FOREWORD BY THE MANAGEMENT BOARD

Left to right: Andreas Quint (CEO), Keegan Viscius (CIO)

DEAR SHAREHOLDERS,

The results for quarter one of 2019 have followed seamlessly on from a highly successful year of growth and profits in 2018. With a 9% rise in rental income driving, inter alia, an increase in FFO I of 7%, we are reaping the first benefits of last year's intensive development and acquisition activity.

The first three months of 2019 produced a **significant 9.4% rise in the result from renting** to €46.7 m, largely due to strong portfolio expansion in 2018. The completion of four projects – the KPMG building in Berlin, InterCityHotel Frankfurt Hauptbahnhof, ViE in Vienna and Orhideea Towers in Bucharest – also delivered positive contributions in terms of yearly comparisons, as in Central and Eastern Europe did the acquisition of the Warsaw Spire C office building in Warsaw, Campus 6.1 in Bucharest and the Visionary building in Prague. Both the efficiency of letting activity (92.2% ratio in the result from renting to rental income) and the occupancy rate for the portfolio (94.4%) were sustained at very high levels.

The income statement includes non-cash valuation effects that adversely affect the financial result and thus

consolidated net income; there are no cashflow-relevant effects (for details, please see the 'Results' section).

Therefore, the **result for the period** in the first quarter of 2019 totalled €5.4 m (81.2% below the previous year's value of €28.8 m, largely due to the aforementioned non-cash valuation effects). Earnings per share amounted to € 0.06 on the balance sheet date (€ 0.31 per share in 2018).

An **FFO I** of €29.6 m was earned in the first three months of 2019, 6.6% above the previous year's value of €27.7 m. FFO I per share stood at €0.32 on the key date, an increase of 6.7% on the 2018 value of €0.30 per share.

The **EPRA NAV** (undiluted) was €33.46 per share as at the key date, up on the value of €33.30 per share on 31 December 2018.

The **CA Immo share** also continued its positive development in the first quarter of the year. The share price rose by 17% since the start of the year to stand at €32.20 on the final day. By comparison, the ATX and EPRA, the European index for real estate (excluding the UK), reported increases of approximately 11% and 12% respectively.

Results of the Ordinary General Meeting: Changes to the Supervisory Board

The 32nd Ordinary General Meeting of CA Immo was held on 9 May 2019. Taking account of the treasury shares held by the company, which do not confer voting rights, attendance was approximately 67% of the capital stock with voting rights. Aside from the usual items, authorisation to acquire and sell treasury shares and elections to the Supervisory Board were on the agenda. All resolutions proposed by the company had the legally required majority. Dr. Monika Wildner and Jeffrey G. Dishner were elected to the Supervisory Board of CA Immo until the end of the Ordinary General Meeting ruling on the approval of actions in business year 2023.

Dividend raised to €0.90 per share

Shareholders attending the Ordinary General Meeting approved our proposal to raise the dividend for the sixth time in succession on the basis of the strong operational result and pay 90 cents per share for business year 2018. The dividend therefore rose by 12.5% in yearly comparison (2018: 80 cents per share). This corresponds to our long-term objective of paying out approximately 70% of long-term revenue (FFO I).

New Chief Financial Officer from 1 June 2019

Dr. Andreas Schillhofer (47), who was appointed a member of the Management Board and CFO of the company on 8 March 2019 by the Supervisory Board of CA Immobilien Anlagen AG, will take up his post on 1 June. In this capacity he will be responsible for the departments of Accounting and Taxation, Controlling and Risk Management, Financing, Capital Market and Investor Relations and Property Valuation.

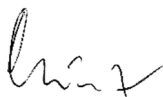

High levels of pre-letting on projects

Demand for our (office) projects remains high. In the second quarter, we concluded long-term rental agreements for more than 10,000 sqm of floor space at **MY.B in Berlin** and **ONE in Frankfurt**, both of which are under construction. The two office projects in Berlin that we plan to complete by the end of 2019 and transfer to the portfolio were thus 89% pre-let (MY.B) and 100% pre-let (Kunstcampus office building) as of the end of May.

Outlook

The annual target for recurring earnings – an increase in FFO I on last year's value of €118.5 m to over €125 m – is hereby confirmed.

CHANGES IN PRESENTATION AND ACCOUNTING POLICIES

The IFRS 16 standard on the subject of leasing came into force on 1 January 2019. Amongst other things, the standard involves changes in connection with leasing agreements for cars, operating and office equipment, lease agreements and usufruct.

In cases where the CA Immo Group is a tenant and not the landowner, the application of IFRS 16 leads to recognition of a right of usage and a liability. The relevant agreements of the CA Immo Group relate to properties in Poland and Serbia. The leasing of parking spaces via subletting also results in recognition of a right of usage and a lease liability. In both situations, the usage rights are shown in the item 'Investment properties' and assessed under IAS 40. Amongst other things, the initial application of IFRS 16 led to an increase of €31.3 m in the item 'Investment properties' as of 1 January 2019.

Moreover, the CA Immo Group will post revenue from operating costs passed on to tenants separately, in line with the allocation of components to IFRS 16 or IFRS 15, as from 1 January 2019. The proportion of operating costs entered as a part of leasing income under IFRS 16 will be allocated to rental income. Associated expenditure will be entered in the item 'Other expenditure directly attributable to property assets'. As from 2019, the items 'Operating expenses' and 'Operating expenses passed on to the tenant' will only contain components assignable to IFRS 15.

The comparative values have not been adjusted. For details of the effects of IFRS 16 on the consolidated financial statements, please refer to the Annual Report for 2018, pp. 147-148.

RESULTS

Sustained earnings

The IFRS 16 standard concerning leasing came into force on 1 January 2019. As a result, the CA Immo Group will post revenue from operating costs passed on to tenants separately, in line with the allocation of components to IFRS 16 or IFRS 15, as from 1 January 2019. The proportion of operating costs entered as a part of leasing income under IFRS 16 will be allocated to rental income. Associated expenditure will be entered in the item 'Other expenditure directly attributable to property assets'. As from 2019, the items 'Operating expenses' and 'Operating expenses passed on to the tenant' will only contain components assignable to IFRS 15. For details of the effects of IFRS 16 on the consolidated financial statements, please refer to the Annual Report for 2018, pp. 147-148.

In the first three months of 2019, rental income for CA Immo rose by a strong 9.8% to € 50.7 m (adjusted for the IFRS 16 effect in the amount of € 7.6 m). This positive development was linked to portfolio expansion in 2018. Completion of the KPMG building in Berlin, InterCity in Frankfurt and Orhideea in Bucharest alongside the acquisition of the Warsaw Spire C office building in the Polish capital, Campus 6.1 in Bucharest and the Visionary building in Prague delivered a positive contribution in terms of yearly comparisons.

In year-on-year comparison, property expenses directly attributable to the asset portfolio, including own operating expenses, were flat at € -3.5 m compared to € -3.5 m in 2018 (adjusted for the IFRS 16 effect in the amount of € -8.0 m). The result from renting after the first quarter was € 46.7 m, up 9.4% on the 2018 value of € 42.7 m. The efficiency of letting activity (also adjusted for the IFRS 16 effect), measured as the operating margin in rental business (net rental income in relation to rental income), was 92.2%, stable compared to the previous year's value of 92.5%.

Other expenditure directly attributable to project development stood at € -1.5 m after the first three months, against € -1.9 m in 2018. Gross revenue from services stood at € 1.9 m, below the previous year's level of € 3.7 m. Alongside development revenue for third parties via the subsidiary omniCon, this item contains revenue from asset management and other services to joint venture partners.

Sales result

As at the key date, the result from trading and construction works was € -0.4 m (€ 4.5 m in 2018). The result

from the sale of investment properties stood at € 1.3 m on 31 March 2019 (€ 3.6 m in 2018).

Indirect expenditures

After the first three months, indirect expenditures stood at € -10.4 m, -13.8% below the 2018 level of € -12.1 m. This item also contains expenditure counterbalancing the aforementioned gross revenue from services. Other operating income stood at € 0.5 m compared to the 2018 value of € 0.2 m.

Earnings before interest, taxes, depreciation and amortisation (EBITDA)

As a result of the developments outlined above, earnings before interest, taxes, depreciation and amortisation (EBITDA) fell by -6.4% to € 38.1 m (compared to € 40.8 m in 2018).

Revaluation result

After the first three months, the total revaluation gain of € 22.4 m was counterbalanced by a revaluation loss of € -6.3 m. The cumulative revaluation result of € 16.1 m on the key date developed positively compared to the previous year's reference value (€ -0.6 m in 2018). The largest contributions to the revaluation gain in terms of amount came from value adjustments linked to construction progress on the development projects Cube, MY.B and Kunstcampus (BT2) office building in Berlin as well as MY.O and NEO in Munich.

Result from joint ventures

Current results of joint ventures consolidated at equity are reported under 'Result from investments in joint ventures' in the consolidated income statement. The low contribution to earnings of € 0.4 m (€ 17.0 m in 2018) reflects the reduced volume of joint ventures as part of the strategic streamlining of the portfolio.

Earnings before interest and taxes (EBIT)

Earnings before interest and taxes (EBIT) were € 53.5 m, -5.5% below the 2018 result of € 56.6 m.

Net finance cost

The financial result stood at € -39.7 m after the first three months (€ -18.0 m in 2018). Despite a higher financing volume, the Group's financing costs, a key element in recurring earnings, were essentially stable (-0.9% down on the 2018 value at € -9.5 m).

The result from interest rate derivative transactions includes non-cash valuation effects in connection with the

convertible bond (€ –15.8 m) plus interest rate hedges and amounted to € –28.2 m (€ –9.3 m in 2018). The convertible bond issued in 2017 comprises a debt component and a separable embedded derivative based on the option of repayment in CA Immo shares. The attributable fair value of the derivative corresponds to the difference at the time of issue between the attributable fair value of the convertible bond and the attributable fair value of the debt component.

The result from financial investments of € 0.8 m was below the reference value for the previous period (€ 1.0 m in 2018). Other items in the financial result (result from other financial assets and result from associated companies and exchange rate differences) totalled € –2.8 m (€ –0.2 m in 2018). The result from associated companies relates to the valuation of loans granted to an associated company in Russia.

Taxes on income

Earnings before taxes (EBT) totalled € 13.7 m, –64.4% below the previous year's value of € 38.6 m, largely because of the somewhat lower financial result. On the key date, taxes on earnings stood at € –8.3 m (€ –9.7 m in 2018).

Profit for the period

The result for the period was € 5.4 m, –81.2% below the 2018 value of € 28.8 m. Earnings per share amounted to € 0.06 on the balance sheet date (€ 0.31 per share in 2018).

Funds from operations (FFO)

An FFO I of € 29.6 m was generated in the first three months of 2019, 6.6% above the previous year's value of € 27.7 m. FFO I, a key indicator of the Group's long-term earning power, is reported before taxes and adjusted for the sales result and other non-permanent effects. FFO I per share stood at € 0.32 on the key date, an increase of 6.7% on the 2018 value of € 0.30 per share.

FFO II, which includes the sales result and applicable taxes, stood at € 25.1 m on the key date, –3.7% below the 2018 value of € 26.0 m. FFO II per share amounted to € 0.27 (€ 0.28 per share in 2018).
