the Tour Total investment property, completion of the John F. Kennedy-Haus project and plot sales in Berlin's Europacity district. Revaluation of the Kontorhaus office property (completed in 2015), the Skygarden investment property and a development property also delivered highly positive effects in the core market of Munich.

The result also includes a one-time effect posted in quarter three linked to the takeover of EBRD's minority share and subsequent full consolidation of the E-portfolio in the amount of € 32,098 K. This revaluation effect results from the difference between the acquisition costs based on the purchase price as entered in the balance sheet and the attributable fair value of properties acquired.

In regional terms, the revaluation result for Germany totaled € 169,382 K. Eastern Europe and Austria also reported positive results with € 38,999 K and € 5,438 K respectively.

Result from joint ventures

Current results of joint ventures consolidated at equity are reported under 'Result from joint ventures' in the consolidated income statement. In 2015 this contribution totalled € 43,221 K. The result contains another one-time effect connected to full consolidation of the E-portfolio in the amount of € 15,592 K. A positive contribution (€ 8,263 K) from the sale of plots in Berlin's Europacity district was also posted in the fourth quarter.

Earnings before interest and taxes (EBIT)

Earnings before interest and taxes (EBIT) stood at € 402,715 K on key date 31 December 2015, 181.8% above the corresponding figure for last year of € 142,917 K. This significant increase was based on the sharp rise in the revaluation result.

In regional terms, the Germany segment contributed the biggest share to Group EBIT with € 256,352 K, or 64%. On an EBIT basis, Austria generated € 40,602 K in 2015, with Eastern Europe contributing € 105,761 K.

EBIT (Basis: € 402.7 m)

Financial result

The financial result for 2015 was € -86,702 K, compared to € -58,346 K last year. In detail, the elements of the financial result developed as follows:

The Group's financing costs, a key element in long-term earnings, fell sharply to € -60,172 K (2014: -81,767). This item contains one-time expenses of € 1,574 K connected with the optimisation of the financing structure. Loan repayments linked to sales and continual optimisation of

the financing structure had positive effects. Lower costs of floating-rate financing also had a positive impact.

In addition to interest paid as shown in the income statement, financing costs of € 236 K (€ 481 K in 2014) with a weighted average interest rate of 1.66% (2014: 1.72%) were capitalised in business year 2015 in connection with the construction of real estate.

The result from interest rate derivative transactions delivered a negative contribution of € -15,299 K (against € -13,252 K in 2014). This item mainly contains reclassifications of negative cash values of interest rate swaps previously recognised in equity which were realised in the period under review owing to the settlement of contracts.

The result from financial investments of € 12,344 K was lower than that for the reference period (€ 47,402 K in 2014). The value for last year primarily includes accrued interest on loans to joint venture companies repurchased below par by the financing bank.

Other items in the financial result (other financial income/expense, result from other financial assets and result from associated companies and exchange rate differences) totalled € -23,574 K (€ -10,731 K in 2014).

Earnings before taxes (EBT)

On the basis of the earnings performance outlined above, earnings before taxes (EBT) of € 316,013 K rose by a massive 273.7% year-on-year (2014: € 84,571 K).

Taxes on income

Taxes on earnings amounted to € -95,174 K in 2015 (compared to € -13,773 K in 2013). This amount contains a non-periodic expense of € 6.974 K linked to a disputed demand for back taxes in Germany, for which financial provision was made in the third quarter of 2015.

Result for the period

The result for the period was € 220,839 K, 211.9% above the previous year's value of € 70,798 K. Earnings per share amounted to € 2.25 on 31 December 2015 (€ 0.76 per share in 2014).

Cash flow

Gross cash flow stood at € 102,898 K in 2015, compared to 107,865 K in 2014. Cash flow from operating activities takes account of changes in current assets linked to the sale of properties intended for trading and totalled € 113,157 K as at key date 31 December 2015 (€ 99,501 K in 2014).

Cash flow from investment activities, which comprises the net balance between investments and real estate sales, stood at € 101,548 K in 2015 compared to the previous year's value of € -184,200 K. Amongst other things, this item includes the acquisition of EBRD's minority share in the E-portfolio.

Cash flow from financing activities of € -171,372 K (€ -362,962 K in 2014) includes the corporate bond 2015-2022 issued in the first quarter with a volume of € 175 m and reflects the utilisation of cash and cash equivalents for the early repayment of liabilities and closing out interest rate derivatives as part of the process of optimising the financing structure.

BALANCE SHEET ANALYSIS

Assets

As at the balance sheet date, long-term assets amounted to € 3,457,063 K (86.8% of total assets). The growth of investment property assets on balance sheet to € 2,714,305 K (€ 2,092,917 K in 2014) was mainly the result of full consolidation of the E-portfolio in the third quarter of 2015, which was stated at equity before the EBRD buy-out.

The balance sheet item 'Property assets under development' fell -17.6% to € 408,979 K compared to 31 December 2014. Total property assets (investment properties, hotels and other properties used for own purposes, property assets under development and property assets held as current assets) amounted to € 3,203,435 K on the key date (2014: € 2,693,734 K).

Assets and debts of joint ventures are no longer reported individually in the consolidated balance sheet; instead, the net assets of these companies are shown in the balance sheet item 'Investments in joint ventures', which stood at € 172,286 K on the key date (€ 206,136 K in 2014).

Cash and cash equivalents stood at € 207,112 K on the balance sheet date, well above the level for 31 December 2014 (€ 163,638 K).

Liabilities

Equity

At year end, the Group's equity stood at € 2,120,450 K, compared to € 1,951,707 K on 31.12.2014.

Mainly because of full consolidation of the E-portfolio, total assets have risen by 8.5% since the start of the year to € 3,983,983 K (€ 3,670,941 K on 31.12.2014). Despite the increase in assets, the equity ratio of 53.2% as at the key date remained stable and within the strategic target range, exactly matching the value for the end of 2014. The number of ordinary shares outstanding was 96,808,332 on key date 31 December 2015.

According to the company's own information, around 74% of the shares were in free float as at key date 31 December 2015; the remaining 26% or so are held by O1 Group Limited along with four registered shares that entitle the bank to nominate one Supervisory Board member for each share. More details on the shareholder structure and the organisation of shares may be found in the section on investor relations and the corporate governance report.

As at key date 31 December 2015, non-utilised authorised capital (article 169 of the Austrian Stock Corporation Act) of € 215.5 m, which can be utilised by 31 August 2018 at the latest, was available along with contingent capital (article 159 of the Austrian Stock Corporation Act) of € 100.0 m to service any future convertible bond issue. As at key date 31 December 2015, the company held 2.0 million treasury shares.

During 2015, shareholders' equity on the balance sheet increased by 8.6%, from € 1,951,707 K to € 2,120,450 K; aside from the result for the period of € 220,839 K, this also reflects the payment of a dividend (€ -44,464 K) and the acquisition of treasury shares (€ -32,306 K). As at 31 December 2015, the negative valuation result of these cash flow hedges recognised in equity stood at € -5,131 K.

Interest-bearing liabilities

As at the key date, interest-bearing liabilities amounted to € 1,403,989 K, 14.2% above the previous year's value of 1,229,150. Net debt (interest-bearing liabilities less cash and cash equivalents) rose from € 1,061,291 K in the previous year to € 1,191,446 K. Gearing (ratio of net debt to shareholders' equity) was 56.2% at year end (31.12.2014: 54.4%). Year on year, the loan-to-value ratio (financial liabilities less cash and cash equivalents to property assets) fell from 39.4% to 37.2%.

100% of interest-bearing financial liabilities are in euros. CA Immo has a comprehensive interest rate hedging strategy to hedge against interest rate risk; for more details, see the section on 'Financing'.

Net asset value

NAV (shareholders' equity) stood at € 2,120,450 K on 31 December 2015 (€ 21.90 per share) against € 1,951,707 K at the end of 2014 (€ 19.75 per share); this represents an increase per share of 10.9%. Aside from the annual result, the change reflects the other changes to equity outlined above. Adjusted to account for the dividend payment of € 44,464 K, the growth in NAV per share for business year 2015 was 13.2%.

The table below shows the conversion of NAV to NNNAV in compliance with the best practice policy

recommendations of the European Public Real Estate Association (EPRA). The EPRA NAV was € 24.32 per share as at the key date (€ 21.74 per share in 2014). The EPRA NNNAV per share after adjustments for financial instruments, liabilities and deferred taxes, stood at € 22.69 per share as at 31 December 2015 (€ 20.36 per share in 2014). The share buyback programme initiated in the second quarter of 2015 has steadily reduced the number of shares outstanding to 96,808,336 on the key date (98,808,336 on 31.12.2014).

OUTLOOK

LIKELY DEVELOPMENTS AND THE MAIN OPPORTUNITIES AND RISKS

Many forecasts, including that of the International Monetary Fund (IMF), point to positive economic development in Europe in the years 2016 and 2017. We believe the general conditions on CA Immo's core markets should remain conducive to business. With the environment in Germany remaining fundamentally strong, core markets in Eastern Europe are also reporting clear growth trends. The financing and interest environment will continue to define the real estate sector in 2016.

Strategy

The strategic programme for 2012-2015, which was successfully implemented ahead of time, was succeeded last year by a new strategic agenda for 2015-2017. Alongside the finalising of sales of non-strategic properties and further optimisation of the financing structure, the focus for CA Immo now switches back to raising value through growth within the defined core markets. The main aim will be to raise the profitability of the CA Immo Group over the long term. For more information and details, please refer to the 'Strategy' section.

Development

The development of high quality core office properties on the core markets of CA Immo as a driver of organic growth, especially in Germany, will remain critically important in the business years ahead. In 2015 specific efforts will be made to advance development projects under construction in Berlin (KPMG), Frankfurt (Mannheimer Strasse) and Bucharest (Orhideea Towers). Moreover, dates for the commencement of construction work will quickly be assigned to development projects at the preparation stage; at present, this applies to the MY.O project in Munich as well as the ZigZag project in Mainz and the ViE and Laendyard Living projects in Vienna. Investment in ongoing development projects should average € 150-200 m annually. For more information and details, please refer to the 'Project development' section.

Rental business

In like-for-like comparison, rents levels are expected to be generally stable across the portfolio. The increase in rent from development projects completed in 2015 (the Kontorhaus in Munich and the John F. Kennedy-Haus and Monnet 4 in Berlin) together with the acquisition of EBRD's minority share in the E-portfolio should more than make up for losses of rent linked to finalised sales of non-strategic properties as part of portfolio optimisation. The level of portfolio utilisation, which has risen steadily over recent years, is expected to be stable.

Financing

The environment for refinancing from expiring project financing of the CA Immo Group is still assessed as positive. In the property development area, we also expect the availability of bank financing under competitive conditions to remain healthy on our core market of Germany. Provision has been made for the maturity of a corporate bond in September 2016 with the issue of a new bond in February 2016. For more information and details, please refer to the 'Financing' section.

Our expectations are based on certain assumptions regarding general and specific conditions. Key factors that may influence our business plans for 2016 include:

- Economic developments in the regions in which we operate and their impact on demand for rental premises and rental prices.
- The general progression of interest rates.
- The financing environment as regards availability and the cost of long-term financing with outside capital and, accordingly, the development of the market for real estate investment, price trends and their impact on the valuation of our portfolio. The speed at which planned development projects are realised will also depend largely on the availability of necessary external loan capital and equity.
- Political, fiscal, legal and economic risks; the transparency and development level on our real estate markets.

FINANCIAL PERFORMANCE INDICATORS

The strategic focus of business activity at CA Immo is the sustained increased value of the company. This is supported by key financial performance indicators which are important tools to identify the factors that contribute to the sustained increase in enterprise value and quantifying those factors for the purposes of value management.

The primary financial performance indicator is return on equity or RoE. The aim is to produce a figure higher than the calculatory cost of capital (assuming a medium-term rate of around 7.0%), thus generating shareholder value. At approximately 10.8% in 2015 (2014: 3.8%), this figure was considerable above the target value. On the basis of the implementation of our Strategy 2015-2017 programme, an adequate RoE above the Group's cost of equity is to be generated in the medium term on a sustainable basis (see the "Strategy" section). The other quantitative factors used to measure and manage our shareholders' long-term return include the change in NAV per share, the operating cash flow per share and funds from operations (FFO I) per share (see table "Balance Sheet" and "Key Figures per Share" in the flap of the annual report).

Since the key financial indicators ultimately demonstrate the operational success of the property business, they are preceded by a series of other non-financial performance indicators which are key to measuring and managing the operational business. See the "Investment Properties" section for a presentation of these performance indicators.

The key performance indicators of operational property business are as follows:

- The vacancy rate indicates the quality of the portfolio and our success in managing it. With an occupancy rate of 92.7%, CA Immo is above market average.
- The quality of a location and its infrastructure are critical to the marketability of properties. The majority of CA Immo office properties are situated in CBD- or central business locations of central European cities.
- Sustainability Certificate: As at reporting date, 42%¹⁾ of the CA Immo stock office space is certified according to LEED, DGNB or BREEAM standard.
- Local presence and market knowledge: CA Immo has branch offices on its core markets to ensure efficient management and tenant retention

¹⁾ Basis: Office properties with a value of >10 m

EMPLOYEES

Stable employee structure

As at 31 December 2015 the number of international employees almost remained constant at 357¹⁾ employees across the Group (31.12.2014: 355²⁾). Germany is CA Immo's core market for staff with around 52% working here, followed by Eastern Europe (27%) and Austria (21%). Of a total of 184 employees in Germany, 71 worked for the wholly owned specialist construction subsidiary omniCon as at the key date.

CA Immo has head offices in Vienna, from where the company also oversees local branch offices in Frankfurt, Berlin and Munich as well as Budapest, Warsaw, Prague and Bucharest. The branch offices employ regional staff at both employee and managerial level; new appointments are made by agreement with local branch managers and the Group's Human Resources department.

KEY ASPECTS IN HUMAN RESOURCES MANAGEMENT

The Human Resources (HR) division reports directly to the CEO. Promoting personal career paths, establishing and enhancing professional expertise and management skills, team building measures, organisational development and company health promotion are the cornerstones of human resource management at CA Immo.

¹⁾ Of which around 10% are part-time staff; including 5 employees on unpaid leave; excludes 111 employees at two hotel businesses in the Czech Republic. ²⁾ Serious injuries are defined as those requiring the employee to consult a doctor

The CA Immo Academy: learning and development

Established in 2015 on the basis of internal staff surveys, the CA Immo Academy will offer modular training and instruction in three core areas from 2016 onwards:

- **Business:** Development and coaching of professional skills for various workplace areas
- **Skills:** Expansion of social skills for personal development
- **Health & Fit:** Promoting and sustaining the capacity to work and perform through a range of health seminars

Great Place to Work staff survey

At the end of 2015, a Group-wide employee survey was conducted in partnership with Great Place to Work. The results will be discussed with all members of staff, with fields of action identified with a view to enhancing specific aspects of workplace quality.

Fit2Work: greater vigour and energy

In the course of a continuous improvement process the fit2work project ensures promoting and maintaining employees' capacity to work and performance levels.

PERSONNEL DISTRIBUTION WITHIN THE CA IMMO GROUP

	31.12.2015		31.12.2014		Change		Joining / Leaving	Fluctuation rate ¹⁾ in %
	Total employees (Headcounts)	Thereof women in %	Total employees (Headcounts)	Absolute	in %			
Austria	75	56	77	-2	-3	7/9	9,2	
Germany/Switzerland ²⁾	184	43	170	14	8	30/16	n.a.	
Eastern Europe	98	78	108	-10	-9	10/20	9,8	
Total	357	58	355	2	1	47/45	13,2	

¹⁾ Fluctuation rate: New personnel x 100 / average number of employees. Includes group employees on unpaid leave. Employees gained through the acquisition of two hotel businesses in the Czech Republic were not counted

²⁾ In the framework of the newly established local office of 100%-CA Immo-subsiary omniCon in Basle, 13 employees were hired locally until end of 2015. Owing to the contractual transfers of employees from Germany to Switzerland, it is not possible to specify the fluctuation rate for this segment.

Reducing risks to health and establishing an early warning system (especially for burnout) with a view to preventing long-term sick leave and early retirements are being optimized.

AVERAGE ABSENCES FROM WORK BY REGIONS

in days		Vacation	Illness ¹⁾	Qualification
Austria	Women	22	4	4
	Men	24	4	3
Germany	Women	25	8	3
	Men	23	4	4
Eastern Europe	Women	20	5	4
	Men	23	2	6

¹⁾ Excludes four long-term sick leave cases in Germany and Eastern Europe (thereof one accident): days of absence totalled 304 for the reporting period. Including these long-term sick leaves, the average of sick leaves in Austria would be 6 (women) and 5 (men) days.

Social benefits and safety at work

Depending on taxation and national insurance circumstances, CA Immo employees receive the following social benefits, amongst others: meal and kindergarten allowances, Bahncard 25 or 50, job tickets, support for training,

limited deployment-specific allowances, group health insurance, group accident insurance and company pension (pension fund).

In Germany one work accident and one accident on the way to work have been reported, resulting in absences of not longer than one month in each case. No other serious occupational injuries¹⁾, illnesses or absences by CA Immo employees were reported in 2015. CA Immo employees on construction sites received regular safety guidance along with health and safety plans. Specific companies are tasked with ensuring the safety of subcontractor staff.

Advancement of women at CA Immo

CA Immo ensures equality and balance in the composition of its employee structure, both across the workforce as a whole and at all managerial and executive levels. The proportion of female employees was 58% at the end of 2015, while the proportion of women in managerial positions increased from 26.5% in 2014 to 30% on the key date. Two of the eight Supervisory Board mandates are held by women.

¹⁾ Serious injuries are defined as those requiring the employee to consult a doctor

SUPPLEMENTARY REPORT

The following activities are reported for the opening months of business year 2016:

In February 2016 CA Immo issued a new **corporate bond** with a total volume of € 150 m and a term of seven years. The coupon rate of the fixed interest bond is 2.75%. For details see chapter “Investor Relations”.

On 8 January 2016 the Management Board decided to implement another buyback programme for up to one million treasury shares (approximately 1% of the current capital stock). In the course of this **share buyback programme**, a total of 1,000,000 bearer shares (ISIN AT0000641352) had been acquired for a total purchase price of approximately € 15.4 m between 13 January 2016 and 19 February 2016, so that the company now holds a total of 3,000,000 treasury shares (approximately 3% of voting shares).

Sales

In January 2016, the sale of CA Immo’s 50%-share in Polecki Business Park located at Warsaw airport to its long-term joint venture partner UBM Development AG was closed. The transaction volume of the sale was more than € 80 m.

Development projects

In February CA Immo concluded a lease agreement covering 8,000 sqm of the **Bucharest office project Orhideea Towers**, which offers 37,000 sqm of gross rentable floor space in total. A global financial software provider will occupy the premises in March 2018, with the lease agreement running for 10 years.

In January 2016, CA Immo decided to develop an office building spanning some 9,500 sqm of gross office space in Europacity, Berlin. A leasing contract with ABDA - Bundesvereinigung Deutscher Apothekerverbände (Federal Union of German Associations of Pharmacists) - concerning some 70% of the office space is already concluded. CA Immo’s investment volume for this property will be around € 35 m; the construction of the building is scheduled to be completed at the beginning of 2019.

RESEARCH AND DEVELOPMENT

In April 2016, CA Immo became a partner to the OFFICE 21® joint research project of the Fraunhofer IAO Institute. The research phase extending from 2016 to 2018 is focusing on the success factors in creating a working environment that promotes innovation while linking analyses of best practice to exclusive research findings.

The cornerstones of the research activity are:

- Devising exemplary working environments and processes to optimise and stimulate the responsiveness and creativity of organisations
- Exploring different working cultures and subsequently producing optimised workplace models
- Developing answers to the changing requirements of office environments through the increasingly hyper-flexible, multi-site and digital workplace

The aim of the partnership is to produce specific research findings to enable the development of innovative new office properties and thereby ensure the competitiveness of the company for the long term.

EPRA REPORTING

To enhance transparency and facilitate comparisons with other listed property companies, CA Immo publishes a range of key performance measures pursuant to EPRA (“European Public Real Estate Association“), the leading interest body for listed property companies, standards. These figures may differ from the values reported under IFRS guidelines. CA Immo applies the latest version of EPRA’s “Best Practices Recommendations” for the figures stated. These recommendations are available on the EPRA website (<http://www.epra.com/regulation-and-reporting/bpr/>).

EPRA KEY PERFORMANCE MEASURES

		31.12.2015
EPRA NAV	€ m	2,354.4
EPRA NAV per share	€	24.32

¹⁾ Incl. fully consolidated real estate (wholly owned by CA Immo) and real estate in which CA Immo holds a proportionate share (at equity); Excl. the project developments Kontorhaus, Monnet 4 and Kennedy-Haus, which were completed in 2015 and are still in the stabilisation phase

RISK REPORT

RISK MANAGEMENT AT CA IMMO

The Group is subject to all risks typically associated with the acquisition, development, management and sale of real estate. These include general market fluctuations linked to the economic cycle, delays and budget overruns in land development, project realisations and redevelopments and risks linked to financing and interest rates. To ensure the success of CA Immo as a business over the long term and enable the company to meet its strategic objectives, effective management of new and existing risks is essential. A commensurate measure of risk must

be accepted if we are to utilise market opportunities and exploit the potential for success they hold. For this reason, risk management and the internal monitoring system (IMS) deliver an important contribution to the Group's corporate governance (defined as the principles of responsible and positive management).

Strategic alignment and tolerance of risk

The Management Board, with the approval of the Supervisory Board, defines the strategic direction of the CA Immo Group as well as the nature and extent of the risk the Group is prepared to accept in pursuit of its stra-

tegic objectives. The Risk Management division supports the Management Board in assessing the risk environment and the development of potential strategies to raise long-term shareholder value. The aim of this is to ensure the company adopts the best possible direction from the alternatives available. CA Immo evaluates the current opportunity/threat situation through quarterly reporting. Risk is assessed in relation to specific properties and projects as well as (sub)portfolios. The company incorporates early warning indicators such as rent forecasts, vacancy analyses, continual monitoring of lease agreement periods and the possibility of terminations; construction costs are also tracked during project implementation. Scenarios are envisaged regarding the value trend for the real estate portfolio, exit strategies and liquidity planning; these supplement risk reporting and promote reliable planning. CA Immo observes the precautionary principle by applying the full investment horizon to long-term planning and investment decisions. The company also evaluates specific risks at regular intervals (most recently in 2015), focusing on content, effect and likelihood of occurrence. The Management Board uses this data as the basis for determining the severity and type of risks that it regards as acceptable in pursuing its strategic objectives. Strategies adopted by the Management Board are incorporated into the Group's three-year planning; this assists the Group in communicating its willingness to take risks and its expectations both internally and externally. The risk policy of CA Immo is defined by a range of guidelines, observance of which is continually monitored and documented by controlling processes. Risk management is obligatory at all levels of the company. The Management Board is involved in all risk-relevant decisions and bears overall responsibility for such decisions. At all levels, decisions are subject to the dual verification principle. Internal Auditing, an independent division, audits operational and business processes; it acts independently in reporting and evaluating the audit results. The audit committee is responsible for overseeing the proper functioning of risk management processes.

KEY FEATURES OF THE INTERNAL MONITORING SYSTEM (IMS)

CA Immo's internal monitoring system covers all principles, procedures and measures designed to ensure the effectiveness, cost-effectiveness and correctness of accounting as well as compliance with relevant legal regulations and company guidelines. The IMS is integrated into individual business processes, taking account of man-

agement processes. The objectives of the IMS are to preclude and expose errors in accounting and financial reporting, thus enabling amendments to be introduced in good time. Transparent documentation makes it possible to depict processes of accounting, financial reporting and audit activity. All operational areas are incorporated into the financial reporting process. Competent local management teams are responsible for implementing and monitoring the IMS; the managing directors of the subsidiaries are required to perform self-checks in order to assess and document compliance with monitoring measures. The effectiveness of the IMS is regularly assessed by the Group Auditing department while the cost-effectiveness of business processes is continually evaluated. The results of these assessments are reported to the responsible executive boards, the full CA Immo Management Board and (at least once a year) the Supervisory Board. The proper functioning of the risk management system is evaluated annually by the Group auditor in line with the requirements of C Rule no. 83 of the Austrian Corporate Governance Code. The results are reported to the Management Board, the Supervisory Board and the audit committee.

STRATEGIC RISKS

CA Immo defines strategic risk as the danger of unexpected losses that can result from management policy decisions on the direction taken by the company. Such risks generally arise from unexpected changes to market and environmental circumstances that have a negative impact on earnings. In this regard, capital market/geopolitical risks, growth, market and liquidation risks and concentration (cluster) risks are especially relevant to CA Immo.

The global **financial market and economic crisis** and the sovereign debt crisis (especially in the eurozone) have in the past had a significant negative impact on the asset, financial and revenue positions of CA Immo. Further worsening of the crisis in future could have considerably negative consequences for CA Immo as long-term recovery remains a distant prospect. A more relaxed **monetary policy** and the possible reintroduction of national currencies by individual eurozone members would have grave consequences for the economies and financial markets of Europe. Moreover, low interest rates are defining the current economic environment; an **interest rate rise** could have a negative impact on the real estate market and, in turn, the disinvestment plans of CA Immo. Procurement

of equity and loan capital could become significantly more difficult, making expansion plans impossible or only partially feasible. There are also **geopolitical factors** which could potentially have negative effects on the capital market; in the event of an excessive concentration of properties in one region, the impact on the earnings of the CA Immo Group could be substantial. Many of these risks are not actively manageable at all times; where they arise, CA Immo has a range of precautions in place to minimise the risk.

PROPERTY-SPECIFIC RISKS

Risks linked to the market environment and composition of the portfolio

The level of revenue that the Group can earn from real estate is heavily dependent on the liquidity of real estate investment markets. Under certain conditions, **real estate values** can be subject to substantial fluctuation caused by falling real estate prices, lack of financing, falls in demand and so on. A poor market climate, legal provisions and contractual regulations can impair the ability of CA Immo to sell specific properties with a view to strategically adjusting its real estate portfolio. CA Immo counters **market risk** by spreading its portfolio across various countries. To minimise risk, CA Immo depends on market knowledge, continual evaluation of strategy and monitoring of the portfolio, purposeful portfolio management in the context of strategic decision-making (e.g. defining exit strategies, medium-term planning of sales) and active portfolio management to circumvent **concentration risks**. In the wake of numerous sales over the past few years (partial sale of Tower 185, sale of the Hesse portfolio and non-core properties, and especially the logistics portfolio), regional distribution in the portfolio is approaching the desired levels of 40% for both Eastern Europe and Germany and 20% for Austria. Germany remains the biggest single market of CA Immo. The aim here is to maintain property assets of € 250-300 m per core city to uphold consistent market relevance. For **single investments**, CA Immo defines concentration risk as a limit value of 5% of the total portfolio. At present, no properties in the portfolio exceed this limit value. The concentration risk in respect of **single tenants** is manageable. At present, the top 25 tenants are generating some 36% of rental revenue. Accounting for a share of approximately 7% of total rental income, PricewaterhouseCoopers is the largest single tenant in the portfolio at present. The generally high risk arising from the high capital commitment to **land reserves** and **land development projects** was further reduced in 2015 through the

sale of non-strategic land reserves. In addition, land development will be accelerated and partners involved at an early stage. The future development volume is indicated at approximately 15% of the equity of the CA Immo Group.

The Group's portfolio also includes **special asset classes** such as shopping malls, specialist retail centres and hotels whose operation involves certain risks. Poor running of the centre, inadequate corporate management of tenants, declining footfall and increasing competition can force rental rates down and lead to the loss of key tenants, which leads to rent losses and problems with new lettings. The Group's earnings situation also depends on the quality of hotel management and the development of hotel markets. To minimise risk, CA Immo is continuing its withdrawal from these special asset classes.

CA Immo counters **country-specific risk** by concentrating on defined core regions through local subsidiaries with their own on-site staff, and through appropriate regional allocation within those core markets. Continual monitoring of the portfolio and specific portfolio management enable the company to respond quickly to economic and political events. CA Immo negates **transfer risk** by repatriating liquid assets from investment markets with a low credit standing.

Risks associated with the real estate sector and CA Immo markets

The Group is exposed to numerous general risks associated with real estate investment. The real estate market is determined by macroeconomic development and demand for properties. Economic instability and restricted access to loan capital and equity-based financing can lead to business partners opting out. Where the liquidity of the real estate market is insufficient, there is a risk that properties may prove impossible to sell or only saleable under unacceptable conditions. The general market environment continues to pose the danger of starting yields for commercial real estate being adjusted upwards. Many factors that can lead to unfavourable developments are outside of CA Immo's control. These include changes to available income, economic output, interest rates and tax policy. Economic growth, unemployment rates and consumer confidence also influence the supply and demand of real estate at a local level, which in turn can affect market prices, rents and occupancy rates while adversely affecting the value of properties and associated income. For this reason, highly negative effects on **property valuations** cannot be ruled out.

Political and economic trends in the countries in which CA Immo is active also have a significant impact on **occupancy rates** and rent losses. The market value of a property is affected where the Group is unable to extend a rental agreement due to expire under favourable conditions or find (and retain for the long term) suitably solvent tenants. The creditworthiness of a tenant, especially during an economic downturn, may diminish over the short or medium term, which can affect rental revenue in turn. In critical situations, the Group can opt to cut rents in order to maintain an acceptable occupancy rate. Through careful monitoring and proactive measures (such as demanding securities and screening the creditworthiness and reputation of tenants), the Group's **loss of rent risk** has settled at a moderate level. At present, most outstanding rental payments relate to Eastern Europe. All outstanding receivables are evaluated quarterly and adjusted according to the associated level of risk; around 40% of outstanding receivables are adjusted on average. The risk of lost rent was taken into account to a sufficient degree in the estimation of property values. Many of the Group's lease agreements contain stable value clauses, usually taking account of consumer price indices for particular countries. The level of revenue from such rental contracts and new lettings depends heavily on the inflation trend (**sustainable value risk**).

Competition for reputable tenants is intense on the lettings market; rent levels are coming under pressure on many markets. To remain attractive to tenants, CA Immo could be forced to accept lower rental rates. Moreover, incorrect assessments of the attractiveness of **locations** or potential **usages** can make lettings more difficult or significantly impair desired lease conditions.

Risks associated with the project development area

Costs are generally sustained at the early stages of real estate development projects; revenue is not generated until the later phases of a project. Many development projects may be associated with **cost overruns** and **delays** in completion that are frequently caused by factors beyond the control of CA Immo. This can adversely affect the economic viability of individual projects and lead to **contractual penalties** and **compensation claims**. If no suitable tenants are found, this can produce vacancy after completion. CA Immo takes various steps to keep such risks largely under control (cost monitoring, variance analyses, long-term liquidity planning and so on). Projects are basically launched subject to appropriate pre-letting. All projects are being implemented within their approved timeframes and budgetary frameworks.

Risks associated with sales transactions

Sales in 2013 and 2014 (such as those of the Hesse portfolio, Tower 185, Skyline Plaza, BelsenPark and Lipowy) can give rise to risks linked to contractual agreements and assurances. These might be based on **guaranteed** income from rental payments, and can subsequently reduce purchase sums agreed or received. Sufficient financial provisions have been made in response to recognised risks to revenue from transacted sales, and liquidity risk is considered in liquidity planning. Contractual obligations in the form of follow-on costs (e.g. residual construction work) form part of relevant project cost estimates.

Environmental risks

Environmental and safety regulations serve to standardise active and latent obligations to remediate contaminated sites, and complying with these provisions can entail considerable investment expenses and other costs. These obligations may apply to real estate currently or formerly owned by CA Immo, or currently or formerly managed or developed by the company. In particular, the provisions cover **contamination** with undiscovered harmful materials or noxious substances, munitions and other environmental risks such as soil pollution, etc. Several regulations impose sanctions on the discharge of emissions into air, soil and water: this can make CA Immo **liable** to third parties, significantly impact the sale and letting of affected properties and adversely affect the generation of rental revenue from such properties. **Natural disasters** and extreme weather conditions can also cause considerable damage to real estate. Unless sufficient **insurance** is in place to cover such damage, this can have an adverse impact.

To minimise the risk, CA Immo incorporates these considerations into its assessments prior to every purchase and appropriate guarantees are required from sellers. Wherever possible, the CA Immo Group makes use of environmentally sustainable materials and energy-saving technologies. CA Immo observes the ecological precautionary principle by ensuring all (re)development projects qualify for certification: in this way, stringent specifications regarding green buildings and sustainability are satisfied while the usage of environmentally unsound products is ruled out.

GENERAL BUSINESS RISKS

Operational and organisational risks

Weaknesses in the CA Immo Group's **structural and process organisation** can lead to unexpected losses or additional expenditure. This risk can arise from shortcomings in **EDP** and other **information systems** as well as human error and inadequate internal inspection procedures. Flawed program sequences as well as automated EDP and information systems pose a significant operational risk where their type and scope fails to take account of current and potential business volumes. Human risk factors include an insufficient understanding of corporate strategy, inadequate internal risk monitoring (and especially business process controls) and excessive decision-making authority at an individual level, which can also lead to unconsidered actions or, conversely, a proliferation of decision-making bodies that hinder flexible responses to changes in the market. Moreover, some real estate management tasks and other administrative duties are outsourced to third parties outside the company. In the process of transferring administrative tasks, it is possible that knowledge of managed properties and administrative processes can be lost, and that CA Immo could prove incapable of identifying and contractually committing suitable service providers within the necessary timeframe. Nonetheless, the **expertise** possessed by a company and its workforce constitutes a significant competitive factor and thus a unique point of distinction over competitors.

CA Immo takes various measures to counter these risk factors. In the case of corporate mergers (e.g. the former Vivico and Europolis), CA Immo observes structured processes of organisational integration. Process organisation (i.e. system/process integration) is firmly established; activities to ensure the long-term implementation of operational processes are ongoing. The Group structure is regularly scrutinised and examined to ensure predefined structures take account of the size of the company. CA Immo counters risks linked to individual expertise (which can arise with the resignation of key knowledge holders) through regular transfers of knowledge (in training courses) and by documenting know-how (in manuals, etc.) as well as far-sighted staff planning.

Legal risks

In the course of normal business activity the companies of the Group become involved in **legal disputes**, both as plaintiffs and as defendants. Such cases are heard in various jurisdictions. In each case, different procedural

law means that competent courts are not always equally efficient; moreover, in certain cases the complexity of issues in dispute can make for protracted proceedings or lead to other delays. CA Immo believes it has made sufficient financial provisions for legal disputes. At present, no lawsuits or arbitration proceedings that could threaten the company's survival are imminent or pending.

It is not possible to predict changes to **legal provisions**, case law and administrative practice or their impact on business results; such changes may adversely affect real estate values or the cost structure of the CA Immo Group.

Organised crime, and particularly fraud and extortion, is a general risk to commercial activity. Many countries continue to perform very poorly in combating **corruption**. Such illegal activity can lead to considerable financial repercussions and negative publicity.

Taxation risk

On the markets of Eastern Europe especially, CA Immo is subject to uncertainty linked to taxation systems with provisions that are frequently amended and adapted, leading to high expenses for the Group. Exceptional tax rises are a constant risk to revenue. For this reason, all relevant discussions and decisions taken by national legislators are continually monitored. Sufficient financial provisions are made for known risks linked to tax audits and fiscal or extra-judicial proceedings.

Partner risks

Since CA Immo undertakes numerous development projects as **joint ventures**, the company depends on partners to some extent (partner risks). Part of the portfolio of investment properties in Eastern Europe is jointly held with Union Investment Real Estate GmbH. CA Immo is party to a **co-investment agreement** here, whereby various obligations and restrictions are imposed on investors. This can influence the value of investments; moreover, the Group is exposed to **credit risk** in respect of its counterparties. Depending on the agreement in question, CA Immo could also bear joint liability for costs, taxes and other third-party claims with its co-investors and, where a co-investor **opts out**, be forced to accept liability for their credit risk or share of costs, taxes or other liabilities.

FINANCIAL RISKS, LIQUIDITY, INVESTMENT AND REFINANCING RISK

(Re)financing on the financial and capital markets is one of the most important considerations for real estate companies. CA Immo requires loan capital to refinance existing loans and to finance development projects and acquisitions in particular. In effect, therefore, the company is dependent on the readiness of banks to provide additional loan capital and extend existing financing agreements under acceptable terms. Market conditions for real estate financing are constantly changing. The attractiveness of financing alternatives depends on a range of factors, not all of which can be influenced by the Group (market interest rates, level of necessary financing, taxation aspects, required securities and so on). This can significantly impair the ability of the Group to raise the completion level of its development portfolio, invest in suitable acquisition projects or meet its obligations arising from financing agreements. Although the CA Immo Group has a sufficient level of liquidity as things stand, we must take account of restrictions at individual subsidiary level; access to cash and cash equivalents is limited owing to obligations to current projects and a liquidity requirement to stabilise loans exists in certain instances. There is also a risk that planned sales will be prevented, delayed or transacted at prices lower than expected. Other risks arise from unforeseen **additional funding obligations** in relation to project financing and breaches of covenant in the property financing area. Where these requirements are violated or default occurs, the relevant contractual partners are entitled to accelerate financing and demand immediate repayment. This could impel the Group to sell real estate or arrange refinancing under unfavourable terms.

CA Immo has fluctuating stocks of cash and cash equivalents which the company invests according to its particular operational and strategic needs and objectives. In some cases, an **investment** may take the form of listed securities or funds, which are subject to a higher risk of loss. Sufficient equity capitalisation will be required for the company to retain its Baa2 investment grade (long-term issuer) **rating** (granted by Moody's in December 2015).

CA Immo counters risk of this kind by continually monitoring covenant agreements and effectively planning and securing liquidity. The financial consequences of strategic aims are also taken into account. This also ensures the Group can meet unexpected cash flow requirements. To

this end, various liquidity deployment measures have been identified and successfully implemented in some instances. The use of trading income to repay liabilities falling due in the next two years has had a highly positive effect on the **maturity profile**, which is now largely stable for the years ahead. In line with the investment horizon for real estate, loans are invariably agreed on a long-term basis. As an alternative and supplement to established means of (equity) capital procurement, the company enters into equity partnerships (joint ventures) at project level. Even with meticulous planning, however, liquidity risk cannot be eliminated, particularly where capital requests linked to joint venture partners are not viable. CA Immo Deutschland has a high capital commitment, which is typical in the case of development projects. Financing has been secured for all projects under construction; additional financing is required for new project launches.

Interest rate risk

Market-led fluctuations in the interest rate affect both the level of financing costs and the fair value of interest hedging transactions concluded. In its financing, CA Immo opts for a mix of long-term fixed-rate and floating-rate loans; the latter are not entirely secured by means of derivative financial instruments. However, CA Immo continually undertakes hedging transactions, particularly to hedge against **interest rate changes** and associated fluctuations in its financing costs. Hedging transactions of this kind may prove to be inefficient or unsuitable for achieving targets; they may also result in losses that affect earnings. Moreover, the **valuation of derivatives** can impact negatively on profits and shareholders' equity. The extent to which the Group utilises derivative instruments is guided by assumptions and market expectations in respect of the future interest level, and especially the 3 month Euribor rate. Should these assumptions prove incorrect, the result can be a significant rise in interest expenditure. Continual monitoring of the interest rate risk is therefore essential. No risks constituting a serious and permanent threat to the company exist at the present time. Sufficient provisions have been formed for all risks identified.

Currency risk

Since CA Immo is active on a number of markets outside the eurozone, the company is subject to various currency risks. Where rents are payable in currencies other than the euro on these markets and cannot be fully adjusted to current exchange rates in time, **incoming payments may be reduced** by exchange rate changes. Where expenses and investments are not transacted in euros, exchange rate fluctuations can impair the **payment capacity** of Group companies and adversely affect the Group's profits and earnings situation. CA Immo generally counters such risk in that foreign currency inflows are secured by pegging rents to the euro; no significant and

direct currency risk exists at present. The pegging of rents affects the **creditworthiness of tenants** and thus produces an indirect currency risk that can result in payment bottlenecks and loss of rent. Since incoming payments are mainly received in local currency, however, free liquidity (rental revenue less operating costs) is converted into euros upon receipt. This process is continually overseen by the responsible country coordinators. There is no currency risk on the liabilities side. Currency risks linked to construction projects are hedged according to need on a case-by-case basis, taking account of the currency underlying the order and lease agreement, likely exchange rate development and the calculation rate.

FINANCIAL RISK MANAGEMENT

RISK	EFFECT	COUNTERMEASURE
<p>UNFORESEEABLE LIQUIDITY REQUIREMENT</p> <ul style="list-style-type: none"> - Lack of liquidity - Capital requests linked to joint venture partners not viable 	<ul style="list-style-type: none"> - Non-utilisation of opportunities - Distress sales - Insolvency 	<ul style="list-style-type: none"> - Continual analysis, planning and monitoring of liquidity - Optimisation of investment - Cash pooling
<p>FINANCING</p> <ul style="list-style-type: none"> - Breach of covenants - Non-extension of expiring credit - Follow-up financing not secured after project phase 	<ul style="list-style-type: none"> - Cost disadvantages during credit term - Additional requirement for equity or liquidity 	<ul style="list-style-type: none"> - Continual monitoring of the viability of real estate and the fulfilment of covenants from loan agreements - Conclusion of project-related loan agreements, ideally for the long term - Establishment of a liquidity reserve
<p>DEVELOPMENT OF EXCHANGE RATES</p> <ul style="list-style-type: none"> - Evaluation of EUR/foreign currency relations 	<ul style="list-style-type: none"> - Significant fluctuation in earnings owing to exchange rate gains/losses 	<ul style="list-style-type: none"> - Harmonising of loan and rental agreements - Rapid conversion of free liquidity into EUR - Forward cover, especially for construction contracts - Restrictive approach to foreign currency loans
<p>INTEREST RATE CHANGES/ EVALUATION OF INTEREST RATE HEDGING</p> <ul style="list-style-type: none"> - Evaluation of interest rate developments 	<ul style="list-style-type: none"> - Significant fluctuation in earnings and change in equity ratio due to changing interest level (financing costs, evaluation of interest-rate hedges) 	<ul style="list-style-type: none"> - Mix of long-term fixed-rate and floating-rate loans - On-schedule use of derivatives (swaps/swaptions) - Continuous monitoring of interest rate forecasts

F. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS AS AT 31.12.2015

GENERAL NOTES

1. Information concerning the Company

CA Immobilien Anlagen Aktiengesellschaft and its subsidiaries (the "CA Immo Group") constitute an international real estate group. The parent company is CA Immobilien Anlagen Aktiengesellschaft ("CA Immo AG"), which has its head office at 1030 Vienna, Mechelgasse 1. CA Immo Group owns, develops and manages office, hotel, commercial, logistics and residential properties in Austria and Germany as well as in Eastern Europe. CA Immo AG is listed in the prime market segment of the Vienna Stock Exchange and is included in the ATX (Austrian Traded Index of leading companies).

2. Accounting principles

The consolidated financial statements of CA Immo AG were prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union and thereby fulfil the additional requirements of §245a par. 1 of the Austrian Commercial Code (UGB). The consolidated financial statements are based on the acquisition cost method, with the exception of investment properties (including properties under development), properties held for sale, available-for-sale financial assets, derivative financial instruments and provisions for cash-settled share-based payment plans, which are measured at fair value. The net item from pension obligations is presented as a provision, comprising the present value of the obligations less the fair value of the plan asset.

The consolidated financial statements are presented in thousand of Euros ("€ K"), rounded according to the commercial rounding method. The use of automatic data processing equipment may lead to rounding differences in the addition of rounded amounts and percentage rates.

3. Scope of consolidation

The consolidated financial statements comprise the ultimate parent company CA Immo AG and the companies listed in Annex I.

Acquisitions and disposals of companies

CA Immo Group acquired the EBRD stake in the E-Portfolio during 2015.

Company name/domicile	Purpose	Interest in %	Purchase price in € 1,000	Initial consolidation date
EBRD - E-Portfolio (previously 65%/75%)	Property- and Holdingcompanies	35/ 25	7,531	01.07.2015
SEG Kontorhaus Arnulfpark Beteiligungsgesellschaft mbH	Property company	99	3,130	31.12.2015
Total			10,661	

Following the acquisition of remaining stake from the former joint venture partner European Bank for Reconstruction and Development (EBRD) at the beginning of July 2015, CA Immo Group increased its share in the so called “E-Portfolio” from 65% respectively 75% to 100%. At the acquisition date the E-Portfolio consists of eight office properties (fair value of approximately € 486 m) as well as four land banks (fair value of approximately € 23 m) held via 32 property- and holding companies. The investment into the E-Portfolio was consolidated as joint venture due to the lack of control at equity at the date of acquisition. Since the acquisition, the E-Portfolio is fully consolidated. This transaction is an acquisition of assets and liabilities and not a business combination according to IFRS 3.

The purchase price for the E-Portfolio stake amounts to € 7,531 K and was paid in full. The acquisition of the E-Portfolio led to a revaluation of the before held investment of € 15,592 K that is presented in the result from joint ventures in the consolidated income statement

Net assets acquired are represented below (purchase price for 35%/25% amounting to € 7,531 K, as well as the investment in joint ventures held until now 65%/75% amounting to € 45,389 K, totalling € 52,920 K):

€ 1,000	Total
Properties	476,632
Office equipment	4,640
Intangible assets	11
Financial assets	2,266
Other assets	3,410
Cash and cash equivalents	26,080
Deferred taxes	2,741
Financial liabilities	-291,962
Provisions	-5,872
Other liabilities	-6,682
Receivables from/payables to affiliated companies	-158,344
Net assets acquired	52,920

At once with the acquisition of the remaining stake in the E-Portfolio CA Immo Group also acquired financings from EBRD provided to the acquired entities in the amount of € 53,462 K. The immediate revaluation after the acquisition of the investment properties - in the amount of the difference between acquisition costs and fair value of the investment properties at acquisition date - amounts to € 32,098 K.

For all newly founded companies equity in the amount of € 180 K was paid.

CA Immo Group disposed the following interests in entities in the business year 2015:

Company name/domicile	Interest held in %	Consolidation type	Sales price € 1,000	Deconsolidation date
2P s.r.o., Plzen	100	FC	2,092	31.5.2015
Hotel Operations Plzen Holding s.r.o., Plzen	100	FC	4	31.5.2015
Europort Airport Center a.s., Prague	100	FC	0	31.1.2015
Hotel Operations Europort s.r.o., Prague	100	FC	0	31.1.2015
Cerep Allermöhe GmbH, Frankfurt	100	FC	47,557	30.11.2015
CA Immo GB GmbH, Frankfurt	100	FC	2,563	30.11.2015

Total sales in joint ventures				
Total			60,051	

The sales prices were fully cashed in. The fully consolidated entities comprised the following net assets as of the date of the sale:

€ 1,000	Total
Properties	-148,585
Other assets	-4,603
Cash and cash equivalents	-1,093
Deferred taxes	8,635
Financial liabilities	93,764
Provisions	528
Other liabilities	8,236
Receivables from/payables to affiliated companies	5,269
Net change	-37,849
thereof proportional net assets sold	-37,849

Investments in unconsolidated structured entities

As at 31.12.2015 – as in the previous year – there are no investments in unconsolidated structured entities.

4. Summarized presentation of accounting methods

a) Changes in the accounting methods

With the exception of the following changes the applied presentation and accounting methods remain unchanged compared with the previous year.

During the preparation of segment reporting for 2015, following the implementation of a new consolidation software, two circumstances in the segment reporting for 2014 were identified, which led to an adjustment of the previous year's amounts. The following changes have been considered:

- In the segment Germany Development capitalized services amounting to € 6,256 K were not recognized and therefore not included in the segment's EBIT. This decreases the indirect expenses of the segment from € -21,745 K (according to the published financial statements for 2014) to € -15,489 K.
- In the segments Eastern Europe "core regions" and "other regions" group financings between these segments in the amount of € 42,919 K were erroneously already eliminated. Due to the adjustments the other assets in the segment Eastern Europe core regions (income producing) increase from € 236,698 K (according to published financial statements 2014) to € 279,617 K and the interest-bearing liabilities in the segment Eastern Europe other regions (Income producing) rise from € 164,789 K (according to the published financial statements for 2014) to € 207,708 K.
- The transition column (consolidation) has been adjusted accordingly.

In course of a check of the consolidated cash flow statement for 2014 classification and calculation errors were detected and the prior year figures were restated. The following table shows all restated line items:

€ 1,000	2014 (as reported)	Adjustment	2014 restated
Operating activities			
Taxes paid excl. taxes for the sale of long-term properties	-6,895	2,140	-4,755
Cash flow from operations	105,725	2,140	107,865
Receivables and other assets	-5,444	-5,108	-10,552
Other liabilities	-2,834	2,882	48
Cash flow from change in net current assets	-6,138	-2,226	-8,364
Cash flow from operating activities	99,587	-86	99,501
Investing activities			
Disposal of long-term properties and other assets	166,934	16,000	182,934
Disposal of investment property companies, less cash and cash equivalents of € 868 K	6,698	-5,000	1,698
Taxes refunded/paid relating to the sale of long-term properties and loans granted	-1,326	-2,140	-3,466
Cash flow from investing activities	-193,060	8,860	-184,200
Financing activities			
Cash inflow from loans received	207,336	-13,851	193,485
Repayment of loans incl. interest rate derivatives	-462,146	5,077	-457,069
Cash flow from financing activities	-354,188	-8,774	-362,962

b) Consolidation methods

All companies under the control of the parent company are fully consolidated in the consolidated financial statements. A company is initially consolidated as of the time control is transferred to the parent. Companies are deconsolidated when control ceases. All intra-group transactions between companies included in the scope of full consolidation, the related revenues and expenses, receivables and payables, as well as unrealised intra-group profits, are fully eliminated. Profit and loss amounts resulting from “upstream” and “downstream” transactions with joint ventures or associated companies are eliminated in accordance with the share of CA Immo Group in these companies.

CA Immo Group determines at the time of acquisition of companies (legal entities) whether the acquisition is a business or a group of assets and liabilities. The following indicators are used for the assessment of business units:

- The acquired entity comprises a number of properties
- The acquired entity conducts major processes, apart from owning and letting properties
- The entity has own employees carrying out major processes

If the acquired company (legal entity) is not a business, the acquisition is not a business combination according to IFRS 3. Correspondingly, the acquisition is only an acquisition of assets and liabilities, which are recognised with their proportional acquisition cost. The acquisition cost is allocated to the acquired assets (especially properties) and liabilities as well as the non-controlling interests, based on their relative fair value at the date of acquisition of the subsidiary.

If a business is acquired, the acquisition is classified as a business combination according to IFRS 3. The subsidiary is consolidated for the first time using the acquisition method, by recognising its identifiable assets and liabilities at fair value as well as goodwill and non-controlling interests, if applicable. The goodwill represents any amount by which the fair value of the transferred amount (usually the purchase price for the acquired business) and (if applicable) for the non-controlling interest, exceeds the fair value of the identifiable assets and liabilities, including any deferred taxes.

Non-controlling interests are initially recognized proportionally at the fair value of the identifiable net assets of the acquired entity and subsequently measured according to the changes in shareholders' equity attributable to the non-controlling interests. Total comprehensive income is attributed to the non-controlling interests even if this results in a negative balance of non-controlling interests. According to the classification of capital interest as shareholders' equity or liabilities, the non-controlling interests are recognized within shareholders' equity respectively as other liabilities.

Acquisitions or sales of shares in a subsidiary that do not result in an establishment or loss of control, are accounted for as equity transactions. The book values of the controlling and non-controlling interests are adjusted to reflect the changes in the respective interests in the subsidiary. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the shareholders of the parent company.

Joint ventures

CA Immo Group enters into joint ventures with one or more partner companies in the course of establishing property rental or project development partnerships, whereby joint management of these ventures is established by contract. Interests in jointly managed companies are accounted for according to the equity method in the consolidated financial statements of CA Immo Group (AEJV – at equity joint ventures).

Associated companies

An associated company is an entity under significant influence of the Group that is neither a subsidiary nor an interest in a joint venture. The results, assets and liabilities of associated companies are included in the financial statements using the equity method of accounting (AEA – at equity associates).

Equity method

According to the equity method, investments in joint ventures and associates are initially recognised at the date of acquisition in the consolidated statement of financial position at cost, including directly attributable ancillary costs. The subsequent measurement is affected by any increase/ decrease of this value, based on the Group's share in the period profit or loss and the other comprehensive income (corrected by interim gains and losses resulting from transactions with the Group), dividends, contributions and other changes in the equity of the associated company, as well as by impairment.

Once the book value of the interests in an associated company has decreased to zero and possible long term loans to the associated companies are impaired to zero as well, additional losses are recognised as a liability only to the extent that CA Immo Group has incurred a legal or effective obligation to make further payments to the associated company.

c) Foreign currency translation

Transactions in foreign currencies

The individual Group companies record foreign currency transactions at the exchange rate prevailing at the date of the relevant transaction. Monetary assets and liabilities in foreign currency existing at the reporting date are translated into the particular functional currency at the exchange rate prevailing at that date. Any resulting foreign currency gains or losses are recognised in the income statement of the relevant business year.

The currency translation of business transactions is based on the following exchange rates:

	Bid	Ask	Bid	Ask
	31.12.2015	31.12.2015	31.12.2014	31.12.2014
CHF	1.0675	1.0751	1.1936	1.2064
USD	1.0768	1.0848	1.2111	1.2211

Translation of subsidiaries' individual financial statements denominated in foreign currencies

Group reporting currency is the Euro (EUR). Since the Euro is generally also the functional currency of those companies included in the consolidated financial statements that are domiciled outside the European Monetary Union in Eastern Europe, the financial statements prepared in a foreign currency are translated in accordance with the temporal method. Under this method, investment properties (including properties under development) as well as monetary assets and liabilities are translated at closing rates, whereas own used properties as well as other non-monetary assets are translated at historical exchange rates. Items of the income statement are translated at the average exchange rates of the relevant reporting period. Gains or losses resulting from the currency translation are recognised in the income statement.

The functional currency of the subsidiaries in Ukraine, of management companies in Eastern Europe and of hotel operating companies in the Czech Republic is the respective local currency in each case. The amounts in the statements of financial position are translated at the exchange rates at the reporting date. Only shareholders' equity is translated at historical rates. Items of the income statement are translated at the average exchange rates of the relevant reporting period. Gains and losses arising from the application of the closing rate method are recognised in other comprehensive income.

Individual financial statements were translated on the basis of the following rates of exchange:

		Closing rate 31.12.2015	Closing rate 31.12.2014	Average exchange rate 2015	Average exchange rate 2014
Bulgaria	BGN	1.9558	1.9558	1.9558	1.9558
Croatia	HRK	7.6352	7.6615	7.6186	7.6325
Poland	PLN	4.2615	4.2623	4.1810	4.1893
Romania	RON	4.5245	4.4821	4.4422	4.4378
Russia	RUB	80.6736	69.1315	68.7681	51.6654
Serbia	RSD	121.6261	120.9583	120.7636	117.3674
Czech Republic	CZK	27.0250	27.7250	27.2688	27.5500
Ukraine	UAH	26.2231	19.2329	24.4147	16.0213
Hungary	HUF	313.1200	314.8900	309.3217	309.6975

d) Properties

Classification

The item “investment properties” consists of investment properties and properties under development that are held neither for own use nor for sale in the ordinary course of business, but to generate rental income and to appreciate in value.

Properties under development are reclassified to investment properties upon completion of the main construction services. Properties are recognised as held for trading if the property concerned is intended for sale in the ordinary course of business or is under construction for subsequent sale in the ordinary course of business.

Hotel operations as well as investment properties used for administration purposes are presented under the line “hotels and other own used properties”.

Some properties are of mixed-use – they are used both to generate rental income and appreciation in value as well as partially for hotel operations and management functions. If these respective portions can be sold separately, CA Immo Group recognises them separately. If the portions cannot be separated, the entire property is only classified as an investment property if the own used part occupies less than 5.0% of the total useful area. Otherwise, the entire property is classified as own used.

Valuation

Investment properties are measured according to the fair value model. Changes in the current book value before revaluation (fair value of previous year plus subsequent/ additional acquisition or production cost less subsequent acquisition cost reductions as well as the impact from the deferral of rent incentives) are recognised in the income statement under “result from revaluation”.

Properties held for trading are measured at the lower of acquisition or production cost and net realisable value as of the relevant reporting date.

Own used properties and office furniture, equipment and other assets are measured in accordance with the cost method, i.e. acquisition or production cost or fair value at the date of reclassification less regular depreciation and impairment losses.

Investment grants are accounted for as deduction of production costs.

Office furniture, equipment and other assets are depreciated on a straight-line basis over their estimated useful life, which generally ranges from 3 to 15 years. The estimated useful life of the own used properties, applying the principle that each part of an item with a significant cost shall be depreciated separately, is 70 to 75 years for the structural work, 15 to 70 years for the facade, 20 years for the building equipment and appliances, 15 to 20 years for the roof, and 10 to 20 years for the tenant's finishing works.

Borrowing costs arising during property construction are allocated to the production costs if they are directly attributable to a qualifying asset. A qualifying asset is an asset that takes a substantial period of time to be ready for its intended use or sale. In cases in which debt is not directly attributable to an individual qualifying asset, the proportional amount of the total finance costs is allocated to the qualifying asset. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Determination of fair value

Around 99.8% (31.12.2014: 97.7%) of the properties in Austria, about 95.6% (31.12.2014: 97.9%) of the properties in Germany, and about 90.6 % (31.12.2014: 87.7%) of the properties in Eastern Europe were subject to an external valuation as of the reporting date 31.12.2015. The values of the other properties were determined internally on the basis of the previous year's valuations or binding purchase agreements.

The external valuations are made in accordance with the standards defined by the Royal Institution of Chartered Surveyors (RICS). The RICS defines the market value as the estimated amount for which an asset or liability could be exchanged on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion.

The valuation method applied by the expert for each property particularly depends on the property's stage of development and its type of use.

Rented commercial properties, which constitute the largest portion of CA Immo Group's portfolio, are valued mainly by the investment method. Under this method, the market values are based on capitalised future expected rental revenues. Besides the current contractual rents and lease expiration profile, the appraiser establishes and considers further parameters on the basis of professional judgment and estimates, including in particular the achievable market rent for an individual property as well as property specific, risk adjusted yields.

For properties under development and construction, the residual method is applied. Under this method, the market value is based on the estimated market value upon completion, less expected outstanding expenses and after applying a reasonable developer profit in the range of 3% to 25% of the market value upon completion (31.12.2014: 2% to 15%). Developer profit for properties under development, which are nearly completed, ranges at the bottom of the margin according to their reduced risk. Among possible potential risks that are considered are, the estimated future rents and initial yields in the range from 3.6 % to 10% and financing interest rates in the range from 3.7% to 7.5%. The rates vary in particular depending on the general market climate, location and type of use. The nearer a project is to completion, the greater the portion of parameters that are based on actual or contractually fixed amounts. After completion or immediately before completion, the properties are valued by applying the investment method (see above), adjusted for outstanding work.

The following table shows the essential input factors for the valuation of investment property and property under development:

Classification investment properties Valuation technique investment method	Fair value 31.12.2015 € 1,000	Fair value 31.12.2014 € 1,000	Inputs	Range 2015	Range 2014

The contractual sales price is used as input factor for assets held for sale.

Land banks which are not currently under development or which are not expected to be developed in the near future, are valued depending on the property and the stage of development through comparable transactions or by the liquidation or residual value method.

Classification investment properties under development	Fair value 31.12.2015	Fair value 31.12.2014	Inputs	Range 2015	Range 2014
Landbank Germany	326,770	327,305	Valuation approach / m ² plot area	3.48 – 14,611.59	3.48 – 13,378.55
Landbank Eastern Europe	26,119	10,817	Valuation approach / m ² plot area	4.2 – 947.42	5.10 – 292.75
Landbank total	352,889	338,122			

The fair value for rented properties, properties under development as well as land banks corresponds to level 3 of the fair value hierarchy according to IFRS 13.

Interdependencies between the input factors

The essential input factors that determine the fair values for investment property are the actual rents and market rents as well as the interest rates (yields). Increasing rents (e.g. a short supply and increased demand) would cause increasing fair values. Vice versa, the fair value decreases when the rents are decreasing.

Increasing yields (e.g. the market expects increasing interest rates at increasing risks – excessive supply, regional risks, etc.) would cause decreasing fair values. Vice versa, the fair value would increase if the yield decreases (e.g. higher demand for this type of investment property).

Both input factors act reinforcing – as well in a positive or negative way – when they appear jointly. This means that a strengthened demand for rental space as well as a simultaneously strengthened demand for such investment property would cause an even greater increase of the fair value. Vice versa, a decrease in the demand for rental space as well as a decreased market demand for investment property would cause an even heavier decrease of the fair value.

For properties under development, construction costs are another essential input factor. The market value of properties is mainly determined by the expected rental income and the yield. It is in this area of conflict that new development projects are planned and calculated. Given that the calculated construction costs, which are a major influencing factor in development, could change during the development phase because of both market related factors (e.g. shortage of resources on the markets or oversupply) and planning-related factors (e.g. necessary additional changes, unforeseeable problems, subsequent savings, etc.), they have a significant influence on profitability. These additional opportunities/ risks are given appropriate consideration in a developer's profit (risk/profit) based on the total construction costs.

Valuation Process

For the major part of the real estate portfolio, every fiscal year end CA Immo Group commissions independent, external real estate experts to issue a market valuation and provides the appraisers with all the necessary documents. After clarification of any queries the experts create drafts valuation. These drafts are checked for credibility and integrity and finally approved for issuance.

The selection of the independent, external real estate experts for CA Immo Group is based, on the one hand on professional qualification, which is measured by national and international standards, such as HypZert or RICS, and on the other hand by giving consideration to local market presence and penetration. If market conditions allow, the selected real estate experts are ones that do not act as an agent in any leasing or investment business.

e) Intangible assets

The goodwill represents the amount by which the fair value of the transferred amount (usually the purchase price for the acquired business) and (if applicable) for the non-controlling interest, exceeds the fair value of the identifiable assets and liabilities, including any deferred taxes. Mainly, it represents the benefit resulting from the fact that the acquired deferred tax liabilities will become due only in a future period. Goodwill is not amortised, but is tested for impairment at each period end.

A possible impairment is directly connected to the change of the fair value of the property or to taxation changes in the country of the cash generating unit. Essentially, parameters determined by the appraisers within the scope of the external property valuation are used for the impairment test.

Other intangible assets mainly comprise software and are recognised at acquisition cost less straight-line amortisation and impairment losses. Software is amortised over a useful life of 3 to 5 years.

f) Impairment losses

If an indication exists that a long term non-financial asset (own used properties, office furniture, equipment and other assets as well as intangible assets) might be impaired, CA Immo Group performs an impairment test. CA Immo calculates the recoverable amount for the asset or smallest identifiable group of assets.

The recoverable amount is the higher of the fair value less the cost to sell (net realisable value) and the value in use of the corresponding asset (or group of assets). The value in use is the present value of the expected future cash flows that are likely to be generated by the continued use of an asset (or group of assets) and its retirement at the end of its useful life.

If this recoverable amount is lower than the carrying value of the asset (or group of assets), the asset is written down to the lower value. These write-offs are reported in the consolidated income statement under “depreciation and impairment/reversal”.

If, at a later date the impairment ceases to exist (except for goodwill), the impairment loss is reversed to profit or loss up to the carrying amount of the amortised original acquisition or production cost.

Goodwill is tested for impairment at each balance sheet date, with individual properties representing the cash generating units. Due to the specific nature of the recognised goodwill, the recoverable amount for the cash generating unit cannot be determined without taking into account the expected tax charge. Hence, the book value of the cash generating unit includes, in addition to the allocated goodwill, the directly attributable deferred taxes of the single properties. The recoverable amount is determined on the basis of fair value. The fair value of a property is mainly determined on the basis of external valuation reports. The present value of the income tax payments is determined considering after-tax yield (which represents the yield of the property after tax effects of the relevant country) on the expected income tax payments.

The impairment test assumes, based on experience, an average retention period for properties held by CA Immo Group of 3 to 17 years for investment properties. Due to the assumption of the retention period decreasing each year and thus of a reduced discounting period each year, further impairment losses of the goodwill corresponding to the reduction in the present value benefit are expected in future periods.

The following sensitivity analysis shows the impact in goodwill impairment of changes in significant parameters for the impairment test.

Goodwill impairment in € K				
Change in yield (in % of initial yield)	+5%	+5%	+10%	+10%
Change in market rent	- 5%	- 10%	- 5%	- 10%
Impact on the profit and loss statement	- 419.4	- 754.6	- 762.1	- 1,377.2

g) Financial assets and liabilities (FI - financial instruments)

Interests in companies (Available for sale investments) and securities

Interests in companies which are not consolidated due to lack of control, and which are neither significantly influenced by the Group are assigned to the category “available for sale” (AFS – available for sale). The valuation of the purchased stake is made at fair value. Subsequent changes in value – as long as there are no impairments – are presented in other comprehensive income and reclassified in profit and loss upon the sale of the investment. If a listed price on an active market is not available, the fair value will be updated based on internal valuation, which is mostly based on external professional opinion regarding investment property.

Securities are primary financial instruments that are quoted on an active market and available for sale. They are classified as “available for sale” (AFS-available for sale). The initial recognition is at fair value including any transaction costs and the subsequent valuation is at fair value (stock market quotation).

In case of impairments of available-for-sale financial assets, the difference between acquisition costs and the lower fair value is recognized in profit or loss. Changes in value previously recognized in equity, are transferred from equity to profit or loss. A subsequent appreciation in value is shown in the other comprehensive income. CA Immo Group recognizes securities at the conclusion of the transaction agreement.

Loans

Loans granted by the company are assigned to the category “loans and receivables” (L&R). They are measured at fair value upon recognition, and subsequently at amortised cost, applying the effective interest-rate method and taking into account any impairment.

Receivables and other financial assets

Trade receivables from the provision of services, other receivables and other financial assets are primary financial instruments that are not listed on active markets and not intended for sale. They are assigned to the measurement category “loans and receivables” (L&R). They are initially measured at fair value, and thereafter at amortised cost, applying the effective interest-rate method and less impairment losses.

An impairment loss on receivables is calculated based on the status of the dunning procedure, the past due date, and the individual credit rating of the relevant debtor, taking into account any security received and is recognised when there is objective indication that the receivables cannot be collected in full. Uncollectible receivables are derecognised. Subsequent payments in respect of receivables for which impairment losses have been incurred, are recognised in the consolidated income statement.

Receivables from the sale of properties having a maturity of more than one year are recognised as non-current receivables at their present values as of the respective reporting date.

Cash and cash equivalents

Cash and cash equivalents include cash, deposits in banks, as well as fixed-term deposits with an original term of up to three months. This item also includes cash in banks subject to drawing restrictions for a period of less than 3 months which is used for securing outstanding loans (principal and interests) as well as current investments in development projects. Cash in banks subject to drawing restrictions up to 12 months is presented in caption “receivables and other assets”. Restricted cash with a longer lock-up period (over 12 months), is presented under financial assets.

Interest-bearing liabilities

Interest-bearing liabilities are assigned to the category “financial liabilities at amortised cost” (FLAC) and recognised upon disbursement at the amount actually received less transaction costs. Any difference between the amount received and the repayment amount is allocated over the term of the financing according to the effective interest-rate method and is recognised in financing costs or, if the conditions set forth in IAS 23 are met, capitalised as part of the construction cost.

Other liabilities

Other financial liabilities, such as trade payables, are assigned to the category “financial liabilities at amortised cost” (FLAC) and measured upon recognition at fair value and subsequently at amortised acquisition cost.

For other current liabilities, the fair value generally corresponds to the estimated sum of all future payments.

Other non-current liabilities are measured at fair value on initial recognition and are compounded with a timely and risk adequate market rate.

Derivative financial instruments

CA Immo Group recognizes derivative financial instruments upon the conclusion of the transaction agreement.

CA Immo Group uses derivative financial instruments, such as interest rate caps, floors, swaps, swaptions and forward exchange transactions, in order to hedge against interest and currency risks. These derivative financial instruments are recognised at fair value at the time the contract is concluded and remeasured at fair value in the following periods. Derivative financial instruments are recognised as financial assets if their value is positive and as financial liabilities if their fair value is negative.

Derivative financial instruments are presented in non-current financial assets or liabilities if their remaining term exceeds twelve months and realisation within twelve months is not expected. All other derivative financial instruments, whose remaining term is below twelve months, are presented in current assets or liabilities.

The method applied by CA Immo Group when recognising gains and losses from derivative financial instruments depends on whether or not the criteria for cash-flow hedge accounting (hedging of future cash flows) are met. CA Immo Group exclusively pursues a micro-hedging strategy, whereby the hedging instrument is directly assigned to an individual underlying transaction (loan agreement).

In case the derivative financial instruments fulfil the criteria for cash flow hedge accounting (CFH – Cash flow hedge), the effective portion of the change in fair value is recognised in other comprehensive income, not in profit and loss. The ineffective portion is immediately recognised as an expense in the item “Result from interest rate derivative transactions”. The gains or losses from the measurement of the cash flow hedges recognised in other comprehensive income are reclassified into profit or loss in the period in which the underlying transaction becomes effective, or the expected cash flows are no longer expected to occur. The effectiveness of the hedging relationship between the hedging instrument and the underlying transaction is assessed and documented at the inception of the hedge and subsequently reassessed on an ongoing basis.

Derivative financial instruments no longer qualifying for cash flow hedge accounting, such as interest rate caps, floors and swaps without a concurrent loan agreement, are referred to as “fair value derivatives”, to clearly distinguish these instruments from cash flow hedges. These are, for example, interest rate swaps, without a concurrent credit loan agreement as well as swaptions, interest caps and interest floors. Pursuant to IAS 39, derivatives not qualifying for hedge accounting are assigned to the category “held for trading” (HFT). Changes in the fair value are therefore recognised entirely in profit or loss in the item “Result from interest derivative transactions”.

The fair values of interest rate swaps, swaptions, caps and floors are calculated by discounting the future cash flows from variable payments on the basis of generally accepted financial models. The interest rates for the discount of the future cash flows are estimated on basis of an interest rate curve which is observable on the market. For the calculation inter-bank middle rates are used.

h) Services and construction contracts

The recognition of revenues from services and construction contracts (e.g. project management engineering, interior work, site development, decontamination, building construction) is made in accordance with the “percentage of completion” method. The contract revenues are recognised based on the proportion of costs incurred to date and total contract costs (cost-to-cost method) and presented as receivables and revenues. An expected loss from a contract is immediately recognised as an expense.

i) Other non-financial instruments (Non-FI – non financial instrument)

Other non-financial assets mainly consist of prepayments made on investment properties, receivables from fiscal authorities and prepaid expenses. They are measured at cost less any impairment losses.

Other non-financial liabilities refer to liabilities to fiscal authorities, short-term rent prepayments and advance payments. They are recognized at the date of acquisition at the amount corresponding to the expected outflow of resources and the cost of acquisition. Changes in value arising from updated information are recognised in profit or loss.

j) Assets held for sale and disposal groups

Non-current assets and disposal groups are classified as held for sale if the relevant book value is expected to be realised from a disposal and not from continued use. This is the case when the relevant non-current assets and disposal groups are available for immediate sale in their current condition and a disposal is highly probable. Furthermore, the sale must be expected to be completed within one year of the classification as held for sale. Disposal groups consist of assets that are to be sold together in a single transaction and the associated liabilities that are to be transferred in the course of this transaction.

Non-current assets and disposal groups that are classified as held for sale are generally recognised at the lower of book and fair value less costs to sell. Investment properties, which are still measured according to the fair value model, are exempted from this rule and interest bearing liabilities that are still measured at amortised cost as well as deferred taxes according to IAS 12.

k) Payment obligations to employees

Variable remuneration

As a part of their variable remuneration components, Management Board members and managerial staff of the company are invited to participate in a long term incentive scheme (LTI) since business year 2010. LTI is a revolving programme with a term (vesting period) of three years per tranche; it presupposes a personal investment limited to 50% of the fixed annual salary for Management Board members, respectively 35% of the basic salary for managerial staff. The investment is evaluated at the closing rate on 31 December, with the number of associated shares determined on the basis of this evaluation. At the end of each three-year performance period, a target/actual comparison is applied to define target attainment. The LTI programme takes account of value creation at CA Immo over the medium to long term. The critical factor is the value generated within the Group in terms of NAV growth, ICR (interest coverage ratio, to 2013) and TSR (total shareholder return) and, from 2014, growth of FFO (funds from operations). The weighting for NAV growth and the ICR (and FFO growth from 2014) is 30%, and 40% for the TSR. Payments are made in cash. Within the remuneration system for the Management Board, the LTI programme was dissolved in 2015 and replaced by bonus payments based on phantom shares. The LTI programme remains effective for managerial staff.

Starting in 2015, performance-related payments to the Management Board were restricted to 200% of the gross annual salary. The bonus payment is linked to long-term operational and quality-based targets and also takes account of non-financial performance criteria. Of the variable remuneration, 50% is linked to the attainment of short-term targets defined annually (annual bonus); the other half of the performance-related components depends on the exceeding of annually defined indicators such as return on equity (ROE), funds from operations (FFO) and NAV growth. The level of the bonus actually paid depends on the degree of target attainment: the values agreed and actually achieved at the end of each business year are compared and confirmed by the Supervisory Board. Half of performance-related remuneration takes the form of immediate payments (short term incentive); the remaining 50% is converted into phantom shares on the basis of the average rate for the last quarter of the business year relevant to target attainment. The payment of phantom shares is made in cash in three parts after 12 months, 24 months (mid term incentive) and 36 months (long term incentive) at the average rate for the last quarter of the payment year.

For this kind of share-based remuneration, which is settled in cash, the liability incurred is recognised as a provision in the amount of the attributable fair value. Until the debt is settled, the attributable fair value is determined afresh on every closing date and settlement date. All changes are recognised in the income statement in the relevant business year.

Defined benefit plans upon termination of employment

Obligations arising from defined benefit pension plans exist for four persons in the CA Immo Germany Group. The commitments relate to three pension benefits for already retired managing directors, as well as one ongoing pension benefit. In accordance with IAS 19.63, reinsurance contracts in respect of defined benefit pension obligations are presented as a net debt (asset).

Each year, external actuarial calculations are obtained for the defined benefit pension obligations. The defined benefit obligation or liability is calculated according to IAS 19 using the projected unit credit method and based on the following parameters:

	31.12.2015	31.12.2014
Interest rate	2.01%	1.56%
Salary increases expected in the future	2.0%	2.0%
Accumulation period	25 years	25 years
Expected income from plan asset	2.01%	1.56%

The actual return on plan assets for 2015 is 1.56% (31.12.2014: 2.82 %).

Service cost and interest expense related to the obligation as well as the interest income related to the plan assets are recognised in the year in which they arise. Actuarial gains and losses less deferred taxes related to the obligation and the plan assets are recognized in the other comprehensive income.

CA Immo Group has the legal obligation to make a one-time severance payment to staff employed in Austria before 1.1.2003 in the event of dismissal or retirement. The amount of this payment depends on the number of years of service and the relevant salary at the time the settlement is payable. It varies between two and twelve monthly salary payments. According to IAS 19, a provision is recognised for this defined benefit obligation. The interest rate used for the computation of this provision amounts to 0.49% (2014: 1.56%).

Defined contribution plans

CA Immo Group has the legal obligation to pay 1.53% of the monthly salary of all staff joining companies in Austria after 31.12.2002 into a staff pension fund. No further obligations exist. The payments are considered as staff expenses and included in indirect expenses.

Based on agreements with three different pension funds in Austria and a benevolent fund for small and medium-sized enterprises in Germany, a defined contribution pension commitment exists for employees in Austria and Germany after a certain number of years of service (Austria: 1 or 3 years, irrespective of age; Germany: immediately upon reaching the age of 27). The contribution is calculated as a percentage of the relevant monthly gross salary, namely 2.5% or 2.7% in Austria, and 2.0% in Germany. The contributions paid vest after a certain period (Austria: 5 or 7 years; Germany: 3 years) and are paid out as monthly pension upon retirement.

l) Provisions and contingent liabilities

Provisions are recognised if CA Immo Group has a legal or constructive obligation towards a third party as a result of a past event and the obligation is likely to lead to an outflow of funds. Such provisions are recognised in the amount representing the best possible estimate at the time the consolidated financial statements are prepared. If the present value of the provision determined on the basis of prevailing market interest rates differs substantially from the nominal value, the present value of the obligation is recognised.

If the amount of an obligation cannot be estimated reliably, the outflow of funds from the obligation is not likely, or the occurrence of the obligation depends on future events it represents a contingent liability. In such cases, a provision is not recognised and an explanation of the facts is disclosed in the notes.

m) Taxes

The income tax expense reported for the business year contains the income tax on the taxable income (current and for other periods) of the individual subsidiaries calculated at the tax rate applicable in the relevant country ("current tax"), and the change in deferred taxes recognised in profit and loss ("deferred tax"), as well as the tax effect arising from amounts recognised in equity. Changes in deferred taxes resulting from foreign currency translation are included in deferred income tax expense.

In line with IAS 12, the calculation of deferred taxes is based on all temporary differences between the tax base of assets or liabilities and their book values in the consolidated statement of financial position. Deferred tax assets on tax losses carried forward are recognised taking into account the fact whether they can be carried forward indefinitely or only up to a certain time as well as the extent of their expected use in the future. The amount of the deferred tax asset recognised is determined based on projections for the next 3 to 5 years which show the expected use of the tax losses carried forward in the near future and on the existence of sufficient taxable temporary differences, mainly resulting from investment property.

The deferred taxes are calculated based on the following tax rates:

Country	Tax rate		Country	Tax rate	
	2015	2014		2015	2014
Bulgaria	10.0%	10.0%	Russia	20.0%	20.0%
Germany	15.8% to 31.9%	15.8% to 31.9%	Serbia	15.0%	15.0%
Croatia	20.0%	20.0%	Slovakia	22.0%	22.0%
Luxembourg	-	29.2%	Slovenia	17.0%	17.0%
Netherlands	20.0% / 25.0%	20.0% / 25.0%	Czech Republic	19.0%	19.0%
Austria	25.0%	25.0%	Ukraine	18.0%	16.0%
Poland	19.0%	19.0%	Hungary	10.0% / 19.0%	10.0% / 19.0%
Romania	16.0%	16.0%	Cyprus	12.5%	12.5%

A group and tax compensation agreement was concluded in Austria for the formation of a tax group as defined by Section 9 of the Austrian Personal Income Tax and Corporate Income Tax Act (KStG) for selected companies of CA Immo Group. The head of the group is CA Immobilien Anlagen Aktiengesellschaft, Vienna. All Austrian entities of Europolis Group are included in this tax group.

For certain entities within the CA Immo Germany Group a tax group has been established in accordance with German income tax legislation. The head of the tax group is CA Immo Deutschland GmbH, Frankfurt. Based on profit and loss transfer agreements the members of the tax group are required to transfer their entire profit to the head of the group (being the annual surplus before the profit transfer, less any loss carried forward from the previous year and after recognition or release of reserves). The head of the group has an obligation to balance any annual deficit arising in a group entity during the term of the agreement to the extent that such deficits exceed the amounts which can be released from other reserves that have been allocated out of profits earned during the term of the agreement.

n) Leases

CA Immo Group determines whether an arrangement contains a lease based on the economic substance of the arrangement and evaluates whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and whether the arrangement contains a right to use the asset, even if such right is not explicitly stated in the agreement.

According to IAS 17 the allocation of a leased asset to the lessor or lessee is based on the criterion of accountability of all significant risks and rewards associated with ownership of the leased asset. The characteristics of the CA Immo Group as lessor of investment properties corresponds to an operating lease because the economic ownership remains with CA Immo for the rented properties and thus the significant risks and rewards are not transferred.

o) Operating segments

The segments were identified on the basis of the information regularly used by the company's principal decision makers when deciding on the allocation of resources and assessing profitability. The principal decision-making body of CA Immo Group is the Management Board. It controls the individual properties that are aggregated into reportable business segments by regions, and within the regions by income producing property and property under development.

The properties are allocated to the reporting segments according to location/region, their category and the main activities of the management/holding companies. Items that cannot be directly attributed to a property or segment management structure are disclosed in the column "Holding". The presentation corresponds to CA Immo Group's internal reporting system. The following segments have been identified:

- Income producing properties: Investment properties rented, own used properties and investment properties pursuant to IFRS 5

- Development: Properties under development and land banks, completed development properties (investment properties) until the second annual reporting date after completion (depending on the tenancy rate or beginning of the sales process), development services for third parties, properties under development pursuant to IFRS 5, and properties held for trading
- Holding: general management and financing activities of CA Immo Group

The reporting Eastern Europe core regions segment comprises the Czech Republic, Slovakia, Hungary, Poland and Romania. The reporting Eastern Europe other regions segment consists of Bulgaria, Croatia, Serbia, Slovenia as well as Ukraine. Joint ventures are included with 100% of the assets and liabilities as well as revenues and expenses of the entities in the segment, irrespective of the method of consolidation into the financial statements. Adjustments in accordance with the consolidation method in CA Immo Group are shown in the column Consolidation.

p) Revenue recognition

Rental revenues

Rental revenues are recognised on a straight-line basis over the term of the lease unless a different recognition method is more appropriate. Lease incentive agreements, such as rent-free periods, reduced rents for a certain period or one-off payments are included in rental income. Therefore, the lease incentives are allocated on a straight-line basis over the entire expected contractual lease term accordingly. In the case of leases with constant rent adjustment over the term (graduated rents), such adjustments are likewise recognised on a straight-line basis over the term of the lease. Any adjustments attributable to inflation, in contrast, are not spread over the underlying term of the lease. The term of a lease over which rental income is allocated on a straight-line basis comprises the non-terminable period as well as any further periods for which the tenant can exercise an option, with or without making additional payments, provided that the exercise of the option is estimated as being probable at the inception of the lease.

Conditional rental income, such as any amounts that are conditional on the revenues generated in the business premises, are recognised in profit or loss in the period in which they are assessed.

Rental income is measured at the fair value of the consideration received or outstanding, less any directly related reductions.

Payments received from tenants for the early termination of a lease and payments for damage to rented premises are recognised as rental income in the period in which they are incurred.

Service charge income

Operating costs incurred by CA Immo Group for properties rented to third parties, which are charged to tenants, are presented in the consolidated income statement in "Operating costs charged to tenants".

Revenues from hotel operations and service contracts

Income from hotel operations and service contracts is recognised to the extent that services have been rendered as of the reporting date.

Revenues from the sale of investment properties

Income from the sale of properties is recognised when

- all material economic risks and rewards associated with ownership have passed to the buyer,
- CA Immo Group does not retain any rights of disposal or effective power of disposition in respect of the object sold,
- the amount of the revenues and the expenses incurred or to be incurred in connection with the sale can be reliably determined, and
- it is sufficiently probable that the economic benefit from the sale will flow to CA Immo Group.

Non-current earnings received in advance are measured at par value and subsequently with a reasonable market interest rate reflecting maturity and risk. The accrued interest is recognised in the consolidated income statement in the financial result.

Income from the sale of properties under construction is assessed according to IFRIC 15 in order to establish whether IAS 11 (construction contracts) or IAS 18 (revenue recognition) applies and thus to determine when income from the sale during the construction period shall be recognised. Requirement for the recognition of a disposal is that CA Immo Group has no more effective power to dispose in respect of the constructed property.

Revenues from construction contracts

If a contract for the construction of a property is recognised as a construction contract, which means that the sponsor can exercise significant influence on the construction of the property, related income is recognised – in compliance with IAS 11 – by reference to the stage of completion of the contract activity at the end of the reporting period. The stage of completion is determined according to the ratio of contract costs incurred for work performed as of the reporting date to the estimated total contract costs.

Given there is no customized project planning which means that the purchaser has only limited options to influence the specification of the property, it is an agreement for the sale of goods and the revenue is recognized according to the forenamed criteria for the sale of real estate properties. For the purpose of revenue recognition in accordance with IAS 18, contracts are separated into their individual components if materially different services are combined into a single arrangement. Such a multi-component transaction is assumed to exist when a contract contains several complementary but different elements, such as a service provided alongside a sale of an investment property. In such cases, revenue is recognised separately for each of these different elements. The purchase price of the property is recognised according to the revenue recognition criteria applicable to sales. Service revenue is recognised in accordance with the stage of completion. The following have been identified as material components of investment properties: procurement of planning permission, site development, surface construction and interior works. The allocation of the total revenues to the individual components is done by residual value method. The fair value of the components already delivered is obtained by deducting the fair value of the components not yet delivered.

q) Result from the sale of investment properties

In accordance with IAS 40, investment properties are measured as of each quarterly reporting date and, as a general rule, changes in fair values are recognised in profit and loss, as result from revaluation (revaluation gain/loss). When property assets are sold, the valuation gain/loss realised during the current business year to date is reclassified to the result from the sale of investment properties together with the other gain/loss on disposal. Likewise, any goodwill that has been allocated to a sold property is recognised as part of the book value of the sold property within the result from the sale of investment properties.

r) Indirect expenses

CA Immo Group capitalizes indirect expenses (mainly personnel expenses) to the extent that they can be attributed to the construction cost of properties under development and properties held for trading. These internally-produced capitalised expenses and capitalised changes in work-in-progress respectively are reported as correction of the indirect expenses.

s) Financial result

Finance costs comprise interest payable for external financing, interest recognised by the effective interest-rate method (if not required to be capitalised according to IAS 23), interest for committed external funds not yet received, current interest on hedging transactions, the interest costs arising from the calculation of retirement benefits, the net result attributable to non-controlling interests in limited partnerships and expenses similar to interest. Interest is deferred over time by the effective interest-rate method. The net result of non-controlling interests in limited partnerships contains the pro rata net income of non-controlling partners of limited partnerships in Germany, whose capital contribution, updated with the profit share, is recognised as debt in the statement of financial position under other liabilities.

Other financial result comprises the result from the repurchase of own interest-bearing liabilities (e.g. loans, bonds) if the purchase price was below the book value. When convertible bonds are repurchased, a portion of the result is recognised directly in equity as capital reserves.

Foreign currency gains and losses mainly relate to the result of exchange rate differences in connection with financing and investment transactions, as well as the changes in value and the result from the realisation of forward exchange transactions.

The result from derivative transactions consists of gains and losses from the sale or measurement of interest rate swaps, caps, floors and the swaption unless they are recognised in other comprehensive income as cash flow hedges. The ineffective portion of the cash flow hedge relationships is also recognised in the result from derivative transactions.

The result from financial investments includes interest, dividends and other income from the investment of funds and investments in financial assets and the expected return on plan assets.

The result from other financial investments mainly relates to the valuation of loans as well as impairments of securities available for sale.

t) Significant judgments, assumptions and estimates

When preparing the consolidated financial statements, senior management is required to make judgments, assumptions and estimates that affect both the recognition and measurement of assets, liabilities, income and expenses, and the information contained in the notes. Actual amounts can differ from the initial assumptions in the future.

Property valuation

The global financial system is subject to considerable fluctuations. Especially in commercial real estate markets these fluctuations may have significant effects on prices and values. In particular, restricted liquidity in the capital markets can make it more difficult to successfully sell the properties in the short term.

All valuations represent an estimate of the price that could be obtained in a transaction taking place at the valuation date. Valuations are based on assumptions, such as the existence of an active market in the region concerned. Unforeseen macroeconomic or political crises could have a significant influence on the market. Such events can trigger panic buying or selling, or a general reluctance to conclude business transactions. If a valuation date falls within a period immediately following an event of this kind, the data underlying the valuation may be questionable, incomplete or inconsistent, which inevitably affects the reliability of the estimate.

For properties that currently have a high vacancy rate or short-term leases, the influence of the appraiser's assumptions on the property value is higher than it is in case of properties with cash flows that are secured by long-term contracts.

The property values established by external appraisers depend on several parameters, some of which influence each other in a complex way. For the purposes of a sensitivity analysis for sub-portfolios in respect of changes in value caused by the change in one parameter, simplified assumptions were made below in order to present possible changes.

The following tables below illustrate the sensitivity of the fair value to a change in rental income (for the purposes of this model, defined as market rent) and in the yields (term yield and reversionary yield).

For the development projects, the table below illustrates the sensitivity of the fair value to an increase or decrease in the calculated outstanding development and construction costs. It is based on the development projects under construction as well as procurement of planning permission.

in € m	Still outstanding capital expenditures				
	- 10%	- 5%	Initial value	+5%	+10%
Still outstanding capital expenditures	466.5	492.4	518.3	544.2	570.2
Fair value	266.5	240.6	214.7	188.7	162.8
Changes to initial value	24.1%	12.1%	0.0%	- 12.1%	- 24.1%

The calculated amounts indicate only a balance sheet date scenario, where the expected outstanding investment costs correspond to an average percentage of completion of approximately 22%. As the stage of completion of the buildings and procurement of building approval advances – under similar conditions – the value percentage will successively change in the fair value's favour.

Taxes

All companies are subject to local income tax on rental income, capital gains and other incomes in their respective countries. Significant estimates are required in respect of the amount of income tax provisions to be recognised. More-

over, it needs to be determined to which extent the deferred tax assets should be recognised in the Group's consolidated financial statements.

Income from the disposal of investments in real estate companies in Germany and Eastern Europe is wholly or partially exempt from income tax when certain conditions are met, even if the group intended to meet these conditions, the full amount of deferred taxes according to IAS 12 is recognised for investment properties.

Material assumptions also need to be assessed if temporary differences and losses carried forward can be offset against taxable profits in the future and if the deferred tax assets can be capitalised. Uncertainties exist concerning the amount and effective date of future taxable income and the interpretation of complex tax regulations. In case of uncertainty over income tax treatments of transactions an assessment is required in order to evaluate whether it is probable or not that the tax authority will accept the tax treatment. Based on this judgement CA Immo Group recognizes the tax obligations with their most likely classified amount. These uncertainties and complexities can cause that future tax payments are much higher or lower than those currently estimated and recognised in the balance sheet as liabilities or assets.

Measurement of interest rate derivatives

CA Immo Group uses interest rate swaps, caps, floors and swaptions in order to mitigate the risk of interest rate fluctuations. These interest rate derivatives are recognised at fair value. The fair values are calculated by discounting the future cash flows from variable payments on the basis of generally recognised finance-mathematical methods. The interest rates for discounting the future cash flows are estimated by reference to an observable market yield curve. The calculation is based on inter - bank middle rates. The fair value of interest rate derivatives corresponds therefore to level 2 of the measurement hierarchy according to IFRS 13.

A correction of the measurement of the interest rate derivatives due to CVA (Credit Value Adjustment) and DVA (Debt Value Adjustment) is only conducted when the adjustment reaches a significant extent.

The application of cash flow hedge accounting (hedging of future cash flows) for interest rate swaps requires an assessment of the probability of occurrence of the future hedged cash flows from variable interest payments for financial liabilities. The probability depends on the existence and – in case the maturity date of the financial liability is earlier than the maturity date of the interest rate swap – on the immediate refinancing of the financial liability. As soon as it is no longer highly probable that the hedged cash flows will occur, hedge accounting is no longer used.

u) Fair value measurement

IFRS 13 defines the fair value as the price that would be received following the sale of an asset or paid to transfer a liability in an orderly transaction between market participants, at the measurement date. The price could be directly observable or estimated using valuation techniques. Corresponding to the inputs used to determine of the fair values, the measurement hierarchy distinguishes between the following levels:

- a) Level 1: quoted prices in active markets for identical assets or liabilities
- b) Level 2: inputs that are observable for the measurement of assets or liabilities, either directly or indirectly
- c) Level 3: inputs are unobservable for the measurement of assets or liabilities

v) New and revised standards and interpretations

First-time application of new and revised standards and interpretations not materially influencing the consolidated financial statements

The following standards and interpretations, already adopted by the EU, were applicable for the first time in the business year 2015:

standard / interpretation	Content	entry into force ¹⁾
IFRIC 21	Levies	1.7.2014
Annual improvement (cycle 2011– 2013)	Miscellaneous	1.1.2015

¹⁾ The standards and interpretations are to be applied to business years commencing on or after the effective date.

Applying IFRIC 21 “Levies” leads to the recognition of land taxes and related property levies at the date, when the obligation for those levies arise. This results for interim financial reportings in a generally (earlier) point in time recognition of land taxes and related property levies as well as accrued work in progress from these taxes and levies.

New and revised standards and interpretations that are not yet compulsory

standard / Interpretation	Content	entry into force ¹⁾
Changes in IAS 19	Defined benefit plans: employees contributions	1.2.2015
Annual improvement (cycle 2010– 2012)	Miscellaneous	1.2.2015
Changes to IFRS 11	Accounting for acquisitions of interests in joint operations	1.1.2016 ²
Changes to IAS 16 and IAS 38	Clarification of acceptable methods of depreciation and amortisation	1.1.2016 ²
Changes to IAS 16 and IAS 41	Agriculture: bearer plants	1.1.2016 ²
Changes to IFRS 10 and IAS 28	Sale or contribution of assets between an investor and its associate or joint venture	1.1.2016 ²
Changes to IAS 27	Equity method in separate financial statements	1.1.2016 ²
Annual improvement (cycle 2012– 2014)	Miscellaneous	1.1.2016 ²
IFRS 14	Regulatory deferral accounts	1.1.2016 ²
IAS 1	Disclosure initiative	1.1.2016 ²
IFRS 10, 12 and IAS 28	Investment entities: applying the consolidation exception	1.1.2016 ²
IFRS 15	Revenue from contract with customers	1.1.2018 ²
IFRS 9	Financial instruments	1.1.2018 ²
IFRS 16	Leasing	1.1.2019 ²

¹⁾ The standards and interpretations are to be applied to business years commencing on or after the effective date.

²⁾ Not yet adopted by the EU as of the reporting date. The effective date envisaged by an EU Regulation may differ from the date indicated by the IASB.

The above listed revisions and interpretations are not being early adopted by CA Immo Group.

The effects of the changes in IFRS 9, IFRS 15 and IFRS 16 on CA Immo Group have not yet been analyzed.

The first time adoption of all other new standards is not likely to have any material impact on consolidated financial statements.

NOTES TO THE CONSOLIDATED INCOME STATEMENT, CONSOLIDATED STATEMENT OF COMPREHENSIVE INCOME, CONSOLIDATED STATEMENT OF FINANCIAL POSITION AND CONSOLIDATED CASH FLOW STATEMENT

1. Segment reporting

The operating segments generate gross revenues and other income from rental activities, hotel operations, the sale of properties held for trading, the sale of properties as well as from development services. Gross revenues and other income are allocated to the country and segment the properties or services are located/ provided in.

Business relationships within an operating segment are consolidated within the segment. Business relationships with other operating segments are disclosed separately and reconciliations to the consolidated income statement and consolidated statement of financial position are presented in the “Consolidation” column.

The accounting principles of the reportable segments correspond to those described under “Accounting methods”.

Transactions between operating segments are allocated as follows:

- Personnel costs directly attributable to a business segment are recognised in the relevant segment.
- Management fees for services performed by the holding segment (e.g. accounting, controlling, general expenses) are charged on the basis of actual fees and allocated to the individual segments on the basis of the invoiced services. They are recognised in the column “Holding” as other operating income.
- Management companies are assigned to the segments according to their main activities. Management fees charged by these companies are allocated based on the invoiced services to the individual operating segment of the respective region and are recognised in the segment, which the management company has been assigned to, as other operating income.
- Eastern Europe core region segment consists of Hungary, Poland, Romania, the Czech Republic as well as Slovakia.
- Eastern Europe other region segment consists of Bulgaria, Croatia, Slovenia, Ukraine and Serbia.

CA Immo Group generates rental income from a multitude of tenants. No single tenant generates more than 10 % of total rental income of CA Immo Group.

3. Result from operating costs and other expenses directly related to properties rented

€ 1,000	2015	2014
Operating costs charged to tenants	38,290	33,471
Operating expenses	- 44,567	- 39,261
Own operating costs	- 6,277	- 5,790
Maintenance costs	- 5,606	- 4,671
Agency fees	- 3,589	- 1,167
Bad debt losses and reserves for bad debts	- 353	- 1,091
Other directly related expenses	- 3,401	- 3,631
Other expenses directly related to properties rented	- 12,948	- 10,560
Total	- 19,225	- 16,350

4. Result from hotel operations

CA Immo Group operated two hotels in Czech Republic. Other expenses from hotel operations mainly include expenses for food and beverages, catering, hotel rooms, licence and management fees, personnel expenses, advertising costs, bad debts, operating costs, maintenance costs and other costs related to properties. In 2015, the two hotels in the Czech Republic and their related management and operating companies (Hotel Operation Plzen Holding s.r.o. and Hotel Operations Europort s.r.o.) were sold.

In 2014 the depreciation and impairment of hotels operated by CA Immo Group, included in the line "depreciation and impairment of long-term assets", amounted to € 5,663 K.

5. Other expenses directly related to properties under development

€ 1,000	2015	2014
Operating expenses related to investment properties under development	- 728	- 1,362
Property advertising costs	- 56	- 80
Project development and project execution	- 866	- 1,110
Operating expenses related to investment properties under development long-term assets	- 1,651	- 2,552
Operating expenses related to investment properties under development short-term assets	- 508	- 622
Other expenses directly related to properties under development	- 2,159	- 3,175

6. Result from trading and construction works

€ 1,000	2015	2014
Income from the sale of properties and construction works	9,535	14,870
Book value of sold properties incl. ancillary and construction costs	- 6,446	- 6,145
Result from trading and construction works	3,089	8,725
Result from trading and construction works in % from revenues	32.4%	58.7%

Costs incurred for contract work in accordance with IAS 11 for construction work projects in progress at the reporting date total € 947 K (2014: € 0 K) so far, the related accumulated revenues amount to € 1,191 K (2014: € 0 K). There are no prepayments.

7. Result from sale of investment properties

€ 1,000	Austria	Germany	Eastern Europe other regions	Eastern Europe other regions	2015	Austria	Germany	Eastern Europe other regions	Eastern Europe other regions	2014

The book value of net assets sold (= equity) include investment property in the amount of € 148,585 K (2014: € 19,500 K), for which selling prices totaling to € 153,200 K (2014: € 19,263 K) were agreed.

8. Result from development services

€ 1,000	2015	2014
Revenues from contract work according to IAS 11	2,256	1,466
Revenues from service contracts	9,226	8,335
Income from management	4,459	5,740
Property management revenues and other fees	279	449
Income from services rendered	16,219	15,990

Costs incurred for contract work in accordance with IAS 11 for development services projects in progress at the reporting date total € 4,614 K (2014: € 3,020 K) so far and the related accumulated revenues amount to € 5,723 K (2014: € 3,606 K). In 2015, losses recognised by reference to the stage of completion of the contract amount to € 173 K (2014: € 15 K loss). Prepayments amount to € 5,336 K (2014: € 3,068 K).

9. Indirect expenses

€ 1,000	2015	2014
Personnel expenses	- 31,271	- 28,357
Legal, auditing and consulting fees	- 6,019	- 9,047
Material expenses for services	- 4,578	- 5,043
Office rent	- 1,467	- 1,828
Travel expenses and transportation costs	- 1,208	- 1,266
Other expenses internal management	- 2,906	- 3,095
Other indirect expenses	- 4,231	- 2,747
Subtotal	- 51,679	- 51,383
Own work capitalised in investment property	7,829	6,374
Change in properties held for trading	1,399	623
Indirect expenses	- 42,452	- 44,386

Personnel expenses include contributions to staff welfare funds in the amount of € 99 K (2014: € 74 K) and to pension and relief funds in the amount of € 319 K (2014: € 551 K).

10. Other operating income

€ 1,000	2015	2014
Discharge of lapsed liabilities	114	7,846
Income from taxes	0	476
Other income	1,357	3,147
Other operating income	1,470	11,469

In 2014, the other operating income contained € 5.2 mio resulting from the termination of the Maslov proceedings as well as € 3.5 mio resulting from guarantees and purchase price reductions.

11. Depreciation and impairment losses/reversal

€ 1,000	2015	2014
Regular depreciation	- 2,013	- 3,924
Impairment loss on goodwill	- 902	- 2,831
Impairment own used properties	0	- 3,530
Impairment loss on properties held for trading	0	- 41
Reversal of impairment loss previously recognised on properties held for trading	32	245
Depreciation and impairment/reversal	- 2,882	- 10,081

12. Joint ventures result

€ 1,000	2015	2014
At equity consolidation of investments in joint ventures	42,524	8,816
Result from sale of joint ventures	697	- 659
Result from joint ventures	43,221	8,157

The result of at equity consolidation of joint ventures contains the increase of the fair values of the E-Portfolio related to the buy-out of the former joint venture partner, amounting to € 15,592 K at first-time consolidation date.

13. Finance costs

€ 1,000	2015	2014
Interest expense banks	- 40,074	- 58,334
Interest expense bonds	- 14,490	- 17,749
Interest expense convertible bond	0	- 2,536
Other interest and finance costs	- 5,609	- 3,148
Finance costs	- 60,172	- 81,767

14. Other financial result

In 2015, CA Immo Group repurchased three loans from the financing bank. The difference between the outstanding loan amount and the purchase price for consolidated subsidiaries amounts to € 178 K (2014: € 2,408 K).

15. Result from interest rate derivatives

€ 1,000	2015	2014
Valuation interest rate derivative transactions	10,614	- 5,537
Ineffectiveness of cash-flow hedges	19	14
Reclassification of valuation results recognised in equity	- 25,931	- 7,729
Result from interest rate derivative transactions	- 15,299	- 13,252

The result from interest rate derivative transactions is based on the development of the market-value of those interest rate swaps, which do not have any Cash-Flow Hedge relation or which no longer have one, due to reclassification. The reclassifications result from early repayment of the borrowings.

The item "Valuation interest rate derivative transactions" includes the following items:

€ 1,000	2015	2014
Valuation of interest rate swaps without cash flow hedge relation	10,780	- 3,493
Valuation Swaption	- 110	- 2,054
Valuation of interest rate caps	- 57	10
Valuation interest rate derivative transactions	10,614	- 5,537

16. Result from financial investments

€ 1,000	2015	2014
Interest income from loans to associated companies and joint ventures	8,159	44,645
Interest income on bank deposits	524	346
Income from investments	1,169	684
Other interest income	2,492	1,727
Result from financial investments	12,344	47,402

17. Result from other financial assets

The result from other financial assets for the year 2015 amounts to € - 13,264 K (2014: -9,351 K) and refers to impairments of available for sale securities as well as valuations of loans granted to joint ventures and other loans.

18. Result from associated companies

€ 1,000		2015	2014
UBM Realitätenentwicklung AG, Vienna		0	- 2,091
ZAO „Avielen A.G.“, St. Petersburg		- 6,297	- 1,055
		- 6,297	- 3,146

In 2014, the loss resulting from the sale of the associated company UBM Realitätenentwicklung AG, amounting to € 5,606 K, is shown in the result from associated companies.

19. Financial result

€ 1,000		Category ¹⁾	2015	2014
Interest expense	Interest	FLAC	- 60,172	- 81,767
Other financial results	Valuation	L&R	178	2,408

	Realisation	AEA	0	- 2,091
Result from associated companies			- 6,296	- 3,146
Financial result			- 86,702	- 58,346

¹⁾ FLAC – financial liabilities at amortised cost, L&R – loans and receivables, HFT – held for trading, CFH – Cash-flow Hedge, FV/PL – at fair value through profit or loss, AFS/AC - available for sale/at cost, AEA – at equity

20. Income tax

€ 1,000	2015	2014
Current income tax (current year)	- 9,248	- 18,944
Current income tax (previous years)	- 27,392	11,492
Current income tax	- 36,639	- 7,452
Change in deferred taxes	- 58,633	- 8,621
Tax benefit on valuation of derivative transactions and assets available for sale in equity	99	2,300
Income tax	- 95,174	- 13,773
Effective tax rate (total)	30.1%	16.3%

Current income tax (current year) arises mainly from Germany and Austria. The change in current income tax (previous years) results from a tax audit for the period 2008 – 2010 and follow-up effects until 2013 in relation to the tax deductibility of interest expenses in Germany, amounting to € 34.2 m. CA Immo Group contests the findings of the tax audit and is pursuing further legal steps in this respect. This effect in current income tax in turn resulted in a partial decrease in deferred taxes due to not claiming tax benefits amounting to € 27.2 m.

The reasons for the difference between expected income tax expense and effective income tax expense are outlined in the following table:

€ 1,000	2015	2014
Net result before taxes	316,013	84,571
Expected tax expenses (tax rate Austria 25.0% / prior year 25.0%)	- 79,003	- 21,143
Tax-effective impairment and reversal of impairment losses of investments in affiliated entities	995	15,222
Non-usable tax losses carried forward	- 6,503	- 10,223
Non tax-deductible expense and permanent differences	- 1,153	- 6,937
Differing tax rates abroad	- 957	- 6,468
Relief of temporary differences	0	4,527
Capitalisation of prior years non-capitalised tax losses	765	2,837
Tax-exempt income	2,275	2,669
Adjustment of prior periods	- 14,489	2,487
Utilization of prior years non-capitalised tax losses	264	1,634
Trade tax effects	- 706	1,633
Amortisation/Reversal of amortisation of deferred tax assets	- 4,943	- 421
At equity consolidation of investments in joint ventures	8,143	359
Exchange rate differences not affecting tax	- 135	- 332
Others	274	383
Effective tax expense	- 95,174	- 13,773

21. Other comprehensive income

2015 € 1,000	Valuation result/ Reclassification (Hedging)	Currency translation reserve	Reserves for available for sale valuation	Reserve according to IAS 19	Total
Other comprehensive income before taxes	27,687	597	2,164	870	31,317
Income tax related to other comprehensive income	- 5,315	0	- 759	- 284	- 6,359
Other comprehensive income for the period	22,372	597	1,405	585	24,958
thereof: attributable to the owners of the parent	22,372	597	1,405	585	24,958

2014 € 1,000	Valuation result/ Reclassification (Hedging)	Currency translation reserve	Reserves for available for sale valuation	Reserve according to IAS 19	Total
Other comprehensive income before taxes	8,132	2,236	398	- 1,941	8,825
Income tax related to other comprehensive income	- 728	0	0	620	- 108
Other comprehensive income for the period	7,404	2,236	398	- 1,321	8,717
thereof: attributable to the owners of the parent	7,404	2,236	398	- 1,321	8,717

The reclassification of € 25,931 K (2014: € 7,729 K) relates to the fair values of cash flow hedges recorded in equity as at previous year's reporting date, for which the underlying loans were repaid in advance during business year.

Reserves according to IAS 19 include actuarial gains and losses from post-employment defined benefit plans as well as actuarial gains and losses from the plan assets.

Fair value/book value	2,714,305	408,979	7,016	3,130,300

The current capital expenditures (construction costs) for investment properties under development mainly relate to John F. Kennedy House (€ 5,086 K), Europaplatz Berlin (€ 20,389 K) and other projects in Germany. The capital expenditures in income producing investment properties relate mainly to the completion of the properties John F. Kennedy House (€ 10,102 K) and Kontorhaus Arnulfpark (€ 15,567 K) in Germany, as well as capital expenditures in other core regions.

The acquisitions of real estate companies refer exclusively to the real estate properties of the E-Portfolio.

The disposals for the current year relate to the sale of H&M Logistik Centre in Hamburg and various other disposals in Germany and Austria. Previous year disposals relate to the sale of Europolis Lipowy Office Park in Poland, the sale of "Englische Schule" in Prague, the sale of "Mladost Office Center 2" in Sofia, and several disposals in Germany and Vienna.

The fair value of the properties assigned as collateral for external financings totals € 2,229,600 K (31.12.2014: € 1,966,678 K).

In 2015, borrowing costs relating to the construction of properties totaling € 236 K (2014: € 481 K) were capitalised at a weighted average interest rate of 1.66 % (2014: 1.72%).

In 2015 government grants amounted to € 0 K (2014: € 2,579 K).

24. Investments in joint ventures

CA Immo Group is engaged in the following material joint ventures:

Name	Project Partner	Share of CA Immo Group (Prior Year)	Registered office	Region/Country Investment	Type of investment	Aggregation	Number entities (Prior Year)
Tower 185	PPG Partnerpensiongesellschaft, WPI Fonds	33.33% (33.33%)	Frankfurt	Germany	Income producing	Sum of entities	3 (3)
E-Fonds	European Bank for Reconstruction and Development	100% (65% – 75%)	Vienna	Eastern Europe	Income producing / Development	Sum of entities	32 (39)

The joint venture “Tower 185“ holds the Tower 185 in Frankfurt.

The main focus of the E-Portfolio, whose shares amounting to 25% and respectively 35% were acquired on 1.7.2015 by CA Immo Group, is on office buildings in the Czech Republic, Romania, Hungary, Croatia, and Slovakia.

None of the joint ventures is listed and all have 31.12. as the key date. In all cases, except the Baumkirchen joint venture, the profit share is in accordance with the ownership share. The financial statements of the joint ventures are prepared in compliance with the accounting policy of CA Immo Group and included in the consolidated financial statements in accordance with the equity method.

Joint ventures are set up by CA Immo Group for strategic reasons and structured as independent investment companies. They consist of common agreements, subgroups, groups of independent investment companies (sum), or separate investment companies (subsidiaries). The structure depends on the strategic background e.g. development, financing or investment volume.

The new control concept of IFRS 10 leads to joint ventures existing in CA Immo Group that are consolidated at equity in accordance with IFRS 11 for contractual reason, even though the Group’s holding is greater than 50%.

As at 31.12.2015, there are no unrecognized losses from joint ventures (31.12.2014: € 2,530 K). There are no unrecognized contractual obligations for the CA Immo Group concerning the acquisition or disposal of shares in joint ventures or for assets that are not accounted for.

In the following year	10,790	10,849
Thereafter 4 years	77,459	39,241
More than 5 years	22,608	16,252
Without limitation in time	324,518	342,264
Total unrecorded tax losses carried forward	435,375	408,606
thereupon non-capitalised deferred tax assets	86,908	91,333

The total taxable temporary differences related to investments in Austrian affiliated companies, joint ventures and associated companies for which no deferred taxes were recognised pursuant to IAS 12.39 amount to € 271,060 K (31.12.2014: € 227,475 K). Tax loss carryforwards of the Austrian companies that were not recognised amount to € 183,017 K (31.12.2014: € 150,601 K).

The total taxable temporary differences related to investments in foreign affiliated companies, joint ventures and associated companies for which no deferred taxes were recognised pursuant to IAS 12.39 amount to € 30,692 K (31.12.2014: € 16,767 K). Not-recognised tax loss carry forwards of foreign entities amount to € 252,359 K (31.12.2014: € 258,006 K) were not recognised. Subject to specific requirements, gains from the disposal of investments in foreign entities are partially or completely exempt from income tax.

28. Assets and liabilities held for sale

As at 31.12.2015, the share in seven joint ventures and several properties with a fair value of € 54,048 K (31.12.2014: € 86,000 K) were classified as held for sale. For these assets and disposal groups, the disposal was agreed by the appropriate level of management of CA Immo Group and a contract of sale was concluded or assigned by the time the consolidated financial statements were prepared.

Properties held for sale € 1,000	31.12.2015	31.12.2014
Austria - investment properties	995	20,480
Germany - Properties under development	50,070	6,350
Eastern Europe core regions - investment properties	0	31,213
Eastern Europe core regions - properties under development	0	1,996
Eastern Europe core regions - hotel and other own used properties	0	18,547
Assets held for sale	51,065	78,586
Eastern Europe core regions - participation in joint ventures	2,983	7,414
Financial assets held for sale	2,983	7,414
Assets held for sale and relating to disposal groups	54,048	86,000

The result from revaluation includes an amount of € – 1 K (2014: € 192 K) related to investment properties after their reclassification as properties held for sale.

Assets and liabilities held for sale		
€ 1,000	31.12.2015	31.12.2014
Assets held for sale	54,048	86,000
Receivables and other assets	0	4,424
Cash and cash equivalents	0	936
deferred tax asset	0	120
Assets in disposal groups held for sale	54,048	91,481
Provisions	0	877
Interest-bearing liabilities	0	24,833
Other liabilities	0	833
Liabilities relating to disposal groups	0	26,543
Net-assets/liabilities included in disposal groups	54,048	64,938

Of the investment properties classified as per IFRS 5, an amount of € 0 K (31.12.2014 € 44,800 K) is encumbered by mortgage charges representing security for loan liabilities.

29. Properties held for trading

€ 1,000	Acquisition / production costs	Accumulated impairment	31.12.2015 Book values	Acquisition / production costs	Accumulated impairment	31.12.2014 Book values
At acquisition/production costs	21,759	0	21,759	14,665	0	14,665
At net realisable value	2,989	- 2,679	310	6,495	- 2,715	3,780
Total properties held for trading	24,748	- 2,679	22,069	21,160	- 2,715	18,445

The fair value of the properties held for trading which are recognised at acquisition/production costs amounts to € 37,605 K (31.12.2014: € 24,398 K), and correspond to level 3 of the fair value hierarchy.

Properties held for trading amounting to € 19,688 K (31.12.2014: € 15,428 K) are expected to be realised within a period of more than 12 months. This applies to 15 properties (31.12.2014: 17 properties) in Germany.

In 2015 and 2014, no borrowing costs were capitalised on properties held for trading. Interest bearing liabilities in connection with certain properties defined as held for sale total € 0 K (31.12.2014: € 0 K).

30. Receivables and other assets

€ 1,000	Book values as at 31.12.2015	Book values as at 31.12.2014
Receivables from joint ventures	39,718	17,002
Receivables from property sales	14,707	55,583
Rental and trade debtors	9,464	20,363
Cash and cash equivalents with drawing restrictions	9,322	1,512
Other accounts receivable	15,208	13,648
Receivables and other financial assets	88,419	108,109
Receivables from income taxes	37,882	40,700
Other receivables from fiscal authorities	9,598	13,240
Receivables PoC	1,572	545
Other non financial receivables	969	426
Other non financial assets	50,022	54,910
Available-for-sale securities	105,250	24,547
Receivables and other assets	243,691	187,566

Receivables PoC (Percentage of Completion), in accordance with IAS 11, includes a receivable from joint ventures amounting to € 61 K (31.12.2014: € 0 K).

The carrying amounts of receivables and other assets are based on nominal value and bad debt allowance, as follows:

€ 1,000	Nominal value 31.12.2015	Bad debt allowance 31.12.2015	Book value 31.12.2015	Nominal value 31.12.2014	Bad debt allowance 31.12.2014	Book value 31.12.2014
Receivables and other financial assets without bad debt allowance	86,229	0	86,229	105,546	0	105,546
Receivables and other financial assets with bad debt allowance	7,210	- 5,020	2,190	8,292	- 5,729	2,563
Receivables and other financial assets	93,439	- 5,020	88,420	113,838	- 5,729	108,109
Other non financial assets	52,768	- 2,747	50,022	58,072	- 3,162	54,910
	146,208	- 7,767	138,441	171,910	- 8,891	163,019

Movements in allowances for receivables and other assets are presented below:

€ 1,000	2015	2014
As at 1.1.	8,891	10,483
Appropriation (value adjustment expenses)	1,398	2,436
Use	- 2,081	- 654
Reversal	- 468	- 2,736
Disposal deconsolidation	0	- 1
Reclassification	0	- 558
Foreign currency gains/losses	26	- 79
As at 31.12.	7,767	8,891

The reclassification in 2014 refers to financial assets within disposal groups. The corresponding nominal values of receivables and other financial and non-financial assets included in the disposal group, amounted to € 3,601 K in 2014.

The aging of receivables and other financial assets, for which no allowance has been recognised is as follows:

	not due	< 30 days	31 – 180 days	181 – 360 days	overdue > 1 year	Total
31.12.2015	81,373	3,426	1,145	126	159	86,229

32. Shareholders' equity

The share capital equals the fully paid in nominal capital of CA Immobilien Anlagen Aktiengesellschaft of € 718,336,602.72 (31.12.2014: € 718,336,602.72). It is divided into 98,808,332 (31.12.2014: 98,808,332) bearer shares and 4 registered shares of no par value. The registered shares are held by O1 Group Limited, Cyprus, each granting the right to nominate one member of the Supervisory Board. The Supervisory Board currently consists only of members elected by the Ordinary General Meeting.

At the 27th Ordinary General Meeting held on 8.5.2014, the Management Board was authorised to acquire treasury shares to the maximum extent admissible by law (10 % of the capital stock, article 65 section 1 line 8 of the Stock Corporation Act) for a period of 30 months, and if necessary to withdraw or sell treasury shares via the stock exchange, or by other means, or via a public offer. On the basis of this enabling resolution, the company acquired a total of 2,000,000 bearer shares (ISIN AT0000641352) in the company for a total purchase price of approximately € 32,306 K between 12.5.2015 and 9.12.2015. The weighted equivalent value was approximately € 16.14 per share. The highest/lowest equivalent value per share in the buyback programme was € 17.00/€ 14.93 respectively. As at 31.12.2015,

CA Immobilien Anlagen AG had acquired a total of 2,000,000 treasury shares through the 2015 share buyback programme (around 2 % of the voting shares).

The appropriated capital reserve as reported in the individual financial statements of CA Immobilien Anlagen Aktiengesellschaft totals € 854,842 K (31.12.2014: € 854,842 K). Profits can only be distributed up to the amount of the net profit of the parent company disclosed in the individual financial statements in accordance with the Austrian Commercial Code (UGB), subject to the existence of any legal dividend payment constraints. In 2015, a dividend amount of € 0.45 (2014: € 0.40) for each share entitled to dividend, totalling € 44,464 K (31.12.2014: € 35,142 K), was distributed to the shareholders. An amount of € 185,583 K (31.12.2014: € 3,580 K) of the total net profit of CA Immobilien Anlagen Aktiengesellschaft as at 31.12.2015 in the amount of € 448,068 K (31.12.2014: € 235,953 K), is subject to dividend payment constraints. The Management Board of CA Immo AG proposes to use part of the retained earnings as at 31.12.2015, amounting to € 448,068 K, to distribute a dividend of € 0.50 per share, so that a total of € 48,404 K is to be distributed to shareholders. The remaining retained earnings of € 399,664 K are to be carried forward.

As at 31.12.2015 authority exists for the issue of additional capital in the amount of € 215,500,975 in the period until 31.8.2018 and for the issue of capital in the amount of € 100,006,120 earmarked for the specified purpose of servicing a convertible bond that may be issued in the future.

33. Provisions

€ 1,000	Staff	Construction services	Subsequent costs of sold properties	Others	Total
As at 1.1.2015	11,351	16,372	14,749	16,513	58,985
Use	- 6,890	- 14,678	- 4,141	- 7,404	- 33,112
Reversal	- 776	- 221	- 4,039	- 2,354	- 7,391
Addition	5,742	16,123	24,121	14,942	60,928

Disposal from deconsolidation	0	0	0	- 78	- 78
Accumulated interest	45	0	97	16	158
Foreign currency gains/losses	4	- 9	0	- 10	- 16
As at 31.12.2015	9,475	17,826	31,088	26,769	85,158
thereof: short-term	6,461	17,826	18,120	26,769	69,177
thereof: long-term	3,013	0	12,968	0	15,980

Provision for employees

The provision for employees primarily comprises the present value of the long-term severance obligation of € 639 K (31.12.2014: € 784 K), bonuses of € 6,171 K (31.12.2014: € 6,441 K), and unused holiday entitlements of € 803 K (31.12.2014: € 973 K).

The provision for bonuses comprises a long-term provision for the LTI-(long-term incentive) programme amounting to € 895 K (31.12.2014: € 1,262 K) as well as a short-term provision of € 940 K (31.12.2014: € 964 K)

The following table presents the changes in the present value of the severance payment obligation:

€ 1,000	2015	2014
Present value of severance obligations as at 1.1	784	696
Use	- 228	- 19
Current service costs	95	105
Interest cost	8	8
Revaluation	- 21	- 6
Present value of severance obligations as at 31.12	639	784

The empirical adjustments of the present value of the obligation in respect of changes in projected employee turnover, early retirement or mortality rates are negligible.

Net plan assets from pension obligations

CA Immo Group has a reinsurance policy for defined benefit obligations in Germany, which fulfils the criteria for disclosure as plan assets. As the capital value of these defined benefit obligations exceeds the plan assets at the closing date, the net position is presented under the provisions.

€ 1,000	31.12.2015	31.12.2014
Present value of obligation	- 8,356	- 8,965
Fair value of plan asset	6,878	6,629
Net position recorded in consolidated statement of financial position	- 1,479	- 2,336
Financial adjustments of present value of the obligation	734	- 1,922
Experience adjustments of present value of the obligation	- 7	29

The development of the defined benefit obligation and of the plan asset is shown in the following table:

€ 1,000	2015	2014
Present value of obligation as at 1.1.	- 8,965	- 6,878
Current Payment	21	0
Interest cost	- 140	- 194
Revaluation	727	- 1,893
Present value of obligation 31.12	- 8,356	- 8,965
Plan asset as at 1.1.	6,629	6,497
Expected income from plan asset	103	183
Revaluation	166	- 51
Current Payment	- 21	0
Plan asset as at 31.12	6,878	6,629

The following income/expense was recognized in the income statement:

€ 1,000	2015	2014
Interest cost	- 140	- 194
Expected income from plan asset	103	183
Pensions costs	- 36	- 11

The following result was recognised in the other comprehensive income:

€ 1,000	2015	2014
Actuarial gains/losses from pension obligation	727	- 1,893
Actuarial gains/losses from plan asset	166	- 51
IAS 19 reserve	893	- 1,944

Sensitivity analysis regarding the financial mathematical assumptions is shown in the following table:

€ 1,000	- 0.25%	+0.25%
change interest rate of 0.25 percent point	- 415	391
change pension trend of 0.25 percentage point	295	- 311

Liabilities to joint ventures	5.00%	fix	12/2020 – 12/2024	14,156	14,573	17,076
				1,044,670	1,041,774	1,042,353

More than 90 % of the third-party financing of CA Immo Group is subject to financial covenants. These are generally for investment properties LTV (loan to value, i.e. ratio between loan amount and the fair value of the object), ISCR (interest service coverage ratio, i.e. the ratio between planned EBIT and financial expenditure) and DSCR (debt service coverage ratio, i.e. the ratio between EBIT and debt service of one period) and ratios for investment properties under development LTC (loan to cost, i.e. ratio between debt amount and total project costs) and ISCR (interest service coverage ratio, i.e. the ratio between planned EBIT and financial expenditure) ratios for development projects.

Other interest-bearing liabilities, for which the relevant financial covenants were not met as at 31.12.2015, are presented in short-term interest-bearing liabilities regardless of their maturity, because breaches of the financial covenants generally entitle the lender to early termination of the loan agreement. This applies irrespective of the state of negotiations with the banks regarding a continuation or amendment of the loan agreements. As at 31.12.2015 no loans were in breach of covenants (31.12.2014: no breaches).

Taking into account all interest hedging agreements, the average weighted interest rate for all other interest bearing liabilities denominated in EUR is 2.9% (31.12.2014: 4.1%).

¹⁾ HFT – held for trading, AFS – available-for-sale, AFS/AC – available for sale/at cost, L&R – loans and receivables

The fair value of the receivables and other assets essentially equals the book value, restricted cash as well as the primary financial instruments in the category of loans and amounts receivable due to daily and/or short-term maturities. Securities in the category AFS are recognized with their market value and are therefore classified as level 1 of the fair value hierarchy. Valuation of investments of AFS category corresponds to level 3 of the fair value hierarchy.

Financial assets are partially given as securities for financial liabilities.

Hierarchy of fair values

Financial liabilities measured at fair value relate only to derivative financial instruments. As in the prior year, the valuation is based on inputs that can be observed either directly or indirectly (e.g. interest rate curves or foreign exchange forward rates). This represents level 2 of the fair value hierarchy.

The recognized fair value of the other non-derivative liabilities basically equals based on the daily and short term due date, the book value.

38. Derivative financial instruments and hedging transactions

€ 1,000	31.12.2015			31.12.2014		
	Nominal value	Fair value	Book value	Nominal value	Fair value	Book value
Interest rate swaps	243,227	- 12,743	- 12,743	637,687	- 77,611	- 77,611

- thereof hedging (cash flow hedges)	95,555	- 6,942	- 6,942	251,723	- 33,689	- 33,689
- thereof stand alone (fair value derivatives)	332,549	- 5,563	- 5,563	507,549	- 43,858	- 43,858

As at the balance sheet date 28.12% (31.12.2014: 74.72%) of the nominal value of all investment loans have been turned into fixed interest rates (or into ranges of interest rates with a cap) by means of interest rate swaps or interest rate caps.

Interest rate swaps

Interest rate swaps are concluded for the purpose of hedging future cash flows. The effectiveness of the hedge relationship between hedging instrument and hedged items is assessed on a regular basis by measuring effectiveness.

39. Risks from financial instruments
Interest rate risk

Risks arising from changes in interest rates basically result from long-term loans and interest rate derivatives and relate to the amount of future interest payments (for variable interest instruments) and to the fair value of the financial instrument (for fixed rate instruments). A mix of long-term fixed-rate and floating-rate loans is used to reduce the interest rate risk. In case of floating-rate loans, derivative financial instruments (interest rate caps, interest rate floors and interest rate swaps) are also used to hedge the cash-flow risk of interest rate changes arising from hedged items.

The following sensitivity analysis outlines the impact of variable interest rates on interest expense. It shows the effect of a change in interest rate by 50 and 100 basis points on the interest expenses. The analysis assumes that all other variables, particularly foreign exchange rates, remain constant. Due to the very low interest rate levels the analysis only shows the effect of increasing interest rates.

€ 1,000	recognised in Profit/Loss Statement		recognised in other comprehensive income	
	at 50 bps Increase	at 100 bps Increase	at 50 bps Increase	at 100 bps Increase
31.12.2015				
Interest on variable rate instruments	- 3,885	- 7,770	0	0
Valuation result from fixed rate instruments (Swaps)	3,398	6,698	0	0
Valuation result from derivative financial instruments	2,282	4,485	1,115	2,213
	1,795	3,413	1,115	2,213
31.12.2014				
Interest on variable rate instruments	- 4,125	- 8,250		
Valuation result from fixed rate instruments (Swaps)	3,188	6,377		
Valuation result from derivative financial instruments	11,565	23,663	1,679	3,359
	10,628	21,790	1,679	3,359

Variable rate instruments contain variable rate financial liabilities, loans and receivables from financing, not taking into account derivatives. In the case of derivative financial instruments, an interest rate change gives rise to a component recognized in profit or loss (interest, valuation of fair value derivatives and ineffective portions of cash flow hedge valuation) and to the change in value of cash flow hedges recognized in equity.

Currency risk

Currency risks result from rental revenues and receivables denominated in BGN, CZK, HRK, HUF, PLN, RON, CHF and RSD. This foreign currency rental income is secured by linking the rental payments to EUR and USD, so that no major risk remains.

Credit risk

The book values disclosed for all financial assets, guarantees and other commitments received, represent the maximum default risk as no major set-off agreements exist.

Tenants provided deposits amounting to € 10,371 K (31.12.2014: € 7,850 K) as well as bank guarantees of € 31,076 K (31.12.2014: € 18,724 K) and Group guarantees in the amount of € 45,497 K (31.12.2014: € 0 K)

The credit risk for liquid funds with banks is monitored according to internal guidelines.

Liquidity risk

Liquidity risk is the risk that CA Immo Group will not be able to meet its financial obligations as they fall due. CA Immo Group's approach to managing liquidity is to ensure that CA Immo Group will always have sufficient liquidity to meet liabilities when due, whilst avoiding unnecessary potential losses and risks. Loans are usually agreed on a long-term basis in accordance with the long-term nature of real estate.

The CA Immo Group manages liquidity risk in several different ways: firstly, by means of distinct liquidity planning and securing to avoid possible liquidity shortages. Secondly, CA Immo Group takes safeguarding measures by entering into capital partnerships (joint ventures) for project development purposes as an alternative and extension to established sources of raising equity capital. External capital is raised by CA Immo Group from a wide variety of domestic and foreign banks. The contractually agreed (undiscounted) interest payments and repayments for primary financial liabilities and derivative financial instruments are presented in the table below.

31.12.2015 € 1,000	Book value 2015	Contractually agreed cash flows	Cash-flow 2016	Cash-flow 2017– 2020	Cash-flow 2021 ff

Derivative financial liabilities	12,743	– 12,839	– 4,272	– 6,793	– 1,774
	1,468,073	– 1,588,289	– 610,810	– 519,726	– 457,753

31.12.2014 € 1,000	Book value 2014	Contractually agreed cash flows	Cash-flow 2015	Cash-flow 2016– 2019	Cash-flow 2020 ff
Other bonds	187,376	– 205,056	– 9,532	– 195,524	0
Other interest-bearing liabilities	1,041,774	– 1,140,100	– 221,830	– 735,805	– 182,464
Trade payables	15,211	– 15,211	– 13,178	– 2,033	0
Non-controlling interests held by limited partners	4,891	– 4,891	0	0	– 4,891
Liabilities to joint ventures	25,573	– 26,485	– 16,045	– 10,440	0
Other liabilities	30,090	– 30,090	– 15,264	– 14,633	– 193
Primary financial liabilities	1,304,916	– 1,421,833	– 275,850	– 958,436	– 187,548
Interest rate derivatives in connection with cash flow hedges	33,689	– 34,494	– 9,728	– 19,685	– 5,080
Interest rate derivatives not connected with hedges	43,922	– 44,259	– 14,716	– 25,033	– 4,510
Derivative financial liabilities	77,611	– 78,753	– 24,445	– 44,718	– 9,591
	1,382,526	– 1,500,586	– 300,294	– 1,003,153	– 197,139

The cash flows for interest rate derivatives are based on assumed values for the underlying forward rates as at the respective balance sheet date.

The cash flows from derivatives in cash flow hedge relationships are expected to have an effect on profit and loss in the period of occurrence of the underlying transaction, i.e. allocated over the term of the financing or when redeemed prematurely at the time of redemption.

Price risk

The CA Immo Group holds available for sale securities in its portfolio. This financial instrument is quoted in an active market (level 1 of the fair value hierarchy), thus it can constantly be influenced by the price (price risk). If a supposed change, i.e. an increase/decrease of 10% in the price of securities above the actual level occurs, this change will impact current comprehensive income of CA Immo Group by +/- € 10,525 K.

Capital management

The objective of CA Immo Group's capital management is to ensure that the Group achieves its goals and strategies, while optimising the costs of capital effectively and in the interests of shareholders, employees and other stakeholders. In particular, it focuses on achieving of minimum return on invested capital required by the capital market and increasing the return on equity. Furthermore, the external rating should be supported by adequate capitalisation and by raising equity for the growth targets in the upcoming fiscal years.

The key parameters in determining the capital structure of the CA Immo Group are:

1. the general ratio of equity to debt and
2. within outside capital, the optimal ratio between the debt secured with real estate, which is recorded at the level of individual property companies, and the unsecured debt at the level of the parent company

Regarding the first parameter, the CA Immo Group aims to maintain an equity ratio of 45%-50%. As at 31.12.2015 the ratio remained unchanged at 53.2% compared to previous year.

With respect to the second parameter, the focus of debt financing in the Group is on secured property loans, which are usually taken directly by the project company in which the property is held.

The advantage of secured financing is that it usually offers more favourable conditions than unsecured loans, since these are structurally subordinated compared to secured financing. Unsecured financing exists basically only in the form of corporate bonds placed on the capital markets. There are no explicit requirements by third parties in respect of the achievement of capital management ratios.

Net debt and the gearing ratio are other key figures relevant to the presentation of the capital structure of CA Immo Group:

€ 1,000	31.12.2015	31.12.2014
Interest-bearing liabilities		
Long-term interest-bearing liabilities	858,776	1,026,620
Short-term interest-bearing liabilities	545,214	202,530
Interest-bearing assets		
Cash and cash equivalents	– 207,112	– 163,638
Cash at banks with drawing restrictions	– 5,432	– 4,221
Net debt	1,191,446	1,061,291
Shareholders' equity	2,120,450	1,951,707
Gearing ratio (Net debt/equity)	56.2%	54.4%

Restricted cash was included in the calculation of net debt, as it is mainly used to secure the repayments of interest bearing liabilities.

40. Other liabilities and contingent liabilities

Guarantees and other commitments

As at 31.12.2015 CA Immo Germany Group is subject to guarantees and other commitments amounting to € 120 K (31.12.2014: € 120 K) resulting from urban development contracts and purchase agreements for decontamination costs and war damage costs amounting to € 491 K (31.12.2014: € 1,461 K). Furthermore, comfort letters and securities have been issued for one joint venture in Germany amounting to € 2,000 K (31.12.2014: € 9,000 K for three Joint Ventures). As a security for the liabilities of the three joint ventures loan guarantees, letters of comfort and declarations were issued in an extent of € 12,150 K. Furthermore as security for warranty risks of a German at equity company a guarantee was issued in an amount of € 6,066 K (31.12.2014: € 6,066 K).

CA Immo Group has agreed to adopt a guarantee in connection with the project "Airport City St. Petersburg" in the extent of € 13,483 K (31.12.2014: € 15,461 K).

The arbitration case from the joint venture partner from "Project Maslov" from 2011 was finalised in 2014. The arbitration court determined the claim in favour of CA Immo. The provision was released and recognised in the income statement in the item "other income".

In connection with disposals, CA Immo Group concludes guarantees under regular market conditions to cover of possible warranty and liability claims on the part of the buyer, for which adequate provisions have been recognised in the balance sheet.

Following the disposal of Tower 185, Frankfurt, as at 31.12.2013 CA Immo Group granted a guarantee for compensation of rent-free periods as well as rent guarantees for which adequate provisions have been recognised in the balance sheet. The shares in CA Immo Frankfurt Tower 185 GmbH & Co KG as well as the shares in CA Immo Frankfurt 185 Betriebs GmbH were pledged as security for loans of two joint ventures.

CA Immo Group issued guarantees for bank liabilities of six joint ventures in Poland in the amount of € 44,269 K.

In connection with a tax audit in Eastern Europe, there is uncertainty in respect of the possibility of imposing late interest penalties. CA Immo Group considers the probability of the effective charge for this penalty as low.

Mortgages, pledges of rental receivables, bank accounts and share pledges as well as similar guarantees are used as collateral for bank liabilities.

Other financial obligations

Furthermore, other financial obligations relate to building site liabilities for work carried out in the course of developing real estate in Austria, in the amount of € 2,103 K (31.12.2014: € 1,223 K), in Germany, in the amount of € 32,922 K (31.12.2014: € 26,520 K) and in Eastern Europe in the amount of € 10,381 K (31.12.2014: € 1,237 K). In addition as at 31.12.2015 CA Immo Group is subject to other financial liabilities resulting from construction costs from urban development contracts which can be capitalised in the future in an amount of € 52,943 K (31.12.2014: € 34,974 K).

The amount of contingent liabilities for CA Immo Group as at 31.12.2015 for contributions of equity, and loans to the E-Fonds amount to € 0 K (31.12.2014: € 106,935 K). As at 31.12.2015 the contingent liability in connection with the equity contribution in case of one joint venture in Germany stands at € 5,021 K (31.12.2014: € 6,271 K). The contingent liability as at 31.12.2015 in connection with the equity contribution in case of one joint venture in Bulgaria amounts to € 450 K (31.12.2014: € 500 K). As at 31.12.2015 the contingent liability for contributions of equity in respect of construction cost overrun of one joint venture in Poland amounts to € 0 K. Besides the above mentioned contingencies, no further obligations exist in connection with joint ventures.

41. Leases

CA Immo Group as lessor

All lease contracts concluded by CA Immo Group, under which CA Immo Group is the lessor, are recorded as operating leases in accordance with IFRS. These generally have the following essential contractual terms:

- linkage to EUR or USD
- guaranteed value by linkage to international indices
- medium- to long-term maturities and/or termination waivers

Future minimum rental incomes from existing short-term lease contracts or contracts with termination waivers as at the reporting date are as follows:

€ 1,000	2015	2014
In the following year	157,482	114,668
Thereafter 4 years	349,402	281,990
More than 5 years	233,198	247,083
Total	740,081	643,741

All remaining rental agreements may be terminated at short notice.

The minimum rental income includes net rent amounts to be collected until the contractually agreed expiration of the contract or the earliest possible termination option by the lessee (tenant).

CA Immo Group as lessee

All rental agreements signed by CA Immo Group are classified as operating leases.

The lease contracts concluded by CA Immo Germany Group acting as lessee primarily relate to rented properties in Cologne (until 2016), Munich (until 2017), Berlin (until 2018) and Frankfurt (until 2021).

The remaining operating lease agreements of CA Immo Group relate to office furniture, equipment and other assets. No purchase options have been agreed. Leasing payments of € 2,052 K were recognised as expenses in 2015. (2014: € 2,406 K).

The following minimum lease payments will become due in the subsequent periods:

€ 1,000	2015	2014
In the following year	1,830	1,916
Thereafter 4 years	4,257	5,339
More than 5 years	101	641
Total	6,188	7,896

42. Transactions with related parties

The following companies and parties are deemed to be related parties to CA Immo Group:

- joint ventures, in which CA Immo Group holds an interest
- associated companies, in which CA Immo Group holds an interest
- the executive bodies of CA Immobilien Anlagen Aktiengesellschaft
- UniCredit Bank Austria AG, Vienna, and its affiliated UniCredit Group until 28.10.2014
- O1 Group Limited, Cyprus, and its affiliated O1 Group since 28.10.2014

Transactions with joint ventures

€ 1,000	31.12.2015	31.12.2014
Investments in joint ventures	172,286	206,136
Investments in joint ventures held for sale	2,982	7,414
Loans	6,162	305,452
Receivables	39,779	17,004
Liabilities	37,637	39,973
Provisions	19,528	6,703
	2015	2014
Joint ventures result	42,524	8,816
Result from sale of joint ventures	697	– 659
Result from joint ventures	43,221	8,157
Other income	5,382	6,979
Other expenses	– 1,357	– 2,342
Interest income	5,363	11,788
Interest expense	– 696	– 484
Interest income present value financial investments	2,772	30,214
Impairment of loans	0	– 9,301

Outstanding loans to joint ventures and the majority of the receivables from joint ventures as at the reporting date serve to finance the properties. The interest rates are in line with those prevailing on the market. Partly guarantees or other forms of securities exist in connection with these loans. The cumulative impairment loss on loans to joint ventures amounts to € 12,114 K (31.12.2014: € 18,500 K). Receivables from joint ventures comprise short-term loans in the amount of € 34,580 K (31.12.2014: € 9,993 K). Liabilities against joint ventures include long-term loans amounted to € 0 K (31.12.2014: € 14,573 K). All receivables and liabilities have interest rates in line with those prevailing on the market. The remaining receivables and liabilities are predominantly the result of services performed in Germany. No guarantees or other forms of security exist in connection with these receivables and liabilities.

No additional impairment losses or other adjustments to the book values were recognised in profit or loss.

Transactions with associated companies		
€ 1,000	31.12.2015	31.12.2014
Investments in associated companies	0	18
Loans	12,827	20,524
	2015	2014
Expenses due to associated companies	- 6,297	- 3,146
Result from associated companies	- 6,297	- 3,146

Loans to associated companies outstanding as at the reporting date relate to the project "Airport City St. Petersburg". All loans have interest rates in line with those prevailing in the market. No guarantees or other forms of security exist in connection with these loans. The cumulative impairment loss recognised on loans to associated companies amounts to € 9,575 K (31.12.2014: € 9,447 K).

The executive bodies of CA Immobilien Anlagen Aktiengesellschaft, Vienna Management Board

Frank Nickel (Chief Executive Officer from 1.1.2016)

Dr. Bruno Ettenauer (Chief Executive Officer to 31.12.2015)

Florian Nowotny

In business year 2015, total salary payments to active Management Board members stood at € 1,485 K (€ 1,326 K in 2014). Of this amount € 101 K (2014: € 93 K) were salary-related deductions. Management Board remuneration contains € 545 K in short term incentives (€ 541 K in 2014) and € 175 K from the LTI tranche for 2012-2014 (€ 74 K in 2014). Fixed salary components made up 52% of Management Board remuneration (54% in 2014), with variable salary components accounting for 48% (46% in 2014). Provisions of € 467 K (including incidental charges) were allocated at Management Board level for variable salary components payable in 2016 on the basis of targets agreed in business year 2015. Provisions totalling € 1,835 K (including incidental charges; € 2,226 K on 31.12.2014) had been formed in connection with the LTI programme as at 31.12.2015; of this, the Management Board accounted for € 206 K (€ 483 K in the previous year). During business year 2015, contributions to pension funds for Management Board members (defined contribution plan) totalled € 60 K (€ 56 K in 2014). Following early termination of his Management Board contract by mutual agreement, Dr. Bruno Ettenauer received a severance payment of € 2,490 K in business year 2015; appropriate provision was made on the balance sheet date for payment of an additional € 150 K on 30 June 2016. Corresponding salary-based deductions amounted to € 197 K (2014: € 0 K). There are no further obligations. Payments to form a reserve for severance payment claims (defined benefit plan) amounted to € 65 K in the last business year (compared to € 97 K in 2014). As at 31 December 2015, severance payment provisions totalled € 189 K (€ 337 K on 31.12.2014). No loans or advances were paid to Management Board members.

Payments have been made to former members of the Management Board as follows: A total of € 320 K was paid to former Management Board members from maturity of the LTI tranche for 2012-2014. After resigning his mandates as a member of the CA Immo Management Board and Chief Executive Officer of CA Immo Deutschland GmbH, Bernhard H. Hansen continued to receive a salary (including variable components) until the expiry of his contracts in September 2015, which were reflected in the consolidated financial statements for 2013. In total, therefore, € 320 K was paid to former members of the Management Board (€ 393 K in 2014).

Supervisory Board

Dr. Wolfgang Ruttendorfer, Chairman
 Dimitry Mints, Vice Chairman
 MMag. Dr. Maria Doralt
 Richard Gregson (from 28.4.2015)
 Barbara A. Knoflach
 John Nacos (from 28.4.2015)
 Michael Stanton
 Mag. Franz Zwickl (to 17.2.2016)

In the business year 2015, total expenditure for the Supervisory Board was € 215 K (against € 135 K in 2014). Of this amount, fixed salaries for business year 2014 totalled approximately € 198 K (previous year: € 122 K; the figure includes attendance fees of € 19 K, as against € 10 K in the previous year), cash outlays for travel expenses stood at € 13 K (2014: € 12 K), and other expenditure came to € 4 K (2014: € 1 K). No other fees (particularly for consultancy or brokerage activities) were paid to Supervisory Board members.

All business transactions conducted between the company and members of the Supervisory Board which oblige such members to perform services for the CA Immo Group outside of their Supervisory Board activities in return for remuneration of a not inconsiderable value (article 228 section 3 of the Austrian Commercial Code) must conform to industry standards and be approved by the Supervisory Board. The same applies to contracts with companies in which a Supervisory Board member has a significant business interest. In this specific case, the conclusion of agreements with, and award of assignments to, the global law office DLA Piper and its international partner firms is particularly relevant because Maria Doralt, who is a member of the Supervisory Board of CA Immo is also a partner in DLA Piper. A letter of engagement has existed with DLA Piper UK LLP since the end of 2012 concerning advice relating to the letting of the Kontorhaus office building in Munich. On behalf of the refinancing banks DLA Piper Weiss-Tessbach Rechtsanwälte GmbH acted in an advisory capacity in connection with two refinancing operations in Hungary. The relevant fees correspond to usual hourly rates for the sector and totalled € 164 K for business year 2015 (€ 59 K in 2014). No other fees (particularly for consultancy or brokerage activities) were paid to Supervisory Board members. No loans or advances were granted.

O1 Group Limited, Cyprus/O1 Group

In Q4 2014, UniCredit Bank Austria AG – with a share of 16% of the capital stock the biggest shareholder of CA Immo – sold its 15,954,891 CA Immo shares (among them four registered shares, each granting the right to nominate one member of the supervisory board) to O1 Group Limited (“O1”).

Following the conclusion of a voluntary public takeover bid, O1 Group Limited has directly or indirectly held 25,690,163 bearer shares and four registered shares since 20.2.2015. This corresponds to about 26.54% of the voting rights.

CA Immo and O1 are also parties acting in concert under the terms of the Austrian Takeover Act in connection with the voluntary public partial offer made to the shareholders of IMMOFINANZ AG in 2015. A joint declaration of intent was made with O1.

As the result of a competitive process, a purchase agreement for a site earmarked for residential construction in Berlin (Kunstkübus, Europacity) was concluded in Q2 2015 with Vesper Real Estate (Cyprus) Limited, a company indirectly controlled by Boris Mints (beneficial owner of O1). The agreed purchase price was € 7 m. The customary arm’s length nature of the transaction, which contributed significantly to a positive result for CA Immo, was confirmed by an external fairness opinion.

UniCredit Bank Austria AG/UniCredit Group

UniCredit Bank Austria AG is the principal bank of the CA Immo Group and was until 28.10.2014. the largest single shareholder in the Company with a stake of about 16% including four registered shares. CA Immo Group processes most of its payment transactions and arranges much of its credit financing and financial investment through the bank.

Due to the sale of the shares to O1 Group Limited, only amounts for the consolidated income statement and the consolidated cash flow statement for the fiscal year 2014 are shown in the following table:

– Consolidated income statement:

€ 1,000	2014
Finance costs	– 32,217
Result from interest rate derivative transactions incl. Reclassification	– 11,916
Result from financial investments	217
Transaction fees	– 327

– Other comprehensive income (equity):

€ 1,000	2014
Valuation result of period (Hedging)	6,022

–Consolidated statement of cash flows:

€ 1,000	2014
Raising of new bank loans	5,947
Repayment of bank loans	– 71,195
Realisation and acquisition of interest rate derivative transactions	– 9,249
Interest paid	– 31,189
Interest received	217

Mortgages, pledges of rental receivables, bank accounts and share pledges as well as similar guarantees are used as collateral for bank liabilities. No impairment losses were recognised in profit or loss for bank receivables. The terms and conditions governing the transactions with UniCredit Bank Austria AG/UniCredit Group are in line with those prevailing in the market.

43. Key figures per share
Earnings per share

A convertible bond was issued in November 2009. Until the redemption date in November 2014 this bond had an effect on the earnings per share.

		2015	2014
Weighted average number of shares outstanding	pcs.	97,941,735	92,907,093
Consolidated net income	€ 1,000	220,839	70,798
basic earnings per share	€	2.25	0.76

		2014
Weighted average number of shares outstanding	pcs.	92,907,093
Dilution effect:		
Convertible bond	pcs.	5,992,363
Weighted average number of shares	pcs.	98,899,456
Consolidated net income attributable to the owners of the parent	€ 1,000	70,798
Dilution effect:		
Effective interest on convertible bond	€ 1,000	2,413
less taxes	€ 1,000	– 603
Consolidated net income attributable to the owners of the parent adjusted by dilution effect	€ 1,000	72,608
Diluted earnings per share restated	€	0.73

Due to corrected calculation of dilution effect of convertible bond, the deluted earnings per share for 2014 were restated.

44. Employees

In 2015 CA Immo Group had an average of no blue-collar worker (2014: 1) and 331 white-collar workers (2014: 413) of whom on average 66 (2014: 64) were employed in Austria, 158 (2014: 155) in Germany, 22 (2014: 101) in hotel operations in Czech Republic and 85 (2014: 93) in subsidiaries in Eastern Europe.

45. Costs for the auditor

The expenses presented in the table below refer to fees for KPMG Austria GmbH Wirtschaftsprüfungs- und Steuerberatungsgesellschaft.

€ 1,000	2015	2014
Auditing costs	433	420
Other review services	155	150
Other consultancy services	118	105
Total	706	675

In the course of the issue of the corporate bond 2016-2023 additional € 90 K for other review services were paid to the auditor.

In consolidated income statement, the audit expenses, including review amount to € 1,356 K (2014: € 1,319 K). Out of this, the amount for KPMG entities amounts to € 1,335 K.

46. Events after the close of the business year

In February 2016 CA Immobilien Anlagen AG issued a corporate bond with a total volume of € 150 m and a term of seven years. The coupon rate of the fixed interest bond is 2.75%.

On 8.1.2016 the Management Board adopted another share buyback programme with a volume of up to one million shares (representing approx. 1% of the current share capital). In the course of this share buyback programme a total of 1,000,000 bearer shares (ISIN AT0000641352) in the company were acquired in the period between 13.1.2016 and 19.2.2016 for a total price of € 15,392,916.72, so that the company currently holds a total of 3,000,000 treasury shares (corresponding to approx. 3%).

These consolidated financial statements were prepared by the Management Board on the date below. The individual and consolidated financial statements for CA Immobilien Anlagen Aktiengesellschaft will be presented to the Supervisory Board on 22.3.2016 for approval.

Vienna, 17.03.2016

The Management Board

Frank Nickel
(Chairman)

Florian Nowotny
(Management Board Member)

DECLARATION OF THE MANAGEMENT BOARD PURSUANT TO SECTION 82 (4) OF THE AUSTRIAN STOCK EXCHANGE ACT

The management board confirms to the best of their knowledge that the consolidated financial statements of CA Immobilien Anlagen Aktiengesellschaft, which were prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU, give a true and fair view of the consolidated financial position of CA Immo Group and its consolidated financial performance and of its consolidated cash flows and that the group management report gives a true and fair view of the business development, the financial performance, and financial position of the Group, together with a description of the principal risks and uncertainties the CA Immo Group faces.

Vienna, 17 March 2016

The Management Board

Frank Nickel
(Chairman)

Florian Nowotny
(Management Board Member)

AUDITOR'S REPORT**Report on the Consolidated Financial Statements**

We have audited the accompanying consolidated financial statements of

**CA Immobilien Anlagen Aktiengesellschaft,
Vienna,**

for the fiscal year from **1 January 2015 to 31 December 2015**. These consolidated financial statements comprise consolidated statement of financial position as of 31 December 2015, the consolidated income statement, consolidated statement of comprehensive income, the consolidated statement of cash flows and the consolidated statement of changes in equity for the fiscal year 2015 and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Consolidated Financial Statements

The Company's management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU, and the additional requirements pursuant to § 245a UGB (Austrian Commercial Code) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Austrian Standards on Auditing. Those standards require that we comply with International Standards on Auditing – ISA. In accordance with International Standards on Auditing, we are required to comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Group's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

Our audit did not give rise to any objections. In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Group as of 31 December 2015 and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU.

Report on the Management Report for the Group

Pursuant to statutory provisions, the management report for the Group is to be audited as to whether it is consistent with the consolidated financial statements and as to whether the other disclosures are not misleading with respect to the Company's position. The auditor's report also has to contain a statement as to whether the management report for the Group is consistent with the consolidated financial statements and whether the disclosures pursuant to Section 243a UGB (Austrian Commercial Code) are appropriate.

In our opinion, the management report for the Group is consistent with the consolidated financial statements. The disclosures pursuant to Section 243a UGB (Austrian Commercial Code) are appropriate.

Vienna, 17 March 2016

KPMG Austria GmbH
Wirtschaftsprüfungs- und Steuerberatungsgesellschaft

This report is a translation of the original report in German, which is solely valid.

Publication of the consolidated financial statements together with our auditor's opinion may only be made if the consolidated financial statements and the management report are identical with the audited version. The Auditor's Report only refers to the complete German version of the consolidated financial statements and the management report. Section 281 paragraph 2 UGB (Austrian Commercial Code) applies.

SUSTAINABILITY INDEX

Indicator	Page
Governance, commitments and engagement	
Strategy	4–6
Effects, risks and opportunities of sustainability	72–78
Prevention of conflicts of interest	22–26
Mission statement, internal code of conduct, principles	18–26
Stakeholder dialogue	7–12, 18–26, 69–70
Anti-corruption policies and procedures	22–26
Economic performance indicators	68
Research and development to ensure long-term competitiveness	71
Environmental performance indicators	
Water, power and energy intensity of the property assets	18–21
Greenhouse gas emissions intensity from buildings	18–21
Initiatives to provide energy-efficient products and services and mitigate environmental impacts of products	18–21
Land remediation	18–21
Certification of development projects	18–21
CA Immo as employer	
Total number and rate of new employees hired and employee turnover by age group, gender and region	69–70
Rates of injury, occupational diseases, lost days and absenteeism, and total number of work-related fatalities, by region and by gender	69–70
Further education and training per employee, by gender	69–70
Composition of governing bodies and breakdown of employees according to gender and age group	69–70
Site-specific selection of personnel	69–70

DISCLAIMER

This Annual Report contains statements and forecasts which refer to the future development of CA Immobilien Anlagen AG and their companies. The forecasts represent assessments and targets which the Company has formulated on the basis of any and all information available to the Company at present. Should the assumptions on which the forecasts have been based fail to occur, the targets not be met or the risks set out in the risk management report materialise, then the actual results may deviate from the results currently anticipated. This Annual Report does not constitute an invitation to buy or sell the shares of CA Immobilien Anlagen AG.
